SERIAL NO. 3757

Sub. No. 4 ESTABLISHMENT OF THE TECHNOLOGY BRANCH

Introduction

The Jamaica Constabulary Force (JCF) has been slowly, yet progressively, evolving into an organization whose functions are enabled by technology. This is a naturally occurring process as we exist in a rapidly advancing technology environment. Also, the sheer amount of police information that has to be managed by an organization the size of the JCF, and a crime and security problem the nature of Jamaica's, demand a deliberate response in the advancement of our technological capabilities.

The Jamaica Constabulary Force as the principal agency of the state with responsibility for the maintenance of law and order has command over significant assets in the area of Information and Communications Technologies (ICT). These assets require a unified governance structure to enable the organization to gain maximum benefit from the disparate installations across the organization. There are many installations and projects operating in silos across the organization, with no centralized ownership. A way must be devised to streamline these to prevent duplication of effort and resources, as well as to mitigate security vulnerabilities and data integrity issues. The creation of a Technology Branch with the authority to marshal all available resources under a centralized leadership is the resolution to this dilemma.

Objectives of the Branch

The Technology Branch will harness and manage all ICT resources of the JCF to ensure the:

1. achievement of the ICT goals of the JCF which are to enable the advancement of the strategic priorities of the organization, and
2. monitoring and enforcement of the ICT Policies of the organization
3. secure the organization's ICT assets

Structure and Functions of the Technology Branch

The Technology Branch is a merger of the Police National Computer Centre (PNCC) – currently referred to as the Information and Communications Division (ICTD); and the Telecommunications Division (Telecom) – currently under the Services Branch. The Technology Branch will be responsible for the administration and coordination of cross cutting functions and for general ICT project management.

This Branch will consist of two divisions namely, Information and Communications Division and the Policy, Governance and Training Division and will be headed by an Assistant Commissioner of Police. The Information and Communications Division will be responsible for network infrastructure, computers and hardware, information systems, ICT security and support service; and the Policy Governance and Training Division will be responsible for policy, quality assurance, training, research and development.

All non-ICT functions currently being undertaken by the Telecommunications Division will be taken over by the Property Management and Maintenance Division (PMMD).

Elements of the above functions are already being practiced. The formation of the Technology Branch will enable the coordination of all the ICT activities across the organization in a manner which will enable greater synergies. The various ICT installations will now be supported by a central organization whose staff may be drawn from persons who previously supported the systems. This will however, require the subsuming of these various IT units that are in formations across the JCF, under the purview of the Technology Branch. The individuals may be required to remain in their current formations. This should enable a more coordinated management of ICT projects and development of technical personnel. For this reason a systems audit is being conducted to enable an inventory of the various systems and technical skills in existence.

Although the largest concentration of ICT assets will reside at the Information and Communications and the Policy, Governance and Training Divisions, the Branch will have responsibilities for all ICT assets owned by the JCF.

Staffing and Supervision

The Information and Communications and the Policy, Governance and Training Divisions may be staffed by sworn and unsworn members. It is therefore noted that in circumstances where a civilian oversees a sworn officer, the instructions of the civilian supervisor as it relates to ICT functions must be upheld. There is precedence in the current PNCC operation and so it is expected that there should be no disharmony in this approach.

INTRODUCTION

The **Deputy Superintendent Qualifying Syllabus** is intended to support the aim of the *Selection Procedure for Promotion Policy*. It is envisioned that the assimilation of the material outlined in the syllabus will enable those aspiring to the job of **Deputy Superintendent** the opportunity to demonstrate that they possess the necessary competencies to fulfil their obligations in the role. This syllabus is a tool for professional development that all aspirants to **Deputy Superintendent** should use as a personal guide in accessing information critical to this managerial position.

For efficiency in your preparation to be successful in the examination, it is important to understand how the syllabus is arranged. The three (3) areas below are presented with sub-categories that are supported by specific reference material. This is followed by a description of the assessment process and a guide to abbreviations used in the references.

The syllabus is designed to test the candidates' application of laws, policies and procedures based on the responsibilities of the Deputy Superintendent of Police.

The **examination syllabus** covers the following three (3) themes:

1. **Crime & Intelligence Management**
2. **Public Safety & Operations Management**
3. **Administration Management**

The **selection process** will therefore assess the span of knowledge of law and policing functions, with a focus on the competencies required for the role, the authority attached to the job, as well as specific tasks and duties thereof.

Sample Essay

Accepted by Harvard

Of all the characters that I've "met" through books and movies, two stand out as people that I most want to emulate. They are Attacus Finch from *To Kill A Mockingbird* and Dr. Archibald "Moonlight" Graham from *Field of Dreams*. They appeal to me because they embody what I strive to be. They are influential people in small towns who have a direct positive effect on those around them. I, too, plan to live in a small town after graduating from college, and that positive effect is something I must give in order to be satisfied with my life.

Both Mr. Finch and Dr. Graham are strong supporting characters in wonderful stories. They symbolize good, honesty, and wisdom. When the story of my town is written I want to symbolize those things. The base has been formed for me to live a productive, helpful life. As an Eagle Scout, I represent those things that Mr. Finch and Dr. Graham represent. In the child/adolescent world I am Mr. Finch and Dr. Graham, but soon I'll be entering the adult world, a world in which I'm not yet prepared to lead.

I'm quite sure that as teenagers Attacus Finch and Moonlight Graham often wondered what they could do to help others. They probably emulated someone who they had seen live a successful life. They saw someone like my grandfather, 40-year president of our hometown bank, enjoy a lifetime of leading, sharing, and giving. I have seen him spend his Christmas Eves taking gifts of food and joy to indigent families. Often when his bank could not justify a loan to someone in need, my grandfather made the loan from his own pocket. He is a real-life Moonlight Graham, a man who has shown me that characters like Dr. Graham and Mr. Finch do much much more than elicit tears and smiles from readers and movie watchers. Through him and others in my family I feel I have acquired the values and the burning desire to benefit others that will form the foundation for a great life. I also feel that that foundation is not enough. I do not yet have the sophistication, knowledge, and wisdom necessary to succeed as I want to in the adult world. I feel that Harvard, above all others, can guide me toward the life of greatness that will make me the Attacus Finch of my town.

ADMISSIONS COMMITTEE COMMENTS:

This essay is a great example of how to answer this question well. This applicant chose characters who demonstrated specific traits that reflect on his own personality. We believe that he is sincere about his choices because his reasons are personal (being from a small town, and so forth). He managed to tell us a good deal about himself, his values, and his goals while maintaining a strong focus throughout

Order of Priority for Promotion

In determining the order of priority for promotion, the following weighting will be applied:

- Exam Score 50%

Re: Commendable service of Woman Constable Triphenia Thelwell.

This serves to recognize the hard work and dedication of the Prosecution Liaison Officer Woman Constable Triphenia Thelwell. This officer has been appearing in Court before me since I have been assigned to the Westmoreland Parish Court in 2015. I have noticed her growth since that time.

Constable Thelwell is very efficient and have been of great assistance to the Court and Prosecution in securing the attendance of both civilian and police witnesses. She is very attentive when in Court and is usually helpful in providing information about matters which are being dealt with by the Clerk of the Courts; especially those which the files are deficient. There are times when the Court is seeking clarification on a matter and the investigating officer is absent but Constable Thelwell would simply get on her telephone and usually within a few minutes the information is available. The Clerks of the Courts have also stated that Constable Thelwell is an asset to their office.

I therefore use this medium to highlight and recognize the value of one of the dedicated Police Officers in the Westmoreland Division.

Regards

.....
