4TH JUNE, 2020

SERIAL NO. 3809

Sub. No. 1 REMINDER - JAMAICA CONSTABULARY FORCE STANDARD OPERATING PROCEDURE IN DEALING WITH SUDDEN AND UNNATURAL DEATHS AND THE SCHEDULING OF POST-MORTEM EXAMINATIONS

Force Orders No. 3710, Part I, Sub. No. 7 dated 2018-07-12, is hereby republished for general information.

The inordinate delays in completing post mortem examinations in a timely manner continue to be of concern to family members of deceased persons and the Police High Command.

1 Purpose

The purpose of this Standard Operating Procedure (SOP), is to ensure that all members of the Jamaica Constabulary, charged with the responsibility of investigating the circumstances of any sudden and, or unnatural death, follow the laid down investigative procedures in order to bring closure to the matter in a dignified, timely, transparent and professional manner. It also places emphasis on the timely submission of data pertaining to the deceased so that the Jamaica Constabulary Force can fulfill its obligations in the recording of vital statistics.

2 Policy Statement

Whenever a case of sudden or unnatural death is reported at any police station, the sub-officer in charge shall immediately cause an investigation to be made into the circumstances relating to such death and submit a written preliminary report to the divisional commander within forty eight (48) hours after the scene of death has been visited by the police.

3 Obligation of Divisional Commander

The Divisional Commander on receipt of the report shall cause an entry to be made in the Divisional Sudden Death Register and the information extracted and sent to the Research, Planning and Legal Services Branch no later than the 8th day of each succeeding month. The information should be sent on the prescribe form attached as Appendix B to Force Orders 3710 - Sudden Death Report Form -SD1). For divisions with internet connection the information should be sent in excel format to statistics@jcf.gov.jm . A template will be provided to all divisions.

4 Definitions

4.1 First responder:

Any member of the JCF or Rural Police who initially attends the scene of any unnatural or sudden death.

4.2 Form D:

A specific form issued under hand by the Coroner of the parish upon the submission of the investigation report and post-mortem.

4.3 Investigator:

Any member of the JCF and Rural Police who has been assigned to investigate into the circumstances which led to the sudden or unnatural death of any person in Jamaica.

FORCE ORDERS (CONT'D)

4TH JUNE, 2020

SERIAL NO. 3809

REMINDER - JAMAICA CONSTABULARY FORCE STANDARD OPERATING
PROCEDURE IN DEALING WITH SUDDEN AND UNNATURAL DEATHS AND THE
SCHEDULING OF POST-MORTEM EXAMINATIONS (CONT'D)

4.4 Pathologist:

Certified Medical Practitioner who performs autopsies that can be a means of determining death, or to give information as needed by criminal investigators to determine possible criminal involvement in a person's death.

4.5 Sudden death:

An instant unexpected death, it is also a death that occurs with the onset of symptoms which results in the abrupt change in a person's stable clinical state, where other unnatural causes have been ruled out such as accident, suicide, injury and poison.

4.6 Unnatural death:

- (a) *A death caused by external cause such as injury, or poisoning and which includes death due to intentional injury such as homicide, suicide, and death caused by unintentional injuries.*
- (b) *All human deaths not properly describable as death by natural causes.*

4.7 Unidentified body:

A body for which there is no verifiable means of determining name, age, or place of residence.

5. Procedure

- 5.1 *All deaths are to be treated as unnatural until the contrary is proven by the Pathologist.*
- 5.2 *All reports of sudden and or unnatural deaths should be recorded in the STATION DIARY and the SUDDEN DEATH REGISTER.*
- 5.3 *Where death is sudden and of an unknown cause and there is no medical certificate forthcoming to support the report, then a post-mortem must be ordered.*
- 5.4 *Cause and manner of death should ONLY be concluded after the post-mortem.*
- 5.5. *The final cause of death must not be disclosed until after the pathologist submits the report.*
- 6. *The circumstances surrounding death, including medical history where death may be sudden should be noted by the first responder and made available to the investigator. It is the duty of the first responder to complete the first responder's form at Appendix 'C' attached to Force Orders 3710 which will form a part of the sudden death file.*
 - 6.1 *This information should be made available by the investigator to the Pathologist at or before the time of the post-mortem.*
 - 6.2 *The exact position of the body as best as possible should be reflected in a sketch.*

FORCE ORDERS (CONT'D)

4TH JUNE, 2020

SERIAL NO. 3809

REMINDER - JAMAICA CONSTABULARY FORCE STANDARD OPERATING
PROCEDURE IN DEALING WITH SUDDEN AND UNNATURAL DEATHS AND THE
SCHEDULING OF POST-MORTEM EXAMINATIONS (CONT'D)

- 6.3 *In the case of suspected murder or manslaughter, DO NOT remove the body until a medical doctor has completed an examination. Where a medical doctor is unavailable, as best as possible, the body should be photographed in its original position.*
- 6.4 *A description of the body should be made as also the condition of the clothing.*
- 6.5 *At the scene of a sudden death where no medical certificate is forthcoming, all prescription drugs, over-the-counter drugs and other items appearing to be medicinal found on the scene should be preserved and treated as exhibits.*
- 6.6 *Position of all wounds or injuries must be noted.*
- 6.7 *Any visible signs of a struggle or other matters in this regard likely to prove useful in the course of the investigation must be noted.*
- 6.8 *Teeth, hand and fingernails should be examined, especially where signs of resistance are evident. During a struggle, the victim may have removed some form of scientific evidence from the attacker/assailant.*
- 6.9 *Where there is any difficulty identifying the body it should be photographed, fingerprinted and caused to be published in the Police Gazette.*
7. *Responsibility of the Investigator at post-mortem*
 - 7.1 *Using the prescribed form investigators are to apply for the holding of a post-mortem, within twenty-four (24) hours of being notified of a death.*
 - 7.2 *The investigator should endeavor to attend all scheduled post-mortems for cases he/she is investigating*
 - 7.3 *Upon conclusion of the post-mortem, the investigator is to ensure that the body is handed over to the Funeral Home of the relatives' choice. At no time should any member of the JCF or Rural Police instruct that any particular funeral home be contracted.*
 - 7.4 *At the end of the post-mortem, a Burial Order must be issued to the relatives of the deceased by the investigating officer.*
 - 7.5 *A Form D shall be issued by the Coroner upon the submission of the case file to the Clerk of Courts by the investigating officer. The preliminary report which contains the medical certificate, the post-mortem and the police report along with any available statement should form the preliminary case file. This must be submitted to the Coroner within seventy-two (72) hours after the post-mortem, in accordance with section 9 sub section 2b of the Coroners Act.*
 - a. *The issuance of the Form D will assist the relatives to register the death of the deceased.*
 - 7.6 *With respect to un-identified bodies, if no relative has come forward to identify the body after compliance with 6(i), then a post-mortem should be conducted and the body caused to be buried within thirty (30) days at the expense of the state.*

