SERIAL NO. 4070

Sub. No. 1 THE COMMISSIONER'S CORNER

Greetings again my distinguished Colleagues,

I trust that you have been having a great week. Last week, eight members were promoted to the rank of Superintendent. Please join me in offering heartfelt congratulations to these hard working and committed Commanding Officers, who have been delivering great command leadership to their juniors.

We continue to make steady progress in the decline of major crimes, especially murders. The figure for murder so far this year is 44% less than what it was for the corresponding period last year. I know your unrelenting effort is the main driver behind this, and so I am very confident in our ability to sustain it. The spin-off benefits of this level of reduction in major crimes are many. One of which is the recent decision by the U.S. Department of State to lower Jamaica's travel advisory to Level 2, sending a clear signal that the work we are doing is making a meaningful impact – both at home and abroad.

So what does that mean Colleagues? Firstly, a travel advisory issued against a country is a caution by the issuing country to its residents of the risk of travel to that country. This risk is scaled at 4 levels, namely Levels 1 to 4. A Level 1 advisory is an advice to travellers to exercise normal precautions. Level 2 is an advice to exercise increased caution. Level 3 advises travellers to reconsider travel; and Level 4 is an advice not to travel.

Violent crime is among the risk factors that are used to determine the advice. To be assessed as Level 3, means that the international perception of safety and security in Jamaica is bad. The impact of that on tourism can be significant. These are real consequences, where the effects are felt at all levels within our society - effects and consequences that our citizens had to endure because of the actions of the deviants among us.

Colleagues, the significant improvement in our security landscape, brought about primarily by your consistent and dedicated effort in facing down these murdering thugs and gangsters, have been a major contributor to the revised assessment and a downgrade of the travel advisory from Level 3 to Level 2. This has now placed us among countries like Iceland, Japan, New Zealand, Switzerland, Portugal, Denmark and Norway; which are deemed to be the safest countries to visit for any US traveller. Colleagues, we are not just breaking stones, we are building a cathedral.

So, if at any time you feel as though your tour of duty is simply a passage of time, hastily remind yourself that the results that we are now seeing is primarily due to the value of your effective presence; your meticulous investigations; your searching intelligence processing; and your detailed and thorough approach to executing your administrative responsibilities. It means therefore that we cannot afford for any single member among us to not effectively deliver on the mandate. Colleagues, the stakes are high and so we will not rest until we totally break our country free from the stranglehold of violent crimes.

As Commissioner of Police, I take this moment to extend my heartfelt appreciation to every one of you for your continued dedication, resilience, and professionalism in the service of our beloved country. Colleagues, I want to also single out the Area 1 Team, and highlight in particular the management and staff of the Trelawny and Hanover Divisions that recorded 3 months and 2 months of only one murder, respectively. Both Divisions delivered a month with zero murders. But probably most profound is the St. James Division's recording of a single murder in a month for the second time this year. Great going guys!

While we celebrate this progress, we know our mission is far from over. Let this be a moment of motivation to press forward with even greater determination, knowing that our efforts are changing lives and reshaping Jamaica's future for the better.

THE COMMISSIONER'S CORNER (CONT'D)

Colleagues, I am proud to lead this Force for Good. I am proud of you and what we have achieved together. Let us stay focused, stay united, and continue to move with purpose, and with collective efficacy.

I wish for you and your families a blessed and peaceful weekend. Please find some time to bask in the company of those who matter most – your families. Until next week, walk good.

Sub No. 2 JAMAICA CONSTABULARY FORCE POLICY AND STANDARD OPERATING PROCEDURES FOR THE MANAGEMENT OF BODY-WORN CAMERAS

Attached to these Orders as [Appendix 'A'](#) is the Jamaica Constabulary Force Policy and Standard Operating Procedures for the Management of Body-Worn Cameras for general information and strict compliance.

This Policy supersedes that in Force Orders No. 3884 dated 2021-11-11 and all subsequent republication.

Sub No. 3 ESTABLISHMENT OF THE FORENSIC SERVICES BRANCH

Introduction

Forensic science plays a critical role in supporting criminal investigations through the scientific analysis of physical, biological, digital and documentary evidence. Given this significance, a Forensic Services Branch (FSB) is being established within the Crime and Security Portfolio. This restructuring is aimed at enhancing forensic governance, facilitating interdisciplinary collaboration, retaining skilled forensic experts and effective succession planning. The FSB consolidates the Technical Services Division (TSD) and the Communication Forensics and Cybercrime Division (CFCD), resulting in great efficiencies and improved service delivery.

A new Formation to the Branch is the Forensic Intelligence and Behavioural Analysis Unit (FIBAU). This Unit will include researchers, crime and behavioural analysts. Its primary focus will be the collating and analysing of data from all the forensic services, providing opportunities for linked investigations and proactive policing.

Background

Over the years, the JCF's forensic functions were situated under different branches. This resulted in operational bottlenecks such as inconsistent turnaround times, disjointed scene responses and uneven access to critical forensic resources. The FSB was therefore developed to bring together all major forensic disciplines, both traditional and digital, under one strategic branch, strengthening the JCF's investigative and prosecutorial support capabilities.

Branch Mandate

- Deliver impartial, timely, and scientifically sound forensic support to all investigations conducted by the JCF and relevant stakeholders.
- Consolidate traditional and digital forensic services under a unified, integrated command.
- Examine, analyse, interpret, and report on physical, biological, digital and documentary evidence.
- Uphold organisational and international standards through quality assurance and ethical practices.
- Guide the development of forensic policies, procedures and operational frameworks.

