FORCE ORDERS (CONT'D)

2ND AUGUST, 2018

SERIAL NO. 3713

Sub. No. 2 **RE SUBMISSION OF DOCUMENTS FOR OVERSEAS TRAVEL FOR MEMBERS OF THE JAMAICA CONSTABULARY FORCE (JCF)**

It has been brought to attention that submissions for overseas travel for members of the Jamaica Constabulary Force (JCF) continue to reach the office of the Permanent Secretary, Ministry of National Security, outside the prescribed timeline and are excessively late in a majority of cases.

Members are reminded that the Ministry of Finance and the Public Service Circular No. 27/026 dated December 22, 2014, requires that the completed application form must be submitted to the Permanent Secretary at least seven (7) working days before the proposed date of the applicant's departure.

The Cabinet Secretary issued a recent reminder that all documents relating to official visits must be submitted to his office at least seven (7) working days prior to the scheduled travel.

In an effort to improve efficiency in the processing of overseas travel for members of the Force, the Permanent Secretary, Ministry of National Security has directed that these submissions must reach her office at least fourteen (14) working days prior to the intended date of travel. The submission of applications to the Cabinet Office, outside the fourteen (14) days timeline will only be done in exceptional cases.

All officers within the JCF engaged in the processing of documents for overseas travel for members **must** comply with the stated timeline.

Sub. No. 3 **RELOCATION OF THE COUNTER TERRORISM AND ORGANIZED CRIME INVESTIGATION BRANCH (C-TOC)**

The Counter Terrorism and Organized Crime Investigation Branch (C-TOC) offices which were housed at Shop #68, 8-10 Ocean Boulevard, and 127 Harbour Street, Kingston have been relocated to No. 45 East Queen Street, Kingston.

The Communication Forensics and Cybercrime Division however continue to operate from its current location at Shop 2-7 Kingston Mall, 8-10 Ocean Boulevard, Kingston. All numbers and extensions for the Branch remains the same.

Sub. No. 4 **REMINDER - RECORDS MANAGEMENT AND ACCOUNTABILITY**

Force Orders No. 3256, Part I, Sub. No. 2 dated 2009-10-29, is hereby republished for general information.

The Inspectorate of Constabulary has conducted a number of inspections at police stations/formations island-wide and has found a number of deficiencies during these exercises. These deficiencies have compromised the proper maintenance of some station records and general system of accountability with particular reference to the Station Diary. The Station Diary is one such record, when certified was found to be either deficient or lacking in quality of the contents of the **certificate** entries. The identified deficiencies are common and widespread across all the divisions and must be addressed with urgency to ensure proper records keeping and accountability.

Existing provisions do not demand certifying Supervisors to account for action taken in respect of all actionable reports received at the station during their tour of duty. In addition certifying entries are done at ad hoc times and supervisors frequently do not account for actionable reports/entries made after the certification is done.

To encourage follow-up action and a chain of accountability across shifts at the conclusion of each tour of duty, the shift Supervisors will complete and submit the **certification Addendum Form** to the Divisional Commander.

FORCE ORDERS (CONT'D)

2ND AUGUST, 2018

SERIAL NO. 3713

REMINDER - RECORDS MANAGEMENT AND ACCOUNTABILITY (CONT'D)

The proposed **Certification Addendum Form** is intended to ensure greater accountability and responsibility for (a) the delivery of service to the public (b) proper accountability for government properties, prisoners and their properties, and (c) continuity of actionable reports carried forward from one shift to another.

Attached to these orders as [Appendix 'A'](#) is a **Certification Addendum Form Specimen** from the **Office of the Inspectorate of Constabulary, (address)**, for general information and strict compliance.

With effect from 2009-11-01 all Station Supervisors will comply with this directive.

Deficiencies to be corrected by Supervisors

These deficiencies are noted as common across the Stations/Formations island-wide and are listed to provide guidance to shift supervisors when certifying the Station Diary.

- Neglect in proper records keeping, ensuring that the information is transferred to other records i.e. Station Diary – General Property/Exhibit Register, Offence Register, etc.
- Poorly written certificates, both in construct and content
- Failure to certify Station Diary on a daily basis as is mandatorily required
- Failure to treat with actionable reports during each supervisor's tour of duty and accounting for the action taken
- Non-Indexing of reports e.g. threats, stone throwing, and assaults
- Non-referencing of the C.R. 10 Form booklet to cross check corresponding recorded reports
- The accounting for telephone charges collected
- The improper accounting of government properties as actually checked and evidenced by the appropriate records.

REMEDIES

General Guidelines – Station Diary

The following is intended to guide Supervisors in what should inform each certification in the Station Diary.