FORCE ORDERS (CONT'D)

4TH JUNE, 2020

SERIAL NO. 3809

REMINDER - JAMAICA CONSTABULARY FORCE STANDARD OPERATING
PROCEDURE IN DEALING WITH SUDDEN AND UNNATURAL DEATHS AND THE
SCHEDULING OF POST-MORTEM EXAMINATIONS (CONT'D)

It is the responsibility of the sub-officer in charge of the station to ensure that all reports of sudden and unnatural deaths are treated with the utmost of respect and the appropriate registers reflecting the facts. At all times throughout the investigation, the sub-officer in charge of the station MUST be made aware of its progress. At the time of submitting the interim report the sub-officer in charge of the station MUST be made aware and the relevant station records should be updated to reflect all actions taken.

8 *Legislative Authority*

The police powers to investigate the sudden and/or unnatural death of any person in Jamaica is grounded in several legislations, the scope of which encompasses the Coroners Act, the Constabulary Force's Act, The Justice of the Peace Jurisdiction Act and the Registrar (Births and Deaths) Act; also the responsibilities of the investigator as reflected in the policies of the JCF.

Members of the JCF and its auxiliaries must be conversant with these legislations and instructions when investigating any sudden and/or unnatural death to ensure high standards of professionalism.

CASES FOR WHICH AUTOPSIES (POST- MORTEM) WILL BE PERFORMED - PATHOLOGY
(LEGAL MEDICINE) UNIT OF THE FORENSIC LABORATORY

Effective immediately, the Pathology (Legal Medicine) Unit of the Forensic Laboratory will only be conducting autopsies on medico-legal cases. These are cases where the deceased persons fall into one of the following categories:-

- | | |
|--|---|
| <i>-Homicides</i> | <i>-Motor vehicle accidents</i> |
| <i>-Suicides</i> | <i>-Blunt force trauma</i>
<i>(fall/crush victims)</i> |
| <i>-Hanging</i> | <i>-Drowning</i> |
| <i>-Poisoning or suspected poisoning</i> | <i>-Workplace accidents</i> |
| <i>-Prisoners or any other ward of the State</i> | |
| <i>-Asphyxia (eg. choking or exposure to environs where victim was denied air)</i> | |
| <i>-Sudden deaths (victims with no known medical conditions)</i> | |
| <i>-Suspicious deaths (foul play suspected)</i> | |

In all other circumstances, family members are to be instructed to call a funeral home of their choice and to get a medical Certificate of the cause of death from the attending physician or arrange a post-mortem by contacting officials in the Ministry of Health.

Where death has occurred and the Police is satisfied that based on the existing guidelines there is need for a post mortem examination;

1. The Investigating Officer (IO) will complete the Autopsy (Post Mortem) Request Form and submit through his/her Sub-Officer immediately after the death is verified. The Sub-Officer must send the request to the Divisional Administrative Officer within 24 hours.
2. The Divisional Administrative Officer must vet the Request Form and make a formal request to the Director of the Pathology Unit (Legal Medicine Unit -LMU) through email: autopsydrrj@gmail.com or forensiclab@jcf.gov.jm or Fax 977-0234. This request must be copied to the JCF email or fax of the Divisional Commander, the Crime Officer and the Investigating Officer.

FORCE ORDERS (CONT'D)

4TH JUNE, 2020

SERIAL NO. 3809

REMINDER - JAMAICA CONSTABULARY FORCE STANDARD OPERATING PROCEDURE IN DEALING WITH SUDDEN AND UNNATURAL DEATHS AND THE SCHEDULING OF POST-MORTEM EXAMINATIONS (CONT'D)

3. The Director of the Pathology Unit or LMU will assign a date for the post mortem no later than five (5) days from receipt of the request. This date will be communicated to the Divisional Commander, the Crime Officer and the Investigating Officer.
4. Where there is reason to assign date(s) beyond the suggested maximum five (5) days, the Director of the Legal Medical Unit must communicate this information to the concerned officers.

In all circumstances, the Investigating Officer must keep the family of the deceased informed.

Under no circumstance must payment or gifts be solicited or accepted from family members to expedite post mortem examination or to perform any related favour or activity. Any such request must be brought to the attention of the Assistant Commissioner of Police in charge of the Anti-Corruption Branch or any senior Officer.

