5.0. Description of Activities (Procedures)

The following process flow outlines the key steps involved in planning, designing, conducting, and evaluating training and development programmes within the organization.

5.1 Training Needs Assessment:

- a. The Training and Development Department conducts regular training needs assessments in collaboration with department heads, PMAs and surveys.
- b. Identified training needs are aligned with organizational goals and employee development plans.
- c. The Training Department prepares annual training schedule

5.2 Program Design and Development:

- a. The Training and Development Department collaborates with SMEs to design training programs based on identified needs.
- b. Learning objectives are defined for each training program.
- c. Training curriculum is developed, including content, materials, and delivery methods.

5.3 Training Delivery:

- a. Training sessions are scheduled and communicated to participants.
- b. At the beginning of each session, the training register is completed and signed by all participants
- c. Trainers facilitate training using a mix of methods such as workshops, e-learning, presentations, and practical exercises.
- d. Trainers engage participants, encourage active participation, and address questions and concerns
- e. Depending on the course, manuals are emailed to participants at the end of training.

5.4 Training Evaluation:

- a. Post-training evaluations are conducted at Divisions/ Organizational Units to gather feedback from participants by observations and interviews.
- b. Training effectiveness is assessed using metrics such as participant satisfaction, knowledge retention, and application of skills on the job.

5.5 Continuous Improvement:

- a. The Training and Development Department reviews evaluation results to identify areas for improvement.
- b. Based on feedback, content and delivery methods are updated to enhance training quality.
- c. Course content and training administration remain current, updated, and align with organization goals

5.6 Documentation:

- a. All training activities, including needs assessment, program design, and evaluation results, are documented in the organization's Training Records Management System.
- b. Any revisions to training content or procedures are documented with clear revision history.

6.0. Request Handling Process for Training:

6.1. Training Request Submission:

- a. **Division/Department Request:** Any division or department requiring training initiates a request. This request includes details such as the type of training needed (e.g., Body-Worn Cameras, SmartCheck, etc.), the number of participants, and any specific requirements.
- b. **Submission to General Office/Helpdesk:** The request is sent to the general office or helpdesk either through a formal request form or via email.

6.2. Request Handling:

Please rate the quality of the following:

Category	Strongly Agree	Agree	No Opinion	Disagree	Strongly Disagree	Not Applicable
My supervisor supports my participation in this course						
The course objectives were met						
The instructional materials were useful						
The learning activities stimulated my learning						
The scenarios/exercise were useful						
The method(s) of training delivery was effective						
The content of the course was relevant to my job						
Generally the instructor(s)/Facilitator(s) were well prepared						
Generally the instructor(s)/facilitator(s) had good teaching skills						
Generally the instructor(s)/facilitator(s) had sound knowledge of the course content						
The training facilities were conducive to learning						
Overall I am satisfied with this course