- a) Proper labeling of exhibit/General Property
- b) Cross referencing – entries complete/accurate
- c) Consecutive numbering, date and time
- d) Subject titling – crime classification
- e) Daily certification and proper accountability for government/non-government properties
- f) Signature of recorder – rank and number
- g) Transfer of relevant entries to other records e.g. Offence, Traffic Offence Register, Crime Book, Patrol Chart, Sudden Death Register, Diet Book, District Constable and Duty Books (Forecast and Roster), indexing of reports, threat and assault and action taken.
- h) Weekly lectures – covering legal, administrative and operational issues.
- i) Proper handing over/taking over procedures
- j) Nightly roll calls
- k) Personnel concerns
- l) Prisoners in custody and prisoner's property
- m) Any other matter treating on the crime status in the police area

APPENDIX 'B' POLICE PROCEDURAL GUIDELINES IN DEALING WITH MISSING PERSONS TO FORCE ORDERS NO. 3713 DATED 2018-08-02

Missing Person

All reports of missing persons should be thoroughly investigated. Every person reported as missing must be considered at risk until significant information to the contrary is confirmed. A case of missing person must be dealt with immediately by any rank without waiting for any time period to elapse and no one making such a report should be sent away. Where the investigation is undertaken by a rank below sergeant, the investigation must be supervised by a named sergeant.

The station to which the missing person report was made is responsible for conducting the investigation, unless it is agreed by the Divisional Commanders and handed over by mutual consent, using the appropriate station records.

1. Role of the officer receiving the Initial Report

Upon notification of an alleged case of missing person, the following investigative procedures should be followed:

- a. Appreciate the report in a professional manner putting all his/her interpersonal skills into action
- b. Reassure the complainant in order to build confidence in the investigation.
- c. Complete the prescribed Missing Person Report Forms (MP1 in triplicate,) AND the Risk Assessment (MP2).
- d. *If a high risk child (under 18 years) immediately activate the Ananda Alert system, by contacting CCU.*
- e. Record a comprehensive statement of the circumstances surrounding the missing person.
- f. *Obtain a most recent photograph of the missing person, preferably a full size one.*
- g. Obtain details of any communication device (cell phone, laptop etc.) and contact the Communication Forensics & Cybercrime Unit (CFCU) at the Organised Crime Investigation Division (OCID)
- h. Send a radio message to Police Control and make entries in the Radio Message Book, Station Diary and Missing Person Register.
- i. Immediately submit the completed Missing Person Report Forms along with Risk Assessment to Station Manager/Duty Supervisor.
- j. Advise the complainant on actions taken by the police relative to finding the missing person.

2. Role of the Investigating Officer

- a. Ensure a home address visit is conducted as soon as possible after the report is made and a thorough search of the missing person's home is completed before starting anywhere else, unless information reveals that the person is at a particular location.
 - i. Collect Statements from all relevant persons
 - ii. Interview all known associates, friends and visit places frequented by the missing person,

[Top of page](#) [Back to Appendices](#)

APPENDIX 'B' (CONT'D) TO FORCE ORDERS NO. 3713 DATED 2018-08-02

- iii. Inform and provide a copy report to the parish's Child Development Agency as it relates to any missing children (under 18 years) and update such on a monthly basis.
 - iv. Assess the possibility of foul play.
 - v. Conduct Checks – Immigration, custody, hospital(s), funeral homes etc, Missing Person Register (for previous incidents of the same nature and analyse), Divisional Intelligence Unit (DIU) & Criminal Records Office (CRO) (to verify whether or not the missing person may be an offender and if any additional information is known to assist the investigation).
 - vi. Seek the assistance of the CFCU at OCID to inspect the missing person's personal computer to include e-mail database etc.
 - vii. Compile a case file including the original missing person report, the circulation for the Police Gazette and submit to the Station Manager for vetting and direction.
 - viii. Where the person is a student, the foregoing investigative procedures together with the following should be adhered to;
 - Ensure that the school's principal is contacted as soon as practicable, whether or not the student was currently attending the school.
 - Speak to friends of the missing person and also the Guidance Counsellor.
 - ix. Submit a written report to the Divisional Commander within 72 hours detailing action taken to find the missing person and submit weekly updates until found or as directed.
- b. Maintain the investigative case file and update progress utilising the Missing Person Investigation Worksheet (MP4).
- c. Maintain liaison with personnel at the Divisional Missing Person Coordination Desk to update them on the progress of the investigation and the DIU for intelligence that will enhance the investigation.
- d. In the case of a foreign national;
- i. Make early checks with immigration.
 - ii. Make enquiries at the relevant embassy or high commission.
 - iii. Enlist the assistance of NIB (INTERPOL) to make enquiries to see if the person has returned to his/her country of origin or gather further information from the missing person's family and friends.

