Title: Jamaica Constabulary Force Standard Operating Procedures for Treating with Corrective Action Reports	Number: JCF/IPROB-QAD/PR/SFs/0002/2023
Effective: 2025-09-30	Pages: 13
Review Date: 2025-08-15	Distribution: IPROB, QAD
Revision #: 5	Process Owner: Inspectorate of Professional Standard Oversight Bureau (IPROB)
Rescinds: 2025-01-13, 2023-07-1, 2022-01-01	
Authors: IPROB-QAD	Owner: JCF
First Published: January 1, 2022	Review: Triennially

1.0 Purpose

This document outlines the steps involved in conducting corrective actions where non-conformities, opportunities for improvement and observations are identified in the Jamaica Constabulary Force.

2.0 Scope

The scope refers to the boundaries and applicability of an organization's quality management system (QMS). It specifies the processes, products, services, and entities in the QMS.

3.0 Definitions

- 3.1. **Non-conformity:** Is an issue of non-fulfillment of a standard, policy, and procedure requirement.
- 3.2. **Correction:** Refers to a short-term action to address or eliminate a detected non-conformity or noncompliance.
- 3.3. **Corrective Action:** Refers to a thorough or systematic approach to eliminate or address the root cause of non-conformity.
- 3.4. **Root Cause Analysis:** Is a problem-solving and analysis technique to find the root cause of non-conformity.
- 3.5. **Corrective Action Request (CAR) Form:** Is a document used to formally request corrective actions for identified nonconformities or issues within a process, product, or system. It captures pertinent information related to the non-conformity.
- 3.6. **Internal Audit Management System (IAMS):** Is a centralized repository designed to record and monitor nonconformities identified during internal or external audits.
- 3.7. **Process Owner:** The individual responsible for an Area, Portfolio, Division, Formation, Unit, or a part thereof of the site under audit.
- 3.8. **Director:** A top-level manager tasked with managing the organization's internal audit programme to ensure successful execution and adherence to audit requirements, standards, and best practices.
- 3.9. **Audit Manager:** A senior manager responsible for planning and executing specific audit projects, and managing audit teams, inter alia, while reporting to the Audit Director.
- 3.10. **Assistant Audit Manager:** Acts as a proxy for the Audit Manager.

- 3.11. **Lead Auditor:** The individual who is responsible for managing an audit and supervising the team assigned to conduct it.
- 3.12. **Review Panel:** An oversight group tasked to provide objective evaluation of rejected or disputed nonconformities identified in audit findings. The panel has the authority to approve, reject, withdraw, or downgrade the status of the non-conformity.

4.0 Responsibility

- 4.1 The Audit Manager of the internal audit programme, or his/her designee, is responsible for:
 - a. Preparing Corrective Action Requests (CARs) based on findings from the internal audit.
 - b. Ensuring corrective actions are adequately addressed, verified, and monitored.
- 4.2 The Assistant Audit Manager or designate is responsible for the reviewing of CARs including the dates for implementation of corrections and corrective actions.
- 4.3 A Process Owner is responsible for:
 - a. Issuing corrective action for any process trends or process non-conformities.
 - b. Ensuring the effective implementation corrections, proper root cause analysis and implementation of corrective actions.
- 4.4 The responsibility of the Review Panel (RP) is to review the non-conformities (Major or Minor) that have been challenged/rejected by the Process Owner.

5.0 Procedure for Corrective Actions

- 5.1. **Corrective Action Requests may be identified from the following:**
 - i. **Audit Findings:** Results from both internal and external audits.
 - ii. **Trends in Service Nonconformities:** Analyzing patterns related to service failures or discrepancies.
 - iii. **Process Nonconformities:** Identifying issues or deviations within business processes.
 - iv. **Customer Complaints:** Feedback and concerns raised by customers.
 - v. **Management Review Action Items:** Points for action that arise from management review discussions.

vi. **Employee Improvement Suggestions:** Recommendations for enhancements put forth by employees.

- 5.2 If non-conformity is identified, a *JCF Corrective Action Request* (see **appendix 1**) form should be written up within three (3) weeks of receiving the Audit Manager's final report. However, changes regarding the status of non-conformity can be made after the official audit report is released.
- 5.3 For Major NCs, the Director should notify the IG and Portfolio Heads, ensuring that this is presented and discussed at the Quarterly Performance Review
- 5.4 The Assistant Audit Manager or designate should forward the CAR form to the respective Commanding Officers or Process Owners.
- 5.5 The Commanding Officer/Process Owner has thirty (30) days to complete the root cause analysis and corrective action plan on the CAR form and submit it to the internal audit unit
- 5.6 The Commanding Officer should assemble a team of knowledgeable persons to conduct a root cause analysis of the stated non-conformity and ensure the correct methodologies and due diligence are applied to identify the real root cause of the non-conformity.
- 5.7 If there are challenges, the Commanding Officer or Process Owner can seek clarification and additional support from the Internal Audit Managers to ensure the root cause analysis is accurate and that the Commanding Officer/Process Owner fully understands their responsibilities.
- 5.8 Once deemed appropriate, the Commanding Officer/Process Owner will implement the necessary corrections and corrective actions.
- 5.9 The Audit Manager or Assistant Audit Manager shall designate team(s) to perform verification activities to confirm that the corrections or corrective actions have been properly implemented and are appropriately documented.
 - a. The findings/relevant information from the verification exercise must be entered into the IAMS.
- 5.10 The Audit Manager/Assistant Audit Manager should issue a *JCF Corrective Action Verification Form* (see **appendix 2**) to the team designated to conduct the audit verification of corrections/corrective actions.
- 5.11 The audit team verifies and ensures:
 - a. Effective implementation of the correction and corrective action and the elimination of the issue originally reported.
 - b. Updates and/or complete the Corrective action Verification form and submit them to

the internal audit unit.

- c. The corrective action is considered effectively implemented when the non-conformity is resolved, with the Process Owner providing supporting evidence.
- d. A CAR is closed after verifying all NC issues and documenting the final actions.

5.12 If corrective actions are not implemented, it will be escalated to the Portfolio/Area Officer. If necessary, a minor non-conformity may be elevated to a major non-conformity and reported to the Inspector General (IG).

6.0. Review Panel

6.1. The Review Panel (RP) conducts review of the non-conformities (Major or Minor) that have been challenged/rejected by the Process Owner.

6.1.1. **Composition of the Review Panel:** The Review Panel shall consist of two (2) Lead Auditors, the Audit Manager or their representative, and a Secretary who is not a panel member.

6.1.2. **Deliberation and Decision-Making:** The panel will discuss issues related to the non-conformities and arrive at a conclusive decision. The determination made by the Review Panel shall be considered final. The outcome of the process will be communicated to the Process Owner at the end of the meeting or via other official communication.
