1.0 Introduction

The Court Records Unit (CRU) is an essential part of the Jamaica Constabulary Force's Criminal Records Office (CRO). It is responsible for maintaining the accuracy, security, and integrity of all court-related criminal history records. This Standard Operating Procedures (SOP) provides clear guidelines for managing court records, from creating and updating individual criminal records to receiving and processing conviction returns. It defines staff responsibilities, outlines standard operating procedures, and sets compliance expectations to ensure consistency, accountability, and efficient record management within the CRU.

2.0 Purpose

This document outlines the JCF's policy and standard operating procedures for the collection, storage, and processing of specific court records, while managing the country's criminal registry databases.

3.0 Scope

This Policy and SOP applies to all sworn and unsworn members of the Jamaica Constabulary Force, including those with responsibility for the Criminal Records Office. It regulates the procedures of the Court Records Unit.

4.0 Policy Statement

The JCF is committed to ensuring the continual advancement of its systems and processes in order to satisfy the changing demands of the Judiciary. To this end, it is the policy that: 1) the Court Records Unit is managed in a manner that reflects efficiency and accuracy while safeguarding the privacy and confidentiality of information, 2) the CRU maintains the highest standard of integrity in the delivery of service to the Courts of Jamaica and, 3) only trained and authorized personnel should access the criminal records database.

5.0 Abbreviations and Acronyms

- 5.1 **CRO DMS** - Criminal Records Office Document Management System (CYCLOPS)
- 5.2 **MBIS** - Multi-Biometric Identification System
- 5.3 **FPB** - Fingerprint Bureau
- 5.4 **CRU** - Court Records Unit
- 5.5 **C.I.B.** - Criminal Investigation Bureau

6.0 Definitions

- 6.1 **CRO Number:** A unique identification number generated by MBIS and assigned to a convict.
- 6.2 **Possible Hit:** Indicates that a fingerprint match has been identified in the Multi-Biometric Identification System (MBIS).

- 6.3 **No Hit:** Indicates that no fingerprint match has been found in the Multi-Biometric Identification System (MBIS).
- 6.4 **Multi-Biometric Identification System (MBIS):** An operating system that shows fingerprint, charges, and convictions received from the courts.
- 6.5 **Multiple Enrolment System Application (MESA):** Is a software utilized to collect personal information, signatures, and document scans, along with any other forms of biographic data, through secure high-speed software.
- 6.6 **Criminal Records Office Document Management System (CRO DMS) ‘Cyclops’:** A database which stores information of persons charged and/or convicted of crimes.

7.0 Responsibilities

- 7.1 The **Superintendent of Police, Criminal Records Office**, has overall responsibility for:
 - 7.1.1 the collection, storage, and processing of all court reports produced by the Court Records Unit;
 - 7.1.2 management of the country’s criminal records and related databases, as well as dissemination of court records;
 - 7.1.3 oversee the operations and functions of the Criminal Records Office;
 - 7.1.4 manage the staff and oversee the maintenance of the criminal history database and all other supporting systems;
 - 7.1.5 ensure compliance with the legislative framework, policies, and standard operating procedures;
 - 7.1.6 institute systems to ensure that reports are accurate, secure, and of high quality; and
 - 7.1.7 manage systems and processes to better understand and serve the needs of courts.
- 7.2 The **Sub-Officer i/c Court Records** should:
 - 7.2.1 Coordinate the collection of all fingerprints submitted to the CRU for processing.
 - 7.2.2 Ensure that the fingerprints are submitted within twenty-four (24) hours of receipt to the Fingerprints Bureau.
 - 7.2.3 Coordinate and follow up with the Fingerprints Bureau to ensure the results are returned promptly.
 - 7.2.4 Ensure the CRO DMS is updated accordingly.
 - 7.2.5 Manage all operations at the Court Records Unit.
 - 7.2.6 Coordinate all conviction returns, docket updates, and court record preparation.
 - 7.2.7 Ensure that all correspondence submitted is thoroughly reviewed and properly completed before acceptance.

8.0 Standard Operating Procedures

The Court Records Unit manages the collection, updating, and production of reports for the Courts of Jamaica, regarding a subject appearing before it, charged, or to be sentenced. This process entails the collection of a set of fingerprint impressions (CIB-FP-01) by the Police Officer assigned to the courts, along with the CIB 4/CR12/CR14 and all other pertinent documents, for submission to the Criminal Records Office for processing.

8.1 Receiving and Processing New Court Submissions

The Sub-officer in charge of the Court Records Unit should carefully examine the **C.I.B. CR14** form received from the Superintendent of Police to ensure that the information entered is correct.