Procedure When a Missing Person is Found

The Investigator, or another officer, upon receiving information that a missing person has been located should:

1. Attend the location to confirm the information.
2. Confirm identity and ensure that the person is safe.

APPENDIX 'B' (CONT'D) TO FORCE ORDERS NO. 3713 DATED 2018-08-02

3. Inform Police Control immediately and ensure that all bulletins relevant to the missing person have been cancelled.
 4. Ensure the complainant and/or next of kin is notified (barring exceptional circumstances).
 5. Fill out a Missing Person Report Form (MP1) in duplicate. The original is to be attached to the investigator's file and the copy sent to the DIU for transmitting to the Divisional Missing Persons Coordination Desk, NIB and CCU.
 6. Interview the missing person and complete;
 - a. Form MP3 (Missing Person Trace)
 - b. Record a comprehensive statement to ascertain;
 - i. Whether the person was abducted, kidnapped, sexually exploited, suffered any form of violence, forced to commit any acts of criminality or went missing under any other circumstances.
 - ii. Where/with whom they may have been/went missing.

In certain circumstances it may be appropriate for a police officer to interview the person who went missing with the assistance of an appropriate adult (i.e. nurse, a justice of the peace, counsellor, social worker, teacher etc.) Interviews must be done in accordance with Judges Rules where necessary.
 7. If the Child was under state care, the investigator must make contact with the local office of the Child Development Agency (CDA), and the child remains in the care of the police until he/she is handed over to an officer of the said agency. In cases where the CDA is unable to provide their own transportation, then the local police should provide transportation. Under no circumstances should a child be placed in police lock-ups or holding area.
1. Record statement from persons in the household or place where missing person was found.
 2. Record further statement from the complainant i.e. person who made the initial report.
 3. Where the missing person is a foreign national the police shall together with those already mentioned:
 - a. Inform the relevant embassy/High Commission
 - b. Liaise with NIB (INTERPOL)
 - c. Make contact with the most significant person/s concerned with the case.

**APPENDIX 'C' MEDICAL ARTICLE - "DIABETES MELLITUS - BEATING DIABETES"
TO FORCE ORDERS NO. 3713 DATED 2018-08-02**

Diabetes Mellitus- "Beating Diabetes"

What is Diabetes mellitus?

Diabetes mellitus literally means sweet urine; the term diabetes has Greek and Latin origins meaning "to pass through," referring to the excess urine these patients produced and mellitus is Latin for sweet or honeyed. This was coined after scientists noted the sweet taste and the copious urination of diabetics. Diabetes mellitus is what most Jamaicans call "***Sugar***". It is caused by a complete lack or low levels of a hormone called **Insulin**. This condition is characterized by a high blood glucose level. Diabetes affected approximately 422 million persons globally in 2014 and the trend reflects annual growth of that figure.

What is Insulin?

This is the hormone produced by an organ in the abdomen called the **Pancreas**. Insulin is the major storage hormone of the body. After a meal, Insulin is produced to move the excess sugar, proteins and fats from the blood, into the liver, muscles and fat cells for storage. In Diabetes mellitus there is a **low level of insulin** or a **complete lack of the hormone**. This deficiency causes the blood sugar levels to be higher than normal. Oftentimes, when a person's diabetes is severe or if they have type 1 Diabetes, persons are given synthetic Insulin by injections as a replacement treatment.

What are the types of Diabetes Mellitus?

- The types of Diabetes mellitus are **Type 1** and **Type 2**.

Type 1 Diabetes Mellitus

In type 1 Diabetes mellitus, there is a ***complete absence of insulin***. This type of diabetes is usually diagnosed in teenage or early adult years. It is caused when the body attacks itself (autoimmune) and destroys the insulin producing cells in the pancreas. It is also called Insulin Dependent Diabetes since these persons depend on insulin therapy to survive.

Type 2 Diabetes mellitus

What is type 2 Diabetes mellitus?

This is the most common type of diabetes affecting adults. It is also called "adult onset diabetes". It is characterized by a ***deficiency (low levels) of insulin*** or resistance to insulin function. It is usually associated with certain lifestyle factors such as obesity and lack of physical activities.

What are the symptoms of Diabetes?

There are not always clear symptoms, but if present common ones include:

- Excessive thirst, excessive hunger, excessive urination, weight loss, itching, slow healing cuts, weakness, erectile dysfunction (ED) and blurry vision.

What are the factors that increase my risk of Diabetes?