PROCEDURE FOR DEALING WITH SUDDEN OR UNNATURAL DEATHS AT HOME

Once a call is received at the station about a sudden death at home, the following should obtain:

1. *The scene should be visited by a police sub-officer.*
2. *At the scene the first responder will determine whether the deceased:*
 - (a) *Was ailing and under the care of a physician*
 - (b) *Visited the doctor or hospital within the last three months*
 - (c) *Had any known medical condition (s)?*
 - (d) *Had showed any sign of trauma or the scene reflects any sign of violence?*
3. *The police officer will then complete the first responder's form.*
4. *If there is no sign of foul play, the officer will instruct the family to obtain a medical certificate showing the cause of death from the attending physician/medical facility and to contact a funeral home of their choice. In these cases, where a post - mortem is required, the family should make the arrangements to have it done privately.*
5. *If the officer has reason to believe that death was not from a natural/medical cause, then the officer must contact the government contracted funeral home for that area and make arrangements for the scene to be processed.*
6. *The officer must collect a body receipt from the funeral home.*
7. *The officer must then submit an autopsy requisition form to the Pathology Unit stating the circumstances and the reason for the police investigation of such death.*

AUTOPSY REQUISITION FORM FOR ALL DEATH INVESTIGATIONS

Attached to Force Orders 3710 as Appendix 'D' is a copy of the Autopsy Requisition or Post Mortem Request Form and Forensic Death Report Form which must be used in all instances of sudden and unnatural death investigations. Commanding Officers must ensure strict compliance.

FORCE ORDERS (CONT'D)

4TH JUNE, 2020

SERIAL NO. 3809

Sub. No. 2 REMINDER - SUDDEN DEATH TREATMENT

Force Orders No. 3710, Part I, Sub. No. 8 dated 2018-07-12, is hereby republished for general information.

There continues to be confusion among our officers in matters to do with sudden death and when to call the contracted funeral home and request a post mortem from the Forensic Laboratory. After several meetings with the Ministry of National Security, the following have been agreed and are hereby promulgated for compliance in all instances.

SITUATION		REQUIRED ACTION
1.	Suspicious death	This is a legal/ medical case; Police must call the contracted funeral home and request a post mortem from the Forensic Laboratory.
2.	Sudden death where the deceased had no known medical condition	This is a legal/ medical case; Police must call the contracted funeral home and request a post mortem from the Forensic Laboratory.
3.	Sudden death where the deceased had a known medical condition.	This is not necessarily a legal/medical case although a medical autopsy may be required. 1. Where the police have ascertained that there is a doctor who is willing to sign the Medical Certificate of the Cause of Death, especially in the case of the aged, the police will note the name of the doctor for inclusion in the Station Diary as well as the Sudden Death Register, and allow the family to contact a funeral home of their choice. 2. Where it is not clear whether or not there is a doctor willing to sign the Medical Certificate of Cause of Death, the police must call the contracted funeral home. Within 48 hours the police must determine whether a doctor will sign a Medical Certificate of Cause of Death in which case the body will be released to the family to be dealt with by a funeral home of their choice. 3. If there is no doctor willing to sign a Medical Cause of Death Certificate but there is no suspicion of foul play, then the family will make arrangements for a medical autopsy to be performed. (Not by the Forensic Laboratory). 4. This must be determined within 48 hours of the death or else the contracted funeral home is at liberty to charge the family the full commercial rate. 5. If the police cause the matter to drag beyond 48 hours they will be liable for the commercial charges and strong disciplinary action will be taken.

FORCE ORDERS (CONT'D)

4TH JUNE, 2020

SERIAL NO. 3809

REMINDER - SUDDEN DEATH TREATMENT (CONT'D)

There must be strict adherence to the procedures described above and sanctions will be levied against any officer who deviates from this directive. Additionally, with immediate effect, supervisors/senior officers must institute the requisite mechanisms to monitor and ensure that each case is to be treated in accordance with these procedures; failing which disciplinary proceedings will also be instituted as deemed necessary.

Sub. No. 3 REMINDER - HURRICANE STANDING ORDERS - JAMAICA CONSTABULARY FORCE

Force Orders No. 3808, Part I, Sub. No. 1 dated 2020-05-28, is hereby republished for general information.

We are now in the hurricane season for 2020 and it is imperative that all ranks be reminded of the actions to be taken in the event that a hurricane affects Jamaica, during the hurricane, or after the passage of the hurricane.

An immediate audit must be conducted on the number of lanterns available at each police station and where there is an inadequate number; representation must be made to the Assistant Commissioner of Police in-charge Services Branch for additional supplies.

HURRICANE STANDING ORDERS

1. The purpose of these Orders is to ensure that:-
 - (a) hurricane warnings are disseminated to all police formations;
 - (b) all practicable precautions are taken in advance to minimize the risk of injury to personnel and the loss or damage to equipment and buildings during a hurricane; and
 - (c) the police take action immediately after a hurricane to make a rapid survey of damage and report to Headquarters, affording possible assistance to those in distress as well as the Municipal Corporations and the Office of Disaster Preparedness and Emergency Management.

WARNING PROCEDURE

2. Information regarding the progress of hurricanes in the Caribbean is supplied by the Meteorological Office to this Headquarters.
3. When a hurricane is likely to affect Jamaica, warnings will be phased as follows:-

PHASE 1	When a notification is received that a hurricane which is likely to affect Jamaica is in the Caribbean. (Hurricane Alert).
PHASE 2	When notification is received that a hurricane is likely to strike Jamaica within 24 hours. (This is the Departmental 24 hours warning).
PHASE 3	When notification is received that a hurricane is likely to strike Jamaica within 12 hours. (This is the Departmental 12 hours warning).
PHASE 4	When notification is issued that a hurricane is likely to strike Jamaica in 6 hours or less.
4. In addition to the above, warnings will be issued through the communications media-newspapers, radios and television. A red flag with a black square will be hoisted at Post and Telegraph Stations to indicate that a hurricane warning has been received. Particulars of the warning will be on the notice board at the stations.

4TH JUNE, 2020

FORCE ORDERS (CONT'D)

SERIAL NO. 3809

REMINDER - HURRICANE STANDING ORDERS - JAMAICA CONSTABULARY FORCE (CONT'D)

The Harbour Master will cause the following signals to be displayed in Kingston from the flagstaff at his Headquarters, New Port East-

BY DAY	Two red flags with black center squares
BY NIGHT	Two red lights vertically placed six feet apart.

