SERIAL NO. 4061

Sub. No. 1 THE COMMISSIONER'S CORNER

Greetings again my distinguished Colleagues,

Let us give thanks for yet another week of progress towards realizing our vision of a peaceful and safe Jamaica. I trust that it has been a great one for you and yours. It is with deep sadness that I pause to recognize the untimely passing of our dear colleague, Sergeant William Wallace. Condolences to his bereaved family, friends, and colleagues. May his blessed soul rest in peace.

Colleagues, you continue to realize record breaking achievements in our fight against crime and violence. The first quarter of 2025 ended on Monday with the lowest number of murders recorded in more than 25 years. It was also the lowest number of major crimes recorded in a quarter since 2001. The quarter represented the 6th consecutive quarter of reduction in murders. You are doing an awesome job, and Jamaica is appreciative.

In our discussion last week I told you about my 2 speaking engagements in Florida, including guest speaking at the gala dinner, celebrating the 2nd anniversary of the Jamaica Ex-Police Association, Palm Bay and Port St. Lucie chapter. Well, I told you that I was going to deliver your message of thanks to those who have laid the foundation upon which we are now building, and to give an account of how we are doing so. And so that's exactly what I did. The event was a resounding success, with a huge turnout of retired members and the families, friends and associates.

I highlighted the ongoing transformation of the Jamaica Constabulary Force while recognizing the legacy of our ex members. I emphasized the three key pillars of transformation: People, Quality, and Technology. They were briefed on the People pillar, and its focus on recruitment, training, and leadership development, ensuring that we uphold high ethical standards and are equipped for effective policing. With respect to the Quality pillar, I showcased our achievement of ISO 9001 certification, and how it signifies a commitment to efficiency, professionalism, and accountability. Lastly, a summary of the Technology pillar was shared, that detailed significant investments in digital infrastructure, cybersecurity, automation of our business processes, and staff development.

As a result of these transformative efforts, we are better able to advance our key strategies, resulting in the significant and continued reduction in major crimes in Jamaica. Colleagues, I reiterated the importance of the support of families and communities in shaping a safer Jamaica. The need for continued collaboration to sustain progress and ensure that the JCF remains a trusted institution dedicated to public safety and national development, was underscored.

And so my Colleagues, your message was delivered. Now, as we move forward, let us remain steadfast in our commitment to building on the legacy of our ex-members. I know that I am preaching to the converted, because it is through your hard work and dedication to the mission of the JCF, that we are making significant strides in securing the people in Jamaica.

Colleagues, we are building a Force that exemplifies professionalism and earns the trust of the people we serve. I have every confidence in each and everyone of us to significantly contribute to the shaping of a Jamaica that is safer, stronger, and more resilient for generations to come. Let us set our sights on this vision every time we venture out for a tour of duty.

Let me wish for you and your families a peaceful and blessed weekend. Stay focused, stay safe, and take care of each other. Until next week, walk good.

FORCE ORDERS (CONT'D)

3RD APRIL, 2025

SERIAL NO. 4061

Sub. No. 2 NO MOTOR VEHICLE INSURANCE COVERAGE

There have been increased reports and complaints of some Police personnel issuing traffic tickets to motorists for "No Motor Vehicle Insurance Coverage", even when evidence is shown by motorists that there is in force a current insurance policy for the motor vehicle. This practice is to stop forthwith.

The Road Traffic Act (2018), Section 7(2)(d) sets out the requirement for insurance with respect of motor vehicles. It outlines that:

(2) The driver of a motor vehicle on a road shall carry evidence of a type prescribed that:-

(d) There is in force in respect of the motor vehicle, insurance coverage in accordance with the Motor Vehicles Insurance (Third-Party Risks) Act;

and shall provide the evidence for inspection upon demand by a constable.

A motorist, when stopped, is therefore required to produce an original insurance certificate or a certified copy. The certification should be done by a Justice of Peace.

Over the past two (2) years, there has been increased digitization of various services, to include issuance of motor vehicle insurance certificates. Insurance companies are issuing insurance certificates in this manner. If a motorist is stopped by the Police and there is a requirement for the production of an insurance certificate and a digitized insurance certificate is shown, this document should be accepted, once there is no reason to believe it is not authentic.

Section 106 of the Road Traffic Act (2018) and Section 12 of the Electronic Transactions Act (Amended 2014) allow for a motorist to show evidence of the vehicle being insured. Where indisputable evidence is shown, the motorist should not be prosecuted.

It is also to be noted that the Smart Check system may not be current for systematic reasons, which are usually temporary and may show that a vehicle is not insured. Where this is the case with a motor vehicle and a motorist shows evidence that the insurance certificate is current, the evidence shown by the motorist is to take precedence over what the Smart Check system may show.

This subject is to form part of weekly lectures for the next six (6) weeks.

Sub. No. 3 PROSECUTION FOR USE OF FOG LAMPS

In recent times, the JCF High Command has received multiple complaints regarding the prosecution of motorists for the use of fog lamps, contrary to the Road Traffic Regulations of 2022, which state that motor vehicles may be equipped with front and/or rear fog lamps for improved visibility in foggy conditions.

The regulatory use as at Section 88 refers to the following factors:

Operation rules:

- Front fog lamps must emit a high beam slanting downwards, striking the road within 90 meters, and pointing straight ahead or to the left.
- Rear fog lamps must only activate when a front fog lamp or headlamp is in use.
- Front fog lamps should be positioned below or in line with a low-beam headlamp.
- Rear fog lamps should be positioned between 25 cm and 1 meter from the ground.
- Parking lamps must activate when fog lamps are in use.
- Fog lamps can only be used in poor visibility conditions (fog, rain, mist, dust, or smoke) and only when the low beam is operational.
- Fog lamps must be controlled separately from headlamps with an independent switch.

PROSECUTION FOR USE OF FOG LAMPS (CONT'D)

Some personnel are however prosecuting drivers who are driving vehicles that have daytime running lights, which are within front bumpers, and which are automatic, meaning that when the vehicle ignition is turned on, the lights are activated as well. These lights are within the scope of Section 87 of the Road Traffic Regulations and brighten automatically when the vehicle travels through an area where it is bleak or foggy. **The drivers of these vehicles are not to be prosecuted.**

There are some motorists who install independent fog lamps or who may modify existing lights on the vehicles which when they are turned on, they are very bright beyond those of the headlamps, positioned improperly or above the headlamps, and have glare that is injurious to other motorists at nights and in the days outside of bleak and foggy conditions. **In these cases, it is in order to prosecute for use of fog lamps contrary to the Road Traffic Regulations.**

Personnel should be reminded that prosecutions done which are not justified may be deemed to be unlawful, and may result in departmental or other legal consequences.

This subject is to form part of weekly lectures for the next six (6) weeks.
