1.0 INTRODUCTION

This Standard Operating Procedure provides a guideline and standardized approach to the operations of the Jamaica Constabulary Force (JCF) Police Emergency Communication Centre (PECC). It sets out the specific responsibilities and functions of critical staffs to ensure that PECC not only meets, but exceeds customers' expectations. The PECC operates with the mantra that, "Quality is never by accident but a habit".

The Police Emergency Communication Centre (PECC) is responsible for the management of all calls made to 119 and shall efficiently and effectively appreciate and dispatch the appropriate responses. The PECC is cognizant of the fact that the quality of service offered can be the deciding factor in the protection of life; and that maintenance of high standards in all processes is the key to customer satisfaction. The PECC is therefore committed to the provision of a service which fulfils the requirements and expectations of our customers which will also lead to the enhancement of brand JCF. The PECC therefore seek to establish a standardized approach to ensure that reports and or complaints received are dealt with in a manner consistent with the JCFs customer service policy aimed at resolving issues, ensuring customer satisfaction and facilitating the best interest of all parties involved.

2.0 Purpose

The purpose of this Standard Operating Procedure (SOP) is to outline the proper procedures for the use and care of headsets provided by the Jamaica Constabulary Force (JCF) to staff at the Police Emergency Communication Centre (PECC). These guidelines aim to ensure the longevity and optimal performance of the headsets while maintaining hygiene standards and minimizing the risk of damage.

3.0 Scope

This SOP applies to all staff members who are issued JCF-provided headsets for use at PECC. It encompasses procedures for the proper handling, storage, cleaning, and maintenance of the headsets to promote their effective and safe use.

4.0 Responsibilities

The Shift Monitor/Manager/Supervisor or designated personnel shall oversee compliance with the SOP and provide necessary training and support to staff members. The following summarizes key responsibilities:

4.1 The Monitor/Shift Manager

The Monitor/Shift Manager shall:

- 4.1.1 supervise and coordinate the overall operations in ensuring the Unit's and by extension JCF's mandate is achieved;
- 4.1.2 ensure that an atmosphere of personal motivation and morale is ensued and maintained; resources are efficiently and effectively deployed; departmental guidelines, procedures and ethics standards are observed; and the image of the organisation is viewed positively by its customers;

- 4.1.3 ensure that teams are briefed and debriefed upon commencement and conclusion of shift;
- 4.1.4 continuously monitor the *Communication Centre Management Systems* and track operatives' real time performance;
- 4.1.5 identify and recommend ways to improve efficiency, boost quality, and minimize human errors at the Centre;
- 4.1.6 monitor and evaluate the performance trends of the call takers and dispatchers by interrogating records within the Avaya and CAD Systems;
- 4.1.7 ensure reports are disseminated on time;
- 4.1.8 ensure that the Senior Duty Officer at Headquarters Command and Control Centre (HCCC) is informed immediately of any major incidents and events;
- 4.1.9 ensure all disciplinary related matters are dealt with appropriately;
- 4.1.10 liaise with internal stakeholders eg. Technology Branch to ensure continuous optimal operation of the Centre;
- 4.1.11 ensure timely communication with the relevant internal and external stakeholders and partners;
- 4.1.12 ensure Station diary is certified daily;
- 4.1.13 ensure all records are properly kept;
- 4.1.14 maintain liaison with the Divisional assets and Area Controls;
- 4.1.15 see to the general performance, discipline, and welfare of staff members;
- 4.1.16 randomly monitor calls for quality assurance;
- 4.1.17 ensure adequate number of Call Takers and Dispatchers are logged in and performing throughout his/her shift;
- 4.1.18 ensure call takers and dispatchers use the computers and emergency telephone system for official use only;
- 4.1.19 assist in the monitoring and evaluation of the performance of the emergency call takers and dispatchers;
- 4.1.20 ensure that all assignments are updated with feedback from dispatched personnel; and
- 4.1.21 ensure no personal electronic device are used on duty.

4.2 Shift Supervisors

The shift supervisor shall be responsible for:

- 4.2.1 all resources are efficiently utilised consistent with organisation policies and procedures in order to meet strategic goals and objectives; and
- 4.2.2 all emergency calls and other calls for service are treated appropriately and with alacrity.