It is appreciated that some rural stations may not receive PHASE4 warning in time and therefore sub-officers in-charge stations should listen to the radio stations after the PHASE 3 warning has been issued.

EMERGENCY CONTROL ROOM

5. At PHASE 2, a National Control Room will be set up at 103 Old Hope Road (Office of the Commissioner of Police) with JDF representatives and necessary equipment.
6. The police will be represented by the Assistant Commissioner of Police in-charge Operations Branch and Superintendent of Police in-charge Telecommunications Division. The latter will provide emergency lighting and auxiliary power supply for all equipment necessary. He will also provide wireless communications on the JCF Network.

ACTION ON RECEIPT OF WARNING:-

7. The Officer at Police Emergency Communications Centre (PECC) on receipt of a hurricane warning from the Meteorological Office will inform the persons listed at Appendix 'A' to Force Orders 3761 by the quickest means available:-
8. Messages should be brief and should contain a summary of the latest weather report, preceded by the phase "Hurricane Warning Phase one, two, etc."
9. Officers in-charge Areas, Divisions/Formations, Stations and Branches will ensure that warnings are passed to all personnel under their command and occupants of Government Quarters.

RELAXING PRECAUTIONS:-

10. Hurricane Phase will NOT be cancelled or precautions relaxed except on authority from Police Headquarters.

PRECAUTIONS BEFORE AND AFTER A HURRICANE:-

11. Attached as Appendix 'B' to Force Orders 3761 is the general precautions to be taken before and after a hurricane. This list will be valuable not only to the Police, but to members of the public who seek advice and information at Police Stations.
12. Appendix 'C' to Force Orders 3761 gives the preparations which are to be made by the Police in regards to their stations and duties.

CHARACTERISTICS OF A HURRICANE:-

13. The general characteristics of hurricanes are given at Appendix 'D' to Force Orders 3761.

ACTION DURING HURRICANE

14. All fires in cooking stoves will be extinguished.
15. All ranks will remain safely indoors or suitable cover.

[Top of Page](#) [Top of Section](#) [Back to Contents](#)

FORCE ORDERS (CONT'D)

4TH JUNE, 2020

SERIAL NO. 3809

REMINDER - HURRICANE STANDING ORDERS - JAMAICA CONSTABULARY FORCE (CONT'D)

16. Wireless communications will be maintained if possible with all stations. When radio equipment is threatened, the set will be secured and outside equipment taken down and stored. Before this is done, PECC should be informed of the closing down of the Station.

ACTION AFTER HURRICANE

17. Wireless contact shall be established as soon as possible. The Superintendent in-charge Telecommunications Division will direct immediate action to repair any damaged wireless equipment, and will treat the re-establishment of communications with the highest priority.
18. Immediately the weather abates, police should be dispatched in several directions throughout the districts to make a rapid survey of damage done to property, buildings, cultivations and communications.
19. Divisional Officers will forward an appreciation of the situation to Police Emergency Control Centre and Area Headquarters with as little delay as possible and by the fastest means available.
20. In any event, Area Officers will forward to PECC, daily reports by 1:00pm and, additionally, each day as the situation warrants and/or as directed by the Commissioner of Police.
21. As soon as the necessary information is collected, a full report (in duplicate) of all damage, under the following headings, will be forwarded to Police Headquarters by Divisional Officers through Area Officers:-
- (a) persons killed or injured;
 - (b) persons in distress and homeless, and where housed for shelter;
 - (c) general condition of inhabitants with regard to food, clothing, shelter, etc.;
 - (d) damage to crops, houses, factories and government property;
 - (e) animals or livestock killed or injured;
 - (f) damage to communications, that is, roads, telegraph, telephone and wireless systems and
 - (g) damage to vessels, boats, etc.
22. The police will co-operate fully with the ODPEM, the local Emergency Relief Committees, the Central Emergency Relief Committee, the St. John Ambulance Brigade and the Jamaica Red Cross Society.
23. There may be hunger and destitution and the police will render every possible assistance. The police may be called upon to perform duties which are not provided for in these Orders, and all ranks must be prepared to do everything necessary to restore normalcy. It must be clearly understood, however, that this instruction does not include authority to incur expenditure which cannot be subsequently justified.

MOBILE RELIEF COLUMNS

24. These will be provided as directed by the Commissioner of Police and each detail will be commanded by an Inspector, at least.

Assistant Commissioner of Police, Specialized Operations, will therefore maintain a Special Store of suitable food, water and first aid items for this purpose.

The purpose of the Mobile Relief Column will be to render assistance after the hurricane to persons, especially children, marooned and suffering in otherwise inaccessible areas.

FORCE ORDERS (CONT'D)

4TH JUNE, 2020

SERIAL NO. 3809

REMINDER - HURRICANE STANDING ORDERS - JAMAICA CONSTABULARY FORCE (CONT'D)

ASSISTANCE TO MET OFFICE

25. When members of the staff are unable to contact their office at the Norman Manley International or Donald Sangster International Airports after a hurricane, they will report to the Motorized Patrol Division, Elletson Road or the Freeport Police Station in Montego Bay for assistance.

The Police Officer concerned will contact the National Works Agency to provide transport and will render any other assistance possible.

If telephone communication is impossible or non-existent when the MET Office wishes to pass a hurricane bulletin to Police Headquarters, etc., such bulletin will be passed in writing to the police station at the Norman Manley International Airport.

The police there will pass the information to PECC by the fastest means available. The Officer at PECC will then notify the following as to its contents – Radio Stations, Telephone Companies and Central Emergency Relief Committee.

All members will ensure that they are aware of the provisions of the Hurricane Standing Orders.