APPENDIX 'A' (CONT'D) TO FORCE ORDERS NO. 4070 DATED 2025-06-05

1.0 Introduction

The Jamaica Constabulary Force (JCF), in its service to the citizens of Jamaica, recognized the critical roles of accountability and transparency in its service delivery and legitimacy. Being attuned to evolving technologies, the JCF is cognizant of the support that the independence of Body Worn Cameras (BWC) would bring to its priority of increasing accountability and professional standards.

Policing in other jurisdictions is replete with the independence that video footage from a BWC provides, running the gamut from vital evidence to verification of an opportunity for training. Recordings from BWCs can be seen as that 'built-in impartial witness' that allows for increased efficiency and reliability thereby engendering trust and confidence in the actions and accounts provided by the JCF.

BWCs used by a members whilst performing their duties, will engender transparency and accountability in their interactions with citizens. BWCs serve as valuable tools in policing as they capture accurate police/public interactions and assist in arriving at the truth in instances of complaints or queries.

2.0 Purpose

This document outlines the JCF's policy and standard operating procedures for procuring, issuing, caring for, activating, and maintaining BWCs, related equipment and accessories, and managing BWCs' recordings.

Depression is defined as a mood disorder that causes a persistent feeling of sadness and loss of interest. Also called major depressive disorder or clinical depression, it affects how you feel, think and behave and can lead to a variety of emotional and physical problems. Anxiety disorders, which involve a persistent state of worry or fear, similarly manifest in everyday activities, causing fatigue and sometimes hurting academic or professional performance. This is especially true for members of the JCF, who are often called to interact with persons experiencing very traumatic/ emotionally disturbing events.

The World Health Organization estimates in 2018 approximately 3% of Jamaicans suffer from depressive disorder and 4% suffer from an anxiety disorder. Since the COVID 2019 pandemic, these rates are presumed to have increased substantially. More specifically, 9% of men globally have daily feelings of depression/anxiety. However, only 25% of these men talk to a mental health professional.

Aetiology

It's not known exactly what causes depression/anxiety. As with many mental disorders, a variety of factors may be involved, such as:

- Brain chemistry: An imbalance of neurotransmitters, including serotonin and dopamine, contributes to the development of depression.
- Genetics: If you have a first-degree relative (biological parent or sibling) with depression/anxiety, you're about three times as likely to develop the condition as the general population. However, you can have depression/anxiety without a family history of it.
- Stressful life events: Difficult experiences, such as the death of a loved one, trauma, divorce, isolation and lack of support, can be a trigger.
- Medical conditions: Chronic pain and chronic conditions like diabetes can lead to depression. Conditions like heart and thyroid disease are also associated with anxiety.

Symptoms

Depression/Anxiety symptoms can vary depending on the individual, but common signs for men include:

- Irritability
- Emotional Numbness
- Withdrawal
- Risky Behaviour
- Aches and Pains

More subtle signs might present as:

- Restlessness
- Procrastination
- Overworking
- Excessive Exercise

Treatment and Management

Depression and anxiety can be managed effectively via:

- Consulting with a psychologist and/or psychiatrist
- Joining a support group to better understand mental illness
- Taking any prescribed medications consistently

To help prevent these illness from developing or becoming worse, we can ensure to:

- Choose a primary care provider and go regularly.
- Get screening tests based on your age and family history.
- Eat healthy to prevent or manage chronic conditions.
- Get and stay active.
- Manage stress and seek a mental health professional if needed.

*If you have any questions with regards to depression or anxiety, please contact the **Medical Services Branch** at (876)749-0470 (ext. 69103/ 69107)/ (876) 224-4486/ 224-4041 and set an appointment today.*

APPENDICES 'E' TO 'G' - LETTERS OF APPRECIATION
APPENDIX 'E' TO FORCE ORDERS NO. 4070 DATED 2025-06-05

The Commissioner of Police
Jamaica Constabulary Force
103 Old Hope Road
Kingston 6

Dear Commissioner,

Commendation for Officers from Matilda's Corner Police Station

A few weeks ago, I experienced a distressing incident that compels me to write and formally commend three officers of the Jamaica Constabulary Force for their professionalism, compassion, and timely response.

While en route to a function at the University of the West Indies, my vehicle began to overheat as I turned on Edgecombe Drive, off Barbican Road. Although it was shortly after 7 p.m., I became extremely anxious about exiting my car, acutely aware that such situations could make me vulnerable to criminal activity. I reached out to a few friends and family members for assistance, but none were nearby, and one call went unanswered. As panic set in, I dialed 119 and pleaded for help.

To my immense relief, three officers from the Matilda's Corner Police Station—Constables Henry Gavin (#19349), Kemar Dawkins (#22070), and Leroy Thomas (#21610)—arrived in response. By then, I was hyperventilating and did not have my panic attack medication on hand. Constable Gavin immediately offered reassuring words to calm me down. What I did not disclose to the officers was that in December 1978, I had been the victim of a crime of opportunity under similar circumstances, which triggered the overwhelming fear I felt being stranded and vulnerable off the main thoroughfare.

When it had cooled sufficiently, the officers checked and refilled the radiator, ensuring that the vehicle could be driven safely. I opted to return home, following Constable Gavin's advice to drive slowly to avoid further overheating.

The kindness, empathy, and composed professionalism of Constable Gavin and his team were deeply comforting and, quite frankly, lifesaving in that moment. These officers exemplified the very best of the JCF's motto: *To Serve, Protect and Reassure*.
