1.0. Purpose

JAMAICA CONSTABULARY FORCE
Technology Branch Inventory Maintenance Procedure for Hardware

Ensure the effective maintenance/servicing of the ICT hardware equipment throughout the entire JCF to ensure ICT hardware are operating as they should and that If physical cleaning needs to be done, it is done at intervals.

2.0. Scope

All ICT equipment maintained are those which have been inventorized. Any ICT equipment not inventorized are not maintained and are not in use by the staff at the JCF.

3.0. Definitions

BOS	Board of Survey (A system/device that is irreparable, is placed on the BOS list. It is first assessed, recorded and then removed to be disposed of accordingly).
OIC	Officer In Charge.
RESEATING	Placing the device (memory module) properly in the slot Provided.
CO	Commanding Officer

4.0. Acronyms and Abbreviations

MTL	Maintenance Team Lead
MT	Maintenance Team
DS	Designate
TDS	Technical Department Supervisor
DICTD	Director, Information & Communication Technology Division
OIC ICTD	Officer in Charge of Information & Communication Technology Division

5.0. Description of Activities [Procedures]

JAMAICA CONSTABULARY FORCE

Technology Branch Inventory Maintenance Procedure for Hardware

- | | | |
|------|----------|--|
| 5.1. | TDS | Develop Maintenance Schedule based on; a) Calls received directly requesting assistance, b) Walk-in internal customers making a request c) Requests coming in via the Helpdesk. (NB. Calls & Walk-in requests are routed to the Helpdesk for a ticket to be generated.) Submit draft schedule to the OIC ICTD for review & approval. |
| 5.2. | OIC ICTD | Review Maintenance Schedule submitted. If discrepancies are identified, same is returned to the TDS for editing. If no discrepancies are identified, same is approved. |
| 5.3. | TDS | Compile a list of the team members that will be executing the maintenance check and submit same to the OIC ICTD for their review & approval. |
| 5.4. | OIC ICTD | Review list submitted. If any concerns are identified with the list, same is returned to the TDS for their editing. If no concerns are identified, then the list is approved. |
| 5.5. | TDS | Contact the administrative office and provide the administrative staff with the maintenance schedule to communicate to the OIC for the division where the maintenance will be carried out. |
| | | |
| 5.6. | TDS | Conduct team meeting and decide on the TL for the assignment as well as, determine the order in which the maintenance activities will be executed. |
| 5.7. | TDS | Dispatch the team to the location accompanied with the requisite maintenance equipment/gears needed to carry out the maintenance exercise. (NB. Accommodation is factored into the assignment based on location & duration of the maintenance activity.) |
| 5.8. | MTL | Contact the point person and advise them of the team's |

scheduled arrival. (NB. The point person may request that the team initiate their maintenance activities differently from what was pre-planned)

- 5.9. MT Conduct a brief discussion with the end user to ascertain any additional issues they may be having with their system in order to address same.
- 5.10. MT Check the ICT hardware for defects and conduct troubleshooting activities where necessary to determine if same is functional. If ICT hardware needs repair or upgrading, same is done. Any system that cannot be repaired is added to the BOS list and a notation made of same. In the event that the hardware in need of repair is a printer, the services of a third party is enlisted to address this issue.
- 5.11. MT Disassemble the hardware component and conduct a deep cleaning of the system after which same is reassembled. **(NB. Ensure that memory modules are reseated properly).**
- 5.12. MT Conduct a quality check to ensure that everything is properly reassembled and working well before closing the unit. If discrepancies are detected, then the appropriate steps are taken to rectify same.
- 5.13. MT Check and determine if the system needs any updates (Antivirus, programs etc.). If there is a need for this, then same is conducted.
- 5.14. MTL Reassemble the MT to review the checklist and ensure that all areas have been covered on the schedule.
- 5.15. MTL Submit preliminary reports to both the CO &/or his designate of the division where the activity was done as well as the CO for ICTD outlining the findings of the maintenance activities.
- 5.16. MT&MTL Conduct a debriefing session then exit site.
- 5.17. TDS/DS Collect the finding & preliminary report from team