- 8.1.1 The FP-01 form should be in duplicate and should account for all ten fingerprints and palm prints, and should be signed by a sub-officer.
- 8.1.2 The receiving officer should ensure that all forms are properly completed and accounted for under signature, and that the reverse side is stamped with the “Received” stamp.
- 8.1.3 A CRO disclosure workflow profile should be created for each fingerprint form received, ensuring that each is properly accounted for and that any urgent cases are clearly highlighted
- 8.1.4 An entry is to be recorded in the CRU Correspondence register (Urgent requests are to be written in red ink).
- 8.1.5 Forms are to be forwarded to the Fingerprint Bureau within **24 hours** for processing.

8.2 Handling Fingerprint Bureau Results ('Hit' / 'No Hit')

Upon receiving the results from the Fingerprint Bureau, the following steps should be taken:

- 8.2.1 Where the result is a **‘Possible Hit’** with previous convictions, the docket is retrieved, the CRO DMS is updated with the new charge, and a **CIB 6c** and **CIB 6** are generated, awaiting collection from the respective division.
- 8.2.2 Where the result is **‘No Hit’**, a CRO DMS profile is created, updated with the charge, and a **CIB 6b** is generated, awaiting collection from the respective division.
- 8.2.3 The Sub-officer in charge of the CRU should verify that the information generated is true and correct, then sign each form, including the reverse side of the fingerprints form (FP-01).

8.3 Procedure: Dissemination and Collection of Reports

- 8.3.1 The Sub-officer in charge of the Court Records Unit or deputy should ensure that the court results (CIB 6, 6b, 6c) are sorted and filed for collection by the respective divisions.
- 8.3.2 These reports should be completed within **twenty-one (21) days for normal** requests and within **five (5) days for urgent** requests, calculated from the date of receipt.

- 8.3.3 The receiving officer from the division should ensure that the information submitted corresponds with the information on the results and thereafter sign the dispatch register.

8.4 Updating CRO DMS from Court Disposals

- 8.4.1 Where fingerprints are taken at the court, they should be retrieved for recording and uploading at the Criminal Records Office.
- 8.4.2 Upon completion of a case, **CR14** form should be updated with the result of the case and submitted with the fingerprints of the individual to the Court Records Unit within **ten (10) calendar days** of the date of disposal.
- 8.4.3 When an individual is convicted of multiple offences, a single CR14 form should be fully completed to capture all essential details of the conviction. For each additional offence, similar forms are to be prepared in skeletal form, containing the respective offence, sentence, biographical information, and Modus Operandi (M.O.). This ensures that every offence associated with the conviction is accurately documented and properly linked to the individual's criminal record.

8.5 Handling First Convictions

Consequent to confirmation that the individual has no previous conviction, the following steps are taken:

- 8.5.1 A CRO number is assigned to the current conviction. This number should correspond with the year in which the conviction occurred.
- 8.5.2 A **C.I.B. 19** (Docket) is created, and all related CR14 documents pertaining to the case are placed in the docket.
- 8.5.3 The completed file is forwarded to the Court Records Unit, which should process it as follows:
- 8.5.4 The first conviction is retained by the Fingerprint Bureau as the main means of identification, while the CR 14 is placed in the docket (C.I.B. 19). All other **C.I.B FP-01** relating to charges should be removed and placed in the individual's docket.
- 8.5.5 A member of the CRU should complete the C.I.B. 19 by adding the convict's name and any known aliases.
- 8.5.6 As directed by the Sub-Officer in charge of the Court Records Unit (CRU), a profile should be created for the individual on the CRO Document Management System (Cyclops). If a profile already exists for the individual based on a previous charge, that profile should be used. The profile should then be populated with the information captured on the CR14 form, along with the assigned CRO number and the fingerprint classification provided by the Fingerprint Bureau.
- 8.5.7 The docket should then be filed in the Docket Room.

8.6 Procedure: Handling Re-Convictions

The following steps are to be taken where an individual has previous convictions:

- 8.6.1 Where an individual has prior convictions (“POSSIBLE HIT”), both the **CR14** and **C.I.B. FP-01** forms should be forwarded to the Criminal Records Office by the Fingerprint Bureau.
- 8.6.2 The file linking the individual should be retrieved from the filing room.
- 8.6.3 The new convictions are inserted into the docket, including recording any new aliases on the cover of the docket.
- 8.6.4 The CRO DMS profile (Cyclops) for the individual should be updated with all new data.
- 8.6.5 The docket should be returned to the filing room.
- 8.6.6 All convictions resulting in terms of imprisonment are to be treated as **urgent**. A C.I.B. 6 should be prepared within **three (3) days** of receipt and made available for collection by the Division’s Detention and Courts Unit to facilitate the individual’s admission to prison.