4.3 Supervisors

It shall be the responsibility of supervisors to:

- 4.3.1 conduct briefing and debriefing of staff upon commencement and conclusion of shift;

- 4.3.2 continuously monitor the *Communication Centre Management Systems* and track operatives' real time performance;
- 4.3.3 identify and recommend ways to improve efficiency, boost quality, and minimize human errors at the Centre;
- 4.3.4 monitor and evaluate the performance trends of the call takers and dispatchers by interrogating records within the Avaya and CAD Systems;
- 4.3.5 disseminate reports on time;
- 4.3.6 identify disciplinary breaches and communicate with the relevant internal and external stakeholders and partners as is necessary;
- 4.3.7 certify Station Diary daily;
- 4.3.8 ensure all records are properly kept;
- 4.3.9 communicate with Area PECCs in ensuring assignments are treated appropriately ;
- 4.3.10 randomly monitor calls for quality assurance;
- 4.3.11 ensure adequate number of Call Takers and Dispatchers are logged in and performing throughout his/her shift;
- 4.3.12 ensure Call Takers and Dispatchers use the computers and emergency telephone system for official use only;
- 4.3.13 assist in the monitoring and evaluation of the performance of the emergency Call Takers and Dispatchers;
- 4.3.14 ensure that all assignments are updated with feedback from dispatched personnel; and
- 4.3.15 ensure no personal electronic device is used on duty.

4.4 Call Takers

An emergency is defined as any situation that presents an immediate threat to life or property and requires urgent intervention. The Call Taker is the first point of contact between a caller and the Police via the telephone. The Call Taker shall:

- 4.4.1 create an atmosphere of confidence and security with the customer. The action of call takers will ultimately determine the quality of service received by the customers;
- 4.4.2 answer all calls and treat all callers with a high level of courtesy, accuracy, and professionalism;
- 4.4.3 ensure consistency of standards and swiftness in responses to emergencies and other occurrences;
- 4.4.4 answer the 119 calls promptly and with courtesy;
- 4.4.5 State the police location and personal operator code (P or C) (*eg: 119, Good Day, this is PXX/ CXX, what is your emergency?*);
- 4.4.6 listen attentively to the caller;
- 4.4.7 determine the nature of the calls (emergency/non-emergency);
- 4.4.8 keep communication between Call Taker and caller brief, professional and to the point; calls should not exceed two minutes (2) unless necessary;
- 4.4.9 route all non-emergency calls to a designated operator or a supervisor;
- 4.4.10 Obtain and accurately enter the relevant details of emergency calls (nature of incident, location/address of incident, description, name of the caller,

sex of caller, telephone number of caller etc.) into the Computer Aided Dispatch (CAD) System. If the incident was previously reported only add new information;

- 4.4.11 immediately notify the supervisor of all major incidents such as fatal shootings, injury or death of police personnel, public disorder, and/or arrest of foreign nationals;
- 4.4.12 thank the caller when all pertinent information is received and reassure him/her that help is on the way;
- 4.4.13 transmit the entered information without permission from the monitor/supervisor;
- 4.4.14 never return calls to the caller unless it is with permission from the supervisor to clarify caller identification or location of the incident or for other information that might ensure a speedier and more efficient response;
- 4.4.15 never use entertainment devices or personal telephones while at your workstation;
- 4.4.16 use computers only for work associated with PECC activities;
- 4.4.17 never connect personal memory sticks, external hard drives, USB cables or other external gadgets to JCF computers;
- 4.4.18 no food, or beverage should be stored or consumed at the workstations;
- 4.4.19 never leave your post after logging in, without the expressed permission of the supervisor;
- 4.4.20 never share login information under any circumstance; and
- 4.4.21 respond without delay to all assignments received.

4.5 Dispatchers

The Dispatcher plays a very integral role in the operation of the PECC. The Dispatcher interfaces with the stations, units, and personnel on the ground. This is specialized police work receiving and sending radio transmissions utilizing a digital radio system to law enforcement personnel in the field. The post requires critical decision-making skills, efficiency at managing radio traffic, and operating computer and telecommunications equipment. The functions are executed in accordance with prescribed dispatch procedures and within the scope of JCF Policies and Guidelines. The dispatcher shall:

- 4.5.1 dispatch police resources to scenes of incidents or occurrences as soon as possible or within three (3) minutes of the message being posted;
- 4.5.2 notify the supervisor immediately of any major incidents such as fatal shooting, injury or death of police personnel, public disorder, and/or arrest of foreign nationals received via the police radio;
- 4.5.3 follow through by updating all assignments in the relevant systems/database with feedback from dispatched personnel, unit or station. For example, recalling and updating an incident in CAD;
- 4.5.4 monitor the police radio network and render assistance as the need arises;
- 4.5.5 never use entertainment devices or personal telephones whilst at the workstation;

- 4.5.6 only use computers for work associated with PECC activities;
- 4.5.7 never connect memory sticks, external hard drives or other external gadgets to work computers;
- 4.5.8 no food, water, or beverage should be stored or consumed at the workstations;
- 4.5.9 never leave your post after logging in, without the expressed permission of the supervisor;
- 4.5.10 never share login information without permission from the Monitor/Supervisor.

5.0 Standard Operating Procedures

The effective delivery of good customer service commences with having the right persons in the right positions carrying out carefully crafted functions using suitable communication systems.

5.1 Break and Lunchtime Schedule

A formal scheduling system for breaks and lunchtime at the Police Emergency Communication Centre (PECC) will be established to ensure optimal operational efficiency and maintain our commitment to high service levels, the following guidelines must be strictly adhered to:

5.2 Scheduled Break Times:

All staff members are required to strictly adhere to the scheduled break times assigned to their respective shifts. These schedules are carefully designed to minimize disruptions to our operational capabilities.

5.3 Prompt Return from Breaks:

Individual staff members **MUST** return promptly from breaks and resume their duties at the scheduled time to avoid any delays in our operational processes.

5.4 Communication of Changes:

Any changes to break schedules **MUST** be communicated in advance and approved by the Monitor/Team Leader/Supervisor to prevent disruptions to operational efficiency.

5.5 Monitoring and Enforcement:

Monitor/Team Leaders/Supervisors are responsible for monitoring and enforcing adherence to break schedules within their respective teams.

5.6 Flexibility and Coordination:

While breaks are essential, flexibility is crucial. Staff members are encouraged to coordinate with their colleagues to ensure uninterrupted coverage during break times.

5.7 Use and Care of Headsets

5.7.1 Handling of Headsets

- 5.7.1.1 Handle headsets with care to avoid unnecessary strain or damage to the components.
- 5.7.1.2 When not in use, place headsets in the designated storage area (Assigned Locker) to prevent loss or damage. Headsets MUST never leave PECC without the authorization of the Commander and or his Deputy for PECC.
- 5.7.1.3 Avoid dropping or mishandling the headsets, as this may lead to malfunction or breakage.
- 5.7.1.4 Intentionally damaged or destroyed headset following investigations will be replaced at the cost of the affected staff member.
- 5.7.2 **Usage**
 - 5.7.2.1 Use headsets only for their intended purpose, which is communication during emergency operations.
 - 5.7.2.2 Adjust the headset to fit comfortably over the ears and ensure clear audio reception and transmission.
 - 5.7.2.3 Refrain from sharing headsets with other staff members to maintain hygiene standards and prevent the spread of germs.
- 5.7.3 **Cleaning**
 - 5.7.3.1 Regularly clean the headset components, including ear cushions, microphone, and headband, using a mild disinfectant solution and a soft cloth.
 - 5.7.3.2 Avoid using harsh chemicals or abrasive materials that may damage the headset's surface or internal components.
 - 5.7.3.3 Allow the headset to air dry thoroughly before storing it back in the designated area.
- 5.7.4 **Maintenance**
 - 5.7.4.1 Report any issues or malfunctions with the headset promptly to the Shift Monitor/Manager/Supervisor or designated personnel for assessment and repair.
 - 5.7.4.2 Avoid attempting to repair or modify the headset independently, as this may void warranty or cause further damage.
 - 5.7.4.3 Follow any additional maintenance instructions provided by the manufacturer for specific headset models.
- 5.7.5 **Record Keeping**
 - 5.7.5.1 The General Office and Team Leader/Shift Monitor/Manager/Supervisor shall maintain a record of headset issuance to staff members, including serial numbers and dates of issuance.
 - 5.7.5.2 Document any incidents of damage, loss, or malfunction of headsets and record actions taken for repair or replacement.

5.7.6 Training

- 5.7.6.1 PECC Training Department in collaboration with Technology Branch and manufacturer/supplier shall provide training to all staff members on the proper use and care of headsets, emphasizing the importance of adherence to SOP guidelines.
- 5.7.6.2 PECC Training Department in collaboration with Technology Branch and manufacturer/supplier Conduct refresher training sessions periodically to reinforce proper headset usage and maintenance practices.