- Genetic (Having family history of diabetes)
- Gestation Diabetes (having diabetes in a prior pregnancy)
- Obesity
- Physical Inactivity
- Polycystic Ovarian Syndrome (A condition with cysts in the ovaries of females that cause irregular menses, excessive facial hair, and insulin resistance)
- Being of African Descent or Indian
- Drugs (eg. Long term steroid use)

APPENDIX 'C' (CONT'D) TO FORCE ORDERS NO. 3713 DATED 2018-08-02

How is Diabetes Diagnosed?

Diabetes may be identified based on symptoms reported at the doctor's visit, but at times it is detected by coincidence after a routine urine or blood test in an asymptomatic (symptom free) patient. The confirmatory diagnostic test for Diabetes is a **fasting blood glucose test**, where the person fasts (no meals) for 8-12 hours prior to the test. After the fasting blood test sample is taken, the patient is usually instructed to drink a sweet solution, and another blood sample is drawn two (2) hours after consumption and the glucose level measured. This second test is called a two-hour post prandial test (**2hrPP**).

This 2hrPP test monitors the blood sugar to check if there is a return to normal glucose levels after a meal. A return to normal range blood sugars after a meal signifies insulin is functioning normally. Diabetes is diagnosed if the fasting blood glucose (FBG) is greater than or equal to **7 mmol/L** (same as 126 mg/dL in American units) or if the 2hrPP is greater than or equal to **11.1mmol/L** (same as 200 mg/dL in American units).

How does Diabetes affect the body?

Diabetes can affect all tissues of the body.

- Brain – Dementia, strokes, memory impairment
 - Heart- Heart failure, heart attacks, poor circulation
 - Eyes- Diabetic retinopathy (retina-tissue back of eye that allows vision), cataracts
 - Nerves- diabetic neuropathy- damages nerves to hands and feet, penis, stomach
- Increased Cancer risk - prostate, endometrial (womb), colon, liver, pancreatic and breast.*

Does this mean I must have these effects if I have Diabetes?

No, if Diabetes is properly controlled, the risk of these diabetic complications is low.

How is Diabetes treated?

Treatment includes diet modification and exercise. Medications are usually required to control most diabetics. For most patients, medications alone without dietary modifications are not effective. Medications can either be injectable (insulin) or oral tablets depending on the severity and type of diabetes.

How should I change my diet?

Avoid processed carbohydrates and sweet foods. Eat more complex carbohydrates such as brown rice, whole grain, ground provisions. Avoid excess fast foods and foods with a high glycemic index that will spike the blood glucose as the body rapidly breaks such foods down. *Foods with a low glycemic index are slowly broken down by the body, and do not spike the glucose levels.* Consume healthy fats and plenty vegetables. Of significance Diabetics should be careful with excessive amounts of sweet fruits like mangoes and pineapples as these too can elevate the blood sugar levels. As always the key word with diet is *MODERATION*.

How can one monitor their diabetes?

Persons can obtain a machine that checks their blood sugars called a **Glucometer**. Also one can have their diabetes checked regularly at their clinic or doctor's office. Importantly, persons with diabetes should do a blood tests every 3-6 months called the **A1C test**. This test reflects the average blood sugar control over the last three (3) months of a patient. The office GMR (glucose meter reading) only tells us what the blood sugar level is now.

APPENDIX 'C' (CONT'D) TO FORCE ORDERS NO. 3713 DATED 2018-08-02

What are target blood glucose levels for Diabetics?

- A1C level- less than 7%
- Fasting sugar- less than 7mmol/L (126mg/dL)
- 2-hour post meal sugar-less than 8.5mmol/L (126mg/dL)

Help me understand the GMR machine (glucometer), why are my numbers much more than the numbers at the clinic?

Some GMR machines are American models that tend to use units of mg/dL, British machines tend to use units mmol/L. Most machines used at health centres and doctors' offices tend to use British units. To convert from American units (mg/dL) to British units (mmol/L) one can divide by 18.

What is my standard medical management as a Diabetic?

- Regular doctor follow up
- Daily foot checks for cuts including between toes.
- Avoid walking without foot protection
- Heart test (ECG-electrocardiogram) at least once per year
- A1C test at least every 3-6 months
- Cholesterol levels, kidney function tests, liver function tests, blood count and urine test (executive profile) at least once per year.
- Eye specialist eye exam at least once per year.
- Doctors foot exam every regular visit.
- Age appropriate cancer screening tests as recommended (pap smears, mammogram, prostate tests, colon cancer tests)

To have your diabetes controlled or monitored using a multidisciplinary approach. Feel free to contact the Medical Services Branch at 1876-749-0470/749-5268 or Ext. 69103/69107.
