

JAMAICA CONSTABULARY FORCE
Technology Branch Backup and Recovery Testing Procedure

Title: JCF Technology Branch Backup and Recovery Testing Procedure	Identification Code: JCF/TECB-ICTD/PR/SSs/0011/2021
Effective Date: 2024-Oct-3	Pages: 3
Last Reviewed: 2024-Oct-1	Distribution: Technology Branch
Revision version #: 1	Process Owner: ACP Technology Branch
Rescinds: 2021-Oct-01	
Authors: Technology Branch, ICTD	Owner: JCF
Publication: 2024-Oct-3	Review: Biennially

1.0. Purpose

The purpose of this document is to outline the steps involved in executing the backup procedure of; Data, Applications & Recovery testing.

2.0. Scope

This process conducts backups & recoveries for all hosted applications managed by the ICTD.

3.0. Acronym and Abbreviation

CO Computer Operator
SCO Senior Computer Operator
DCT Data Center Technician
OM Operations Manager
SSE Senior Systems Engineer
SA System Analyst

4.0. Description of Activities [Procedures]

Conducting Backups

- | | | |
|-------------|------------|--|
| 4.1. | CO/SCO/DCT | Prepare the media to store the backup. |
| 4.2. | CO/SCO/DCT | Configure the backup settings to include date, time, destination & source. |

JAMAICA CONSTABULARY FORCE
Technology Branch Backup and Recovery Testing Procedure

- | | | |
|------|------------|--|
| 4.3. | CO/SCO/DCT | Stop services (where necessary) to facilitate backup activities. |
| 4.4. | CO/SCO/DCT | Execute Backup. |
| 4.5. | CO/SCO/DCT | Restart services that were stopped to facilitate the backup process. |
| 4.6. | CO/SCO/DCT | Verify that backup activities were successful. If same was unsuccessful, an investigation is launched to determine the cause after that, corrective measures are executed. |
| 4.7. | CO/SCO/DCT | Generate a report & submit same to the SSE & OM to advise of the current status of the situation. If it is unresolved, then the matter is to be escalated. |
| 4.8. | SSE | If the issue is critical and cannot be resolved by the Internal team after consultation with the OM, a third party is engaged |
| | 4.8.1. OM | Approve the engagement of third parties (if the matter to be resolved is critical). Otherwise, OM is made aware of these activities via submission of the weekly reports. |

Conducting Recoveries

- | | | |
|-------|------------|---|
| 4.9. | CO/SCO/DCT | Prepare alternate media for recovery of data. |
| 4.10. | CO/SCO/DCT | Execute recovery & document the date & time that the process ends as well as, any concerns/issues indicated. If the recovery was unsuccessful, an investigation is launched to ascertain the cause. Thereafter, corrective measures are executed. |
| 4.11. | CO/SCO/DCT | Generate a report & submit same to the SSE & OM to advise of the current status of the situation. If unresolved, the matter is to be escalated. |
| 4.12. | SSE | If the issue is critical and cannot be resolved by the Internal team after consultation with the OM, a third |

party is engaged.

- 4.12.1. OM** Approve the engagement of third parties (if the matter to be resolved is critical). Otherwise, OM is made aware of these activities via submission of the weekly reports.

Conducting Recovery Testing

- 4.13. CO/SCO/DCT&SA** Ensure that the recovered data is at least 95% match to the original source.
- 4.14. CO/SCO/DCT&SA** Document the size of the recovered data/copy to be matched against the source document.
- 4.15. CO/SCO/DCT&SA** In the event that the database (source document) cannot be recovered, the copy/recovered data is either; used to overwrite where the database was, or users are routed to the copy/recovered data to be used as the source document upon the approval of the OM.
- 4.16. CO/SCO/DCT&SA** Ensure that the users have access to the information once the recovery process has been successfully completed.