5.8 Review and Revision

- 5.8.1 Periodically review and update this SOP as needed to reflect changes in equipment, technology, or best practices.
- 5.8.2 The Administrative Office and Quality Assurance Unit shall solicit feedback from staff members regarding the effectiveness of the SOP and incorporate suggestions for improvement as appropriate.

5.9 Use of Cellular Phones and Other Electronic Devices in PECC Operation Rooms

This applies to all staff and visitors within the Operation Rooms at the PECC:

- 5.9.1 Personal cellular phones and other electronic devices must be turned off or set to silent and stored away in the assigned locker area during working hours and within the Operation Rooms.
- 5.9.2 The use of personal cellular phones and other electronic devices within the Operation Rooms at PECC is strictly prohibited, this includes making or receiving calls, recording audio or video, and taking photographs.
- 5.9.3 they can be used during the assigned break period in non-operational areas of PECC.
- 5.9.4 Making or receiving personal calls is prohibited.
- 5.9.5 Recording audio or video is not allowed.
- 5.9.6 Taking photographs is strictly prohibited.
- 5.9.7 Personal cellular phones may only be used during designated break times in specified areas or in case of personal emergencies, with supervisor approval.

5.10 Exceptions for Technicians

This applies to technicians/contractors performing maintenance work:

- 5.10.1 Exceptions are made for the use of personal cellular phones for work-related communication only;
- 5.10.2 Technicians may make or receive calls related to their maintenance tasks;
- 5.10.3 Technicians may record audio or video for documentation purposes, as required for maintenance work;
- 5.10.4 Technicians may take photographs for documentation purposes, as required for maintenance work;
- 5.10.5 Technicians must obtain prior approval from the Monitor before using personal cellular phones in the Operations Room;

- 5.10.6 Technicians should limit phone use to essential maintenance tasks and avoid any personal use.

5.11 Enforcement

Monitor/Supervisors are responsible for monitoring compliance with this SOP.

- 5.11.1 Any violations should be reported immediately to the supervisor.
- 5.11.2 Non-compliance may result in disciplinary action as per the sworn and unsworn staff disciplinary policy, including reprimands or further consequences as deemed necessary.
- 5.11.3 Where the breach is committed by a Monitor/Supervisor the Operations and or Administrative Officer will take the appropriate action.

NB. Any breach of procedures constitutes a breach of standards and a breach of discipline and will be treated in accordance with the disciplinary procedures of the member's disciplinary code. (The Police Service Regulation in the cases of the regular police officers, the Constables District Act in the cases of the District Constables and The Public Service Staff Orders in the cases of the civilian staff).

5.12 Treating with Customer's Complaints

As PECC seeks to deliver quality service, great interest is placed on customer complaints as well as their feedback. Consequently, PECC has established a system to effectively manage customers' complaints.

- 5.12.1 All complaints/reports about customer service coming into the Centre must be forwarded to the Supervisor.
- 5.12.2 Supervisor shall appreciate the report/complaint and interview the customer
- 5.12.3 Determine whether the matter should be escalated to the Monitor, or it could be treated by the supervisor.
- 5.12.4 In any case the report/complaint must be recorded in the Citizens' Complaint Register.
- 5.12.5 Monitor will cause an investigation into the matter.
- 5.12.6 If the complaint is about a supervisor, then, the monitor should treat with it.
- 5.12.7 If the complaint is in respect to a member external to PECC.
a report will be forwarded to the respective Divisional Commander.
- 5.12.8 Depending on the nature and immediacy of the report/complaint verbal communication will precede the written report.
- 5.12.9 In the event the complainant is identified he/she will be kept informed by PECC until he/she is connected with the representative in the Division or the matter is resolved.

5.13 When the complaint/report concerns service at the PECC or members of the PECC staff the Monitor will:

- 5.13.1 Depending on the nature and immediacy of the report/complaint either treat the matter and report or refer to the Administrative Officer for treatment.

- 5.13.2 All complaints must be reported to the Administrative Officer within 24 hours.
- 5.13.3 Depending on the nature of the Report the Administrative Officer will cause further investigations to be conducted or refer the matter to IPROB for treatment.
- 5.13.4 All complaints/reports received during each shift should be captured on the End of Shift Report.
- 5.13.5 In the event the complainant is identified he/she will be kept updated by PECC until the matter is resolved or he/she is connected with the representative at IPROB.

