Publication: 2020-Jul-07	Review: Biennially

1.0 Introduction

1.1 The Firearm Training Simulator is a system which effectively supports marksmanship and judgmental training needs of law enforcement, paramilitary and security personnel. The 1-screen configuration includes both marksmanship training and video training modes to provide a multi-tiered training program. Marksmanship training ranges from basic to advanced, and judgmental training enhances the understanding of shoot/don't shoot situations and the corresponding decision making process.

2.0 Purpose

2.1 The purpose of this document is to guide the safe and correct use and maintenance of the Firearm Training Simulator (FATS) and policies and procedures governing any training in the use of the system.

3.0 Scope

1.2 This policy sets out regulations regarding **(a)** Safety and Risk Management **(b)** Staffing and Management **(c)** Simulator System Check List & **(d)** Accessibility.

4.0 Roles and Responsibilities

4.1 Overall responsibility for all training with the Firearm Training Simulator rests with the Officer In-Charge Department of Weapons and Tactical Training (D.W.T.T.).

4.2 The Firearm Training Simulator shall be managed by the Sub-Officer In-Charge (S.O. I/c) of FATS Training who can be distinct from the System Operator (S.O.) who operates the Instructor Control Station (I.C.S.) and Primary Simulator Computer (P.S.C.). The S.O. I/c FATS Training **MUST** be trained and certified for his/her role and **MUST** not be below the rank of **Sergeant**.

4.3 No unauthorized person is allowed to collect the keys for the FATS Room.

4.4 Only persons who are authorized are allowed to operate the I.C.S. and P.S.C.

4.5 All Simulator Weapons are to be stored at the National Police Collage of Jamaica (N.P.C.J.) Armoury.

4.6 All Simulator Weapons are to be drawn with the approved authorization of the Commanding Officer I/c D.W.T.T.

4.7 It is the responsibility of the System Operator to ensure that: -

- a.** The FATS Room is kept clean.
- b.** The Air Conditioning (A/C) Units are working properly.
- c.** That a serviceable fire extinguisher is in place.
- d.** The P.S.C. is powered on along with the projector.
- e.** The System is approximately at a distance of 15 to 25 feet from screen.
- f.** Weapons are to be connected properly.
- g.** Adjust image position and size by means of calibration.
- h.** Ensure that all lights are turned off before calibrating the system.
- i.** The Carbon Dioxide (CO₂) containers are kept up-right and the regulators are fitted correctly before turning the (CO₂) container valve on.
- j.** The container valve is open slowly and that the pressure does not exceed the red mark/required pound per square inch (P.S.I.) on the regulator.
- k.** At the end of the training exercise the simulator is powered down properly, and the equipment are secured.
- l.** Ensure that enough (CO₂) gas is in place for the next training session.
- m.** All weapons are retuned into the N.P.C.J. Armoury.
- n.** The building is securely locked-up and the keys are returned to the N.P.C.J. Armoury.

5.0 Simulator System Check List

- 5.1 Electric Current
- 5.2 Check A/C
- 5.3 Place Instructor Control Station (I.C.S.) into position
- 5.4 Pull caps, front and rear
- 5.5 Attach Speakers and Cables
- 5.6 Check simulator power chord
- 5.7 Trace umbilical cable
- 5.8 Check Weapons (check sensor box)
- 5.9 Check magazine
- 5.10 Connect weapons to systems port
- 5.11 Check (CO2) gas
- 5.12 Check Regulator
- 5.13 Connect regulator to (CO2) cylinders with pipe wrench
- 5.14 Connect weapons to regulator
- 5.15 Plug power lead for service
- 5.16 Open valve slowly that its normal P.S.I. capacity
- 5.17 Ensure that the Liquid Crystal Display (L.C.D.) monitors is in place
- 5.18 Power up the projector
- 5.19 Wait until blue image shows on the screen

5.20 Press Power button on the system

5.21 Look for green light signal on power system

6.0 Accessibility

6.1 Only personnel of the Security Forces will be able to utilize this facility. This includes personnel of the;

- a. Jamaica Constabulary Force (J.C.F.)
- b. Jamaica Defence Force (J.D.F.)
- c. Department of Correctional Services (D.C.S.)

At no time this equipment **MUST** be used for training non-security forces personnel, unless authorized by the Assistant Commissioner of Police (A.C.P.) In-Charge Training N.P.C.J. There will be a high focus on prioritizing individuals who need special attention in firearms training, and those who are likely to encounter live situations like video scenarios on the system. This group will include but not be limited to personnel of the Protective Services, Special Units such as Counter Terrorism and Organized Crime (C.T.O.C.) and Mobile Reserve Special Weapons and Tactics (S.W.A.T.) personnel.

7.0 Safety and Risk Management

7.1 All Safety Precautions that apply to live firing ranges are applicable to this and all simulator range(s).

7.2 Normal Safety Precautions (N.S.Ps.) **MUST** be carried out before entering the FATS Building.

7.3 No Weapons or Ammunition will be allowed or facilitated in the FATS Building, other than those that are a part of the system.

7.4 Firers are not allowed forward of the firing point.

7.5 There **MUST** be No Smoking, Eating or Drinking inside the FATS Room.

7.6 All cellular phones must be turned off.

7.7 In the event of electric shock:

- a.** Switch off electrical current.
- b.** Protect yourself with dry insulated material and pull the victim clear of the conductor.
- c.** Maintain a sense of urgency if there is a fire or explosion.