Area, Branch and Divisional Commanders will ensure that all ranks are lectured on the requirements of these Orders, and will forthwith make suitable arrangements for the protection of Force vehicles (including police launches), buildings and other items of Government Property under their control in the event of a hurricane.

Sub. No. 4 REMINDER - MINISTRY OF HEALTH AND WELLNESS BLOOD DONATION

Force Orders No. 3808, Part I, Sub. No. 2 dated 2020-05-28, is hereby republished for general information.

Attached to Force Orders No. 3806 as Appendix 'A' is a request from the Ministry of Health and Wellness, National Blood Transfusion Service, urging members of the Jamaica Constabulary Force in good health to donate blood due to challenges relating to COVID-19 pandemic.

Commanding Officers are asked to encourage members under their command to support this drive.

Sub. No. 5 REMINDER - CORONAVIRUS DISEASE (COVID-19) - GUIDELINES FOR MANAGING LOCK-UPS TO MINIMIZE THE RISK TO PRISONERS

Force Orders No. 3808, Part I, Sub. No. 4 dated 2020-05-28, is hereby republished for general information.

Prisoners in our custody have very little control over decisions relating to their health. We therefore have a duty to do what is reasonable within the circumstances to secure their well-being.

In the context of the pandemic caused by the coronavirus disease (COVID-19), our strategy for the care of the lock-up population, is to minimize the importation of the disease through new inmate admittance and; speedy removal of persons suspected to be infected from the lock-up population.

APPENDIX 'A' MEDICAL SERVICES BRANCH ARTICLE - NOVEL CORONAVIRUS TO FORCE ORDERS NO. 3809 DATED 2020-06-04

NOVEL CORONAVIRUS (2019-n CoV)

CASE:

A twenty-four-year-old male taekwondo student, Carlos Doe, returns home to Jamaica from a martial arts tournament in Wuhan City, Hubei Province China. Upon his return he begins noticing *fever, cough, stuffy nose with clear mucus draining from nose, joint pains and weakness*. He begins to take over the counter vitamins, honey and lime but three days later he notes *worsening shortness of breath, chest pain and cough*. He presents to his medical practitioner for treatment.

What is Coronavirus?

These are a large family of viruses, studied since the 1960s, that can cause a spectrum of diseases, ranging from the simple common cold to more lethal lung infections such as Middle East Respiratory Syndrome (MERS) and Severe Acute Respiratory Syndrome (SARS). *Coronaviruses exist in both humans and some animals such as snakes, cattle, bats.*

What is novel Coronavirus (2019- nCoV)?

This is a newly discovered type of coronavirus. This virus was identified first in late December 2019 when the World Health Organization (WHO) was contacted after several cases of pneumonia (lung infections) were diagnosed in Wuhan City, Hubei Province China. On January 7th Chinese authorities identified the virus as a coronavirus similar to *MERS* and *SARS*. Novel coronavirus, like other coronavirus infections, is characterized by respiratory and flu-like symptoms. Novel coronavirus infections currently do not appear to be as severe as SARS or MERS.

What is SARS (Severe Acute Respiratory Syndrome)?

This is a lethal infectious condition caused by SARS associated coronavirus (*SARS-CoV*) characterized by flu-like symptoms and severe breathing and lung failure (respiratory failure). It was first reported in 2002 in Guangdong Province Southern China.

What is MERS (Middle East Respiratory Syndrome)?

This is a lethal respiratory (lung) infectious disease caused by a special coronavirus, (*MERS-CoV*), which was identified in 2012 in Saudi Arabia. It is linked to countries near the Arabian Peninsula such as Iran, Bahrain, Yemen and Kuwait. It is characterized by flu-like symptoms which can progress to respiratory (breathing) failure.

What are some of the symptoms of novel coronavirus infection?

The symptoms are similar to most coronavirus infections. These include: *fever, weakness, headache, muscle pains, cough, runny nose, shortness of breath*. Initially, persons may have the infection and not display symptoms immediately. When symptoms appear they usually begin with fever, weakness and joint pains. A few days later, respiratory symptoms such as cough and shortness of breath begin. Symptoms may progress to cause organ failure and death in severe cases.

How is novel coronavirus spread from person to person?

Transmission mainly includes respiratory droplets which arise from coughing and sneezing. These droplets usually spread up to three (3) feet away. Spread can occur when an individual comes in contact with a surface which is contaminated with infectious droplets (e.g. door knobs, desks, clothing and unclean hands).

How is novel coronavirus different from the flu or Dengue fever?

It may be difficult to use symptoms to distinguish these viral illnesses as they may manifest in identical ways. Laboratory tests may be the only way of distinguishing these conditions. A key difference with dengue fever however, relates to mode of transmission, where the Aedes mosquitoes are needed for transmission as opposed to respiratory droplets for coronavirus transmission.

APPENDIX 'A' (CONT'D) TO FORCE ORDERS NO. 3809 DATED 2020-06-04

How can one reduce the chances of getting infected with novel coronavirus?

1. *Frequent hand-washing with soap and water for at least twenty (20) seconds or using an alcohol based hand sanitizer where appropriate*
2. *Covering mouth and nose with tissue or utilizing the inner elbow rather than palm of hand while coughing*
3. *Frequent sanitization of surfaces with disinfectant*
4. *Avoiding close contact with sick individuals*
5. *Avoiding touching eyes, nose and mouth with unwashed hands*
6. *Avoiding consuming raw or undercooked animal products*
7. *Obtaining the yearly influenza (Flu) vaccine to reduce your chances of getting other types of respiratory viral infections*

Can one be vaccinated against novel coronavirus?

Unfortunately there is no available vaccine specific for novel coronavirus at this time.

What should one do if one begins having some symptoms of the novel coronavirus infection?

- 1) Avoid excessive contact with other individuals
- 2) Ensure proper respiratory etiquette when coughing or sneezing.
- 3) Consult a medical doctor for necessary evaluation, testing, and timely notification of the Ministry of Health.
- 4) Persons who are infected should be quarantined.