All complaints/reports will be evaluated and reviewed to prevent recurrences.

6.0 Working Instructions

6.1.1 Natural Disasters Operations Procedures

This SOP seeks to establish guidelines for PECC Staff in the event of and responding to emergencies and disasters. It applies to all staff at PECC which shall be conducted in accordance with:

- i. Jamaica Constabulary Force (JCF) Force Orders directives
- ii. Disaster Risk Management Act (2015)
- iii. The Office of Disaster Preparedness and Emergency Management Act (1993)
- iv. The Fire Brigade Act (1988)
- v. The Public Health Act (1974)
- vi. The National Solid Waste Management Act (2001)
- vii. The Town and Country Planning Act (1958)
- viii. The Building Act (2018) etc.

6.1.2 Activation of Protocols

- i. **Immediate Action:** Activate Emergency and Disaster Protocols upon receipt of an alert, as outlined by JCF Force Orders directives and supporting legislations mentioned above.
- ii. **Initial Notification:** Inform all relevant personnel and agencies as specified in the protocols.

6.1.3 Monitoring and Coordination

- i. **Monitor Activation:** The designated Monitor will initiate contact with all station/unit; field operatives.
- ii. **Documentation:** Obtain status updates and record information in the CAD system or manually if applicable.

6.1.4 Communication

- i. **Continuous Updates:** Maintain communication with all stations and units to receive real-time updates.

- ii. **Information Dissemination:** Relay critical information to relevant authorities and emergency response teams.

6.1.5 Reporting

- i. **Situation Reports:** Monitor shall compile a situation report based on updates received.
- ii. **Submit Reports:** Monitor shall forward the situation report to Commanding Officer, Deputy and relevant authorities as per JCF and PECC protocols.

6.1.6 Follow-Up

- i. **Ongoing Assessment:** Continuously assess the situation and adjust response strategies as needed.
- ii. **Final Report:** Prepare a final report summarizing response efforts and outcomes once the situation is resolved in the End of Shift Report.

6.1.7 Systems/Equipment used by PECC

As a communication centre dealing with emergency responses, the PECC relies heavily on technology. The PECC staff must be able to manage the extensive cutting-edge technology and therefore initial and continuous training is critical.

The following are technological equipment and systems which enable the efficient and effective functioning of the PECC communication process

- i. *Power supply* - Power supply is relied on from the national power grid supplied by the Jamaica Public Service. Standby Generators are used as back-up systems to ensure continuity of electrical power
- ii. *Telephone network* – The PECC relies on the telephone networks in Jamaica and the microwave network used by the JCF to facilitate communication
- iii. *Radio network* – The PECC utilizes base radios and hand-held radios to communicate with all police formations across the island
- iv. *Computers* – A mix of desktops, laptops and tablets are used to log and generate information
- v. *Internet* – The internet allow for ease of communication whether by email or other social media platforms
- vi. *Computer- Aided Despatch system (CAD)* – is a computer based system used by the dispatchers, call- takers, and other 119 operators to prioritize and record calls for service; reports of incidents; vehicle number, and personnel on patrol. It enables the PECC Operators to identify the status and location of patrol vehicles on duty and facilitate efficient and effective dispatch of responders to incidents
- vii. Other support systems include systems hosted by other agencies but which supports the work of PECC. These include the *Crime Intelligence Management System (CIMS)*, *Traffic Ticketing Management Systems (TTMS)*; *Amber Connect*

6.1.8 Contingency Plan For Systems/Equipment Failure

The impact of technology on work, in communication, has exponentially increased the rate and speed at which the JCF can respond to its citizens and offer quality service. Every effort shall be made to ensure the systems are operating optimally. However, where any of the systems fail, the PECC staff shall respond expeditiously and appropriately to remedy the problem. The contingency plan for systems/equipment failure - **Appendix 5**.

6.1.9 System for Communicating Services of PECC

Communication is the main function of PECC and as such a system has been established to communicate the services of PECC to our stakeholders. This is multidimensional and is designed to reach various audiences.

