JAMAICA CONSTABULARY FORCE

Technology Branch Maintenance of Physical Security and Access Control Procedure

5.0. Description of Activities [Procedures]

- 5.1. OM Receives request made from the supervisor to provide biometric access to staff to gain access to the main or sensitive areas.
- 5.2. OM Appoint the CO/SCO/DCT to execute the request. The employee will be granted access to the main building and/or sensitive area within the scheduled timeline (Regular work hours, 24-hour access or weekend access).
- 5.3. CO/SCO/DCT Capture the biometric (fingerprints) & demographic information (name & division assigned) of the employee.
- 5.4. CO/SCO/DCT Conduct a trial run/test after capturing the biometric and demographic information to ensure that the staff member has access.
- 5.5. CO/SCO/DCT Respond to the OM and advise that the request has been successfully completed. The supervisor is advised afterwards.

Access to Software Application Process

- 5.6. CO/SCO/DCT Receive request made for access by third party designate and/or supervisor to provide access on behalf of their subordinate. Request is routed to the Helpdesk to be processed.
- 5.7. CO/SCO/DCT Receive request made from the helpdesk/ticket system to create, upgrade or remove access to applications as well as reset passwords.
- 5.8. CO/SCO/DC Contact and verify with the OM that the request submitted should be executed. If not, then the OM contacts the third party designate and/or supervisor and advise them that access is not granted along with the justification.