Individuals with certain medical conditions (e.g. Diabetes, Human Immunodeficiency Virus (HIV), Heart and Lung diseases) as well as *children* and *the elderly* may have a higher risk of life threatening complications. As such early intervention and medical consultation is warranted.

How is coronavirus treated?

Treatment will depend on a case by case basis and varies based on severity. Suspected cases should be quarantined. The aim of medical care is to stabilize individuals suffering from severe respiratory symptoms and to preventing deterioration. This may require admission to a hospital an even to an Intensive Care Unit. For less severe cases the aim of treatment is to provide supportive care of symptoms. This may include adequate hydration, reduction of fever with fever medications.

What precautions should I take if I have to travel?

Avoid visiting implicated regions unnecessarily (China, Japan, Korea, Thailand). Persons who have symptoms of a sudden respiratory illness before, during or after travel, are urged to seek medical attention. A detailed travel history should be provided to the medical care provider. Typical measures of disease prevention apply during travel. Airport officials will likely check your travel history and perform health screening. There are policies and international standards for treating with an ill person on-board an aircraft.

Case Cont'd:

The student's doctor does relevant checks and refers him to the hospital where he has blood tests and X-rays done. He is admitted to hospital under quarantine and two weeks later his condition improves. He is discharged home. The Ministry of Health Public Health Department is notified of his case, and necessary health surveillance and educational measures are instituted.

For more information regarding this subject feel free to contact the Medical Services Branch at 876-749-0470, extension 69103 or 69107.

Reduce your risk of **coronavirus** infection:

Clean hands with soap and water
or alcohol-based hand rub

Cover nose and mouth when coughing and
sneezing with tissue or flexed elbow

Avoid close contact with anyone with
cold or flu-like symptoms

Thoroughly cook meat and eggs

No unprotected contact with live wild
or farm animals

World Health
Organization

**APPENDIX 'B' MEDICAL SERVICES BRANCH ARTICLE - GENERAL GUIDELINES FOR
CLEANING AND DISINFECTION OF THE WORK ENVIRONMENT
TO FORCE ORDERS NO. 3809 DATED 2020-06-04**

General Guidelines for Cleaning and Disinfection of the Work Environment

1. Appropriate PPE are to be worn by the cleaning staff. These are:

- a. Gloves
- b. water proof aprons
- c. masks
- d. goggles/face shields
- e. closed toe shoes

2. Cleaning and disinfecting solutions should be prepared according to specified guidelines (see Table 1).

- Use diluted bleach solution once this is appropriate for the surface to be disinfected.
- Make only enough diluted bleach solution to be used in 24 hours. Discard any unused portion as the solution may not be effective after that time.
- Mix and store bleach solution in an opaque (dark) container. Use cool water. Always add bleach to cool water and NOT water to bleach. Avoid exposure of diluted bleach solution to direct sunlight.
- All diluted bleach solutions prepared for spraying and wiping must be kept in containers labelled with the concentration and the date mixed.

3. All surfaces are to be properly cleaned and disinfected as per outlined protocol.

- **Hard, Non-Porous Surfaces** - stainless steel, floors, kitchen surfaces, countertops, tables and chairs, sinks, toilets, railings, doorknobs, recreation equipment, telephones, computer, keyboards, light switch casings, elevator buttons, panels and floors of vehicles etc.
 - i. Disinfection with bleach solution should be done.
 - ii. 70% alcohol may be used as an alternative to bleach solution for disinfecting sensitive equipment and devices such as remote controls, keyboards/mouse, telephones, computers and light switch plates.
- **Soft, Porous Materials** – carpets, rugs, towels/rags, clothing, sofas, padded chairs, cushions, and seats of vehicles.
 - i. Steam clean large areas that are covered by porous material such as carpets or rugs. Sofas and padded chairs may also be steam cleaned.
 - ii. Smaller articles such as towels, rags, and clothing may be laundered using hot water and a detergent containing color-safe bleach. Dry by hanging in direct sunlight or on high heat.
- **Indoor areas including office spaces** - Office spaces, including interviewing rooms, conference rooms and lobby areas should be cleaned every evening after office hours or early in the morning before the rooms are occupied. If contact surfaces are visibly dirty, they should be cleaned with soap and water prior to disinfection. A cleaning schedule should be implemented for high traffic areas. Hand sanitizing stations should be installed in office premises (especially at the entry) and near high touch surfaces.

APPENDIX 'B' (CONT'D) TO FORCE ORDERS NO. 3809 DATED 2020-06-04

- **Services vehicles** - Clean and disinfect commonly touched surfaces in vehicle at the beginning and end of each shift and between transporting passengers. *For hard non-porous surfaces* within the interior of the vehicle (e.g. hard seats, arm rests, door handles, seat belt buckles, light and air controls, doors and windows, and grab handles) clean with detergent or soap and water if the surfaces are visibly dirty before applying disinfectant. *For soft or porous surfaces* such as fabric seats, remove any visible contamination, and clean with appropriate cleaners indicated for use on these surfaces such as disinfectant wipes. These surfaces may also be steam cleaned. For frequently touched electronic surfaces, such as tablets or touch screens used in the vehicle, remove visible dirt then disinfect using alcohol-based wipes or sprays containing at least 70% alcohol. If solution is sprayed on, leave solution on a surface for at least 10 minutes then wipe dry with a clean cloth/rag.
4. Establish and follow a schedule for cleaning and disinfecting (see tables 2 and 3).