- i. **Proactive Messages**; sent across the radio network, at least once weekly specifically for the internal audience (Police Officers).
- ii. **Meetings and Lectures**; to target specific groups such as Police, social, religious, or corporate groups.
- iii. **Traditional media**; Used to target the public.
- iv. **Social Media**; done through CCU to share information concerning PECC.
- v. Feedback is received through these mediums. However, there is a formal method of customer feedback conducted by PRDB once per year in the form of a survey. **Appendix 4** Figure 1. shows an example of the PECC Communication Record at PECC.

6.1.10 Assignment of Wrecker Services

PECC is dedicated to maintaining the highest standards of integrity, transparency, and professionalism in its operations. This policy outlines the procedures for the assignment of wrecker services to police officers, ensuring that the allocation process is fair, ethical, and accountable, while also addressing breaches of protocol, unauthorized use, and unauthorized assignments.

As PECC aims to prevent corruption, unethical practices, and misuse of wrecker services by establishing a robust framework for their assignment. It ensures that the process is transparent, fair, and aligned with Force Orders while also providing a mechanism to address breaches of protocol.

6.1.11 Procedure for Wrecker Service Assignment

- i. **Request Submission**: Police officers (Operatives) requiring wrecker services must submit a formal request providing comprehensive details of the incident, including the location, vehicle details, and reasons for the towing request as per Force Orders directives.
- ii. **Shift Supervisor Review**: The designated Monitor reviews the request and its supporting documentation to ensure compliance with established guidelines, policies, and Force Orders.

- iii. **Wrecker Assignment:** Upon approval, the Monitor assigns the wrecker service provider based on the established rotational schedule.
- iv. **Direct Communication:** The Monitor is responsible for directly communicating with the assigned wrecker service provider, providing accurate incident information and clear towing instructions and logging the information in the wrecker book.

6.1.12 Breach of Protocol and Unauthorized Use

- i. **Identification of Breach:** Any breach of protocol, unauthorized use of a wrecker, or unauthorized assignment of a wrecker by a supervisor or staff without proper authorization will be immediately identified.
- ii. **Reporting:** The staff member identifying the breach promptly reports it to Monitor or their immediate supervisor.
- iii. **Investigation:** An immediate investigation is initiated to determine the extent of the breach and identify the individuals responsible.
- iv. **Accountability:** Individuals found responsible for breaches will face appropriate disciplinary action as per the sworn and unsworn staff disciplinary process and or other corrective measures, depending on the severity of the breach.

6.1.13 Monitor/Supervisor Accountability

- i. **Responsibility:** The Monitor holds the responsibility to ensure that wrecker service assignments adhere to the policy guidelines and Force Orders.
- ii. **Review and Approval:** The Monitor reviews and approves wrecker service requests based on provided documentation, ensuring transparency, accountability, and alignment with Force Orders.
- iii. **Record Keeping:** The Monitor is tasked with maintaining accurate and up-to-date records of wrecker assignments, associated documentation, and communication with service providers.

6.1.14 Rotation of Wrecker Service

Objective: To ensure fairness and equal distribution of assignments, the policy mandates the rotation of wrecker service providers based on an established schedule or the situation (special nature - heady duty required).

6.1.15 Accountability of Monitor

- i. **Monitoring and Oversight:** The designated administrators conduct periodic reviews to ensure shift Monitors' adherence to the policy and their accountability for the proper execution of wrecker service assignments.
- ii. **Performance Evaluation:** Monitors' adherence to the policy and their handling of wrecker assignments are considered during their performance evaluations.

6.1.16 Assignment of Funeral Homes

To provide a clear and concise process for assigning funeral home services to calls received by PECC shall be done in accordance with JCF Force Orders and

other policy directives. This SOP applies to all personnel at PECC staff responsible for handling calls requiring funeral home services.

6.1.17 Call for Service

- i. **Assess Need:** Determine the requirement for funeral home services based on caller information.
- ii. **Gather Information:** Collect necessary details, including location, circumstances of death, and contact information to be logged in CAD.

6.1.18 Assignment of Funeral Home

- i. **Consult Force Orders:** Refer to the JCF Force Orders treating with the designated funeral home.
- ii. **Contact Funeral Home:** contact the relevant funeral home consistent with JCF procedures.

6.1.19 Documentation

Log Details: Record call and assignment details in CAD

6.1.20 Follow-Up

Verify Service: Confirm completion of services with the funeral home with the assistance of field operatives and update CAD accordingly.