8.7 Processing Prison Release Return

- 8.7.1 The following forms are to be submitted by the Prisons for convicts to be released. **Form C.I.B. 5** (Descriptive Form), **FP-01** (Fingerprint Form), and a **photograph**.
- 8.7.2 The Sub-officer or his deputy should verify the accuracy of each return by closely examining it.
- 8.7.3 The convict’s docket is to be requested from the filing room.
- 8.7.4 The C.I.B. 5, FP-01, and photograph are to be inserted into the convict’s docket.
- 8.7.5 Update the convict’s file on the CRO DMS with all new data.

8.8 Procedure: Docket Management

A docket is created upon an individual's first conviction. The docket may contain, but is not limited to, the following documents:

- 8.8.1 **Form C.I.B. 19** – The docket folder itself, displaying the C.R.O. number at the top right corner, fingerprint classification at the top left corner, and the individual’s name and aliases. It contains all correspondence and documentation related to an individual’s criminal history, including forms C.I.B. FP-01 and CR14.
- 8.8.2 **Profile Form (CR 14)** -used to document all relevant information about an individual who has been charged with or convicted of an offence as per JCF Case Management Policy and SOP.
- 8.8.3 **Forms C.I.B. FP-01** (Charge/Conviction) is used to capture fingerprint impressions of a person charged or convicted. It should be completed and signed by a sub-officer or an authorized officer of the Department of Correctional Services as per JCF Case Management Policy and SOP.
- 8.8.4 **Jamaica Constabulary Force Recorded Convictions (C.I.B. 6)**: A conviction report submitted to the courts and prisons containing the

individual's biometric data, physical description, and a complete record of convictions.

- 8.8.5 **Jamaica Constabulary Force - Notification of no Previous Convictions (C.I.B. 6b):** This form is addressed to the Superintendent of a Division, to be presented to the court on behalf of the Criminal Records Office, certifying that a subject has no prior convictions.
- 8.8.6 **Jamaica Constabulary Force - Notification of Previous Conviction (C.I.B. 6c):** This form is addressed to the Superintendent of a Division, indicating that a subject has prior convictions. This form is accompanied by the corresponding C.I.B. 6 for submission to the court.
- 8.8.7
- 8.8.8 **C.I.B. FP-02** (Elimination), and **C.I.B. FP-03** (Previous Police Certificate Application for Overseas Purposes) – Fingerprint forms.
- 8.8.9 **Form C.I.B. 5** – Submitted by the Prisons, detailing the offence, conviction date, trial location, date admitted, term of imprisonment, and date discharged. This form is accompanied by a C.I.B. FP-01 for identification purposes.
- 8.8.10 **Photographs** – Provided by the Prisons along with Form C.I.B. 5.

8.9 Arranging Correspondence in the Dockets

The correspondence filed in the dockets should be arranged in the following order to the right of the folder:

- 8.9.1 **1st. Forms C.I.B. 6, 6C, 6B,** or any other non-essential correspondence for the individual are to be placed at the back of the docket.
- 8.9.2 **2nd. Form C.I.B. 5 and its Corresponding C.I.B. FP-01 (if available)**
- 8.9.3 **3rd. All Charge-Related C.I.B. FP-01** – Also arranged in ascending chronological order.
- 8.9.4 **4th. Corresponding Conviction form C.I.B. FP-01** – Arranged in the same ascending order as convictions.
- 8.9.5 **5th. Forms CR 14** – Arranged in ascending order beginning with the date of the first conviction. Each form should be numbered in pencil at the top left corner.

8.10 Docket Updating and Certification

- 8.10.1 All new conviction forms (CR14), prison returns (C.I.B. 5), and fingerprint forms are to be securely inserted into the corresponding C.I.B. 19 docket.
- 8.10.2 On completion of inserting the documents, a Sub-Officer should certify under signature on the right flap of the folder that the information inserted is correct, indicating the number of convictions recorded.

8.11 Filing and Retrieval

- 8.11.1 The Docket Room is the major repository for criminal records files.
- 8.11.2 Every convicted individual should receive a CRO number, and their docket should be processed and filed.
- 8.11.3 Dockets should be arranged on shelves in packs of no more than one hundred (100) in both chronological and numerical order.
- 8.11.4 The docket management system should keep track of every docket that enters and exits the docket room.
- 8.11.5 The following data should be collected on the docket management system:
 - a. Date
 - b. Criminal Records Office number
 - c. Name of convict
 - d. Number of CR 14 in file
 - e. Number of CIB 5 in file
 - f. Number of Fingerprint Form
 - g. Reason for removal
 - h. Name of person receiving docket
 - i. Name of person issuing docket
 - j. Date docket was returned
- 8.11.6 All dockets removed from the docket room should be returned immediately after use.
- 8.11.7 All dockets of deceased criminals should be removed from the main collection of dockets.
- 8.11.8 All expunged dockets should be removed from the main collection.