Table 1: Disinfection Solution Guide

Water	Bleach Strength 5.25% (Household Bleach)	Bleach Strength 8.25% (Industrial Bleach)
1 gallon	3 tablespoons	2 Tablespoons
55 gallon	165 Tablespoons or 2.4 litres (0.64 gallons)	110 Tablespoons or 1.63 litres (0.43 gallons)
500 gallon	1,500 Tablespoons or 22 litres (5.87 gallons)	1,000 Tablespoon or 14.79 litres (3.91 gallons)
1 litre	14.3 gram calcium hypochlorite powder (bleach powder)	

1. Concentrations with inadequate dilution during preparation (too high or too low) may reduce the effectiveness of the disinfectant solution.
2. Do not combine bleach or other cleaning and disinfection products r; -this can cause the production of fumes that may be very dangerous if inhaled.
(Source MOHW 2020)

APPENDIX 'B' (CONT'D) TO FORCE ORDERS NO. 3809 DATED 2020-06-04

Table 2. Infection Control Cleaning Schedule for Room/Offices
High touch surfaces are to be cleaned two hourly and low touch surfaces four hourly.

High Touch Surfaces	Date	Time				Cleaning Agent (1st wipe)	Disinfectant (2nd wipe)
	8am	10am	12pm	2pm	4 pm		
Door and knobs							
Computers/keyboards/mouse							
Chairs/chair handles							
Remotes							
Telephones/intercom systems							
Printers/Scanners							
Station diaries							
Desks/countertops							
Elevator buttons							
Handrails							
Low Touch Surfaces	8 am	12pm	4 pm	8 pm			
Light switches							
Windows							
Other Noticeably Soiled areas							

*Cleaning agents: clean water with soap/detergent

** Disinfectant: bleach solutions mixed according to guidelines, disinfectant wipes or alcohol (at least 70%) for sensitive devices and equipment.

APPENDIX 'B' (CONT'D) TO FORCE ORDERS NO. 3809 DATED 2020-06-04

Table 3. Infection Control Cleaning Schedule for Toilets and Restrooms
High touch surfaces are to be cleaned two hourly and low touch surfaces four hourly

High Touch Area	Date	Time				Cleaning Agent (1st wipe)	Disinfectant (2nd wipe)
	8am	10am	12am	2pm	4pm		
Wash basins							
Soap dispensers							
Hand towel dispensers							
Mirrors							
Toilets and levers							
Tissue dispensers							
Windows							
Light switches							
Floors							
Door knobs							

*Cleaning agents: clean water with soap/detergent

** Disinfectant: bleach solutions mixed according to guidelines.

**APPENDIX 'C' MEDICAL SERVICES BRANCH ARTICLE –GUIDELINES FOR THE USE OF THE
INFARED THERMOMETER
TO FORCE ORDERS NO. 3809 DATED 2020-06-04**

Guidelines for the Use of the Infrared Thermometer

- 1) Read the manufacturer's instructions for the thermometer.
- 2) Learn about the different parts of the thermometer. (See diagram below).

*Image adopted from Google Images. 28 May 2020

- Probe/Sensor - Used to detect the body temperature
 - Handle - Held to offer stability for temperature measurement
 - LCD Display - Displays temperature reading (°C/°F)
May display a colour background (green when reading is normal and red or orange indicating fever depending on manufacturer).
- 3) Follow the instructions for the proper use of the thermometer. (See Table 1).
 - 4) Accurately interpret the obtained temperature reading.
 - Take note of the unit of temperature measurement being used.
 - **A fever represents an elevation above the normal range for body temperature (forehead temperature of 100°F/37.8°C).**
 - A normal body temperature range is between 97° F (36.1 °C) to 99°F (37.2 °C).
 - Most digital infrared thermometers will record an abnormally elevated reading once the temperature is at 100°F (37.8°C) or greater.
 - Repeat the test if a fever is detected.
 - Record the temperature reading in the temperature log as required. (See table 2).

APPENDIX 'C' (CONT'D) TO FORCE ORDERS NO. 3809 DATED 2020-06-04

- **N.B.** For screening purposes other symptoms such as a cough, shortness of breath and sore throat may be present without fever. These symptoms should also be noted in the symptom log. (See table 2).

5) Take note of other precautionary measures for the preservation of the thermometer and accuracy of readings obtained.

- Avoid unnecessary tampering, shaking, dropping or infliction of physical trauma to the device.
- Avoid touching the lens of the probe as this area is very sensitive.
- Avoid excessive exposure of the device to direct sunlight.
- Temperature ranges may vary based on age so it is important to check the manufacturer's guidelines for age-based temperature ranges.

Preparation for Use	Taking a Temperature Reading	Aftercare of the Thermometer
1) Read the manufacturer's recommendations for use. 2) Ensure that the device is functional. 3) Take note of unit of measurement (°C or °F) 4) Put on the necessary personal protective equipment (mask and gloves). 5) Secure cleaning agents to sanitize the thermometer immediately after use.	1) Inform the person to be tested of the procedure. 2) Do not use cellular telephones during the recording of the temperature. 3) The probe of the thermometer should be aimed perpendicularly at the middle of the exposed and dried forehead of the individual being tested. 4) Hold the probe (at the distance recommended by the manufacturer) away from the forehead. 5) Gently press the measurement button to take the reading. 6) Log temperature reading (as required). 7) Do not touch mask or face during procedure. 8) Practise proper hand hygiene and removal of the used personal protective equipment as per protocol.	1) Clean the device after use with each individual. 2) Use a cotton swab or soft cloth saturated with alcohol (60% - 70 %). 3) Gently wipe the device and allow to air dry. 4) Take care to avoid physical damage to the lens and the probe. 5) Do not use abrasive cleaners on the device. 6) Never immerse the thermometer in fluids.

Table 1. Steps for Use of Thermometer

APPENDIX 'C' (CONT'D) TO FORCE ORDERS NO. 3809 DATED 2020-06-04

Table 2. Temperature and Symptom Log

Please place a tick in the appropriate column (with a red ink pen) if there is a positive response to a particular symptom.

A forehead temperature of 37.8°C OR 100°F indicates a **FEVER**. Please highlight elevated temperatures in red on the log sheet.

The name and signature of the officer performing the screen should be clearly stated in the last column.

APPENDIX 'D' JAMAICA POLICE CO-OPERATIVE CREDIT UNION LIMITED UPDATE
TO FORCE ORDERS NO. 3809 DATED 2020-06-04

June 5, 2020

FOR IMMEDIATE
RELEASE

JPCCU ADVISORY

To: All Members
From: The Jamaica Police Co-operative Credit Union Limited (JPCCU)
Date: June 04, 2020
Re: New Opening Hours

As we continue to navigate through the COVID-19 pandemic, JPCCU wishes to advise members of our **New operating hours** which will take effect **Monday, June 8, 2020**, kindly note the following:

Branch Operations:

The Branches and Agency mentioned below will operate as follows:

Kingston, Montego Bay, St. Mary & Mandeville: 8:30 a.m - 2:30 p.m

Portmore:

Mondays - Fridays - 9:00 a.m - 3:00 p.m

Saturdays - 9:30 a.m - 12:30 p.m

National Police College of Jamaica (NPCJ) Agency:

Tuesdays - Fridays - 11:00 a.m - 5:30 p.m

Saturdays - 9:30 a.m - 3:00 p.m

When visiting any of our Branches please ensure that you are wearing a mask.

For your convenience, members are encouraged to utilize our alternative service delivery channels. These channels include the use of our **Access Plus Debit cards for ATM and Point of Sale Transactions**, our online banking platform (**i-link**) as well as our **Dropbox Facilities**.

We thank you for your cooperation and understanding during this time.

Sincerely,
Wray L. Palmer
General Manager

Head Office:
122 Harbour Street

Contact:
(876) 618-5728

Email:
info@jpccu.com.jm

Social Media:
 

UPDATE

YOUR ACCOUNT INFORMATION

The Jamaica Police Co-op Credit Union (JPCCU) wants you to come in and update your accounts, as we are required by law to update all membership accounts every five (5) years. Please ensure that:

Your current ID and Proof of Address is on file

You review and update your beneficiary if necessary

Your contact number is correct

Your email address on file is current and/or correct

You do periodic deposits to your accounts to avoid them becoming dormant

Your signature is current

You reactivate your dormant accounts by doing a transaction, and by providing us with current identification and proof of address

We encourage you to visit your nearest Branch to update your account.

Visit a Jamaica Police Co-operative Credit Union Branch and speak to a Member Service Representative Today!

The Jamaica Police Co-operative Credit Union Ltd. (JPCCU)

**APPENDIX 'E' PUBLIC SECTOR EMPLOYEES CO-OPERATIVE CREDIT UNION LIMITED UPDATE
TO FORCE ORDERS NO. 3809 DATED 2020-06-04**

**NOTICE TO PUBLIC SECTOR EMPLOYEES CO-OPERATIVE CREDIT UNION
LIMITED MEMBERS**

INVITATION OF NOMINATION BY PETITION

Public Sector Employees Co-operative Credit Union Limited will hold its 52ND Annual General Meeting on August 8, 2020. In preparation for this, the Nominations Committee hereby invite members to nominate suitable candidates to fill vacancies on the Board of Directors, Credit Committee and Supervisory Committee.

The Nominations Committee will carry out its normal functions, in accordance with Article XIII of the rules. In addition, nominations from members will be accepted by petition under the following terms and conditions: -

1. Nominations to fill vacancies on the Board of Directors, Credit and Supervisory Committees must be duly signed by at least five (5) members and submitted to the Nominations Committee for consideration.
2. Candidates nominated will be interviewed by the Nominations Committee to determine suitability to fill vacancies.
3. Each nomination must include a statement of qualifications and biographical data of the nominee and must be accompanied by a signed Candidate Qualification Form from the nominee stating that he/she agrees with the nomination and will serve if elected to office.

A copy of the Candidate Qualification Form is available on the Credit Union's website at psecreditunionja.com or from any office of PSE Credit Union limited.

4. A member seeking to hold office shall be disqualified if he/she: -
 - (a) fails to satisfy the Registrar and/or the Supervisor that he/she is a fit and proper person to perform corporate management functions;
 - (b) has a dormant or inactive account for six months and over;
 - (c) is a member for less than six (6) months;
 - (d) is delinquent at the time of the Nominations Committee's deliberations.

Submission of nomination by petition should be placed in a SEALED envelope marked: "CONFIDENTIAL: Petition to Nominations Committee PSE Co-operative Credit Union Limited" and submitted to any office of PSE Co-operative Credit Union Limited or send email to Nominations@psecreditunionja.com.

Closing date for receiving nominations by petition is **June 24, 2020**. The Nominations Committee will submit the final nominations to the Secretary of the Credit Union who within 30 days of the Annual General Meeting, will notify the members in writing or by electronic mail, of the nominations received. The notice will also be posted in a conspicuous place in the Credit Union's offices.

N.B. NO NOMINATION WILL BE TAKEN FROM THE FLOOR AT THE ANNUAL GENERAL MEETING.

Dated this 18th day of May 2020

APPENDIX 'E' (CONT'D) TO FORCE ORDERS NO. 3809 DATED 2020-06-04

PETITION FOR NOMINATION TO THE
BOARD OF DIRECTORS ☐ SUPERVISORY COMMITTEE ☐ CREDIT COMMITTEE ☐

I, _____, hereby request nomination to the selected position above at the Public Sector Employees Co-operative Credit Union Limited. The following Credit Union members are in support of this petition:

CONS. #	NAME (PRINTED)	SIGNATURE	ADDRESS	CREDIT UNION A/C #
1.				
2.				
3.				
4.				
5.				
6.				
7.				

I do hereby attest that the signatures contained on this petition are the true and valid signatures of members of the Public Sector Employees Co-operative Credit Union Limited. I accept the nomination and agree to serve if elected.
