

JAMAICA CONSTABULARY FORCE

Technology Branch Network Procedure

Title: JCF Technology Branch Network Maintenance Procedure	Identification Code: JCF/TECB/PR/SSs/0004/2022
Effective Date: 2024-Oct-10	Pages: 4
Last Reviewed: 2024-Oct-07	Distribution: Technology Branch
Revision version #1	Process Owners: Assistant Commissioner of Police Technology Branch
Rescinds: 2022-Feb-15	
Authors: Technology Branch	Owners: JCF
Publication: 2022-Feb-15	Review: Biennially

1.0 Purpose

To outline standardize processes in treating with the island wide network infrastructure of the Jamaica Constabulary Force (JCF), and the maintenance of these thereafter. The intention is to ensure that the devices are always kept functional and that network services remain uninterrupted at least 98% of the time.

2.0 Scope

This procedure includes all activities involved in the initializing and maintenance of network devices as well as services offered by the devices and is applicable to all devices and equipment to include switches, routers, firewalls, cabinet, LAN and WAN cables. The Technology Branch provides oversight of the entire network within the Jamaica Constabulary Force and assesses and oversees the activities of the Information and Communications Technology Division that carries out the day-to-day activities.

3.0 Definitions

ICTD	Information and Communications Technology Division
TB	Technology Branch
LAN	Local Area Network
WAN	Wide Area Network
UTP	Unshielded Twisted Pair
STP	Shielded Twisted pair
SOP	Standard operating procedure
ACPTB	Assistance Commissioner of Police
SNMP	Simple network management protocol
PRTG	Paessler Router Traffic Grapher.

4.0 Responsibility

CTO	Chief Technology Officer
NWIS	Network Implementation Supervisor

5.0 Description of Activities [Procedures]

Treating with Request for New Equipment and Services

5.01	NWIS	Conduct site assessment to identify networking requirements of the new location.
-------------	-------------	--

- | | | |
|------|------|---|
| 5.02 | NWIS | Carryout network design base on new location requirements. |
| 5.03 | NWIS | Extract procurement list and work breakdown structure from network design of new location. |
| 5.04 | NWIS | Submit procurement list to procurement unit. Monitor and track until purchase order has been received. |
| 5.05 | NWIS | Deliver purchase order to vendor. Receive procured network equipment. Stage and test equipment in a controlled environment. |
| 5.06 | NWIS | Deploy equipment to the new location and conduct test within the new environment. |
| 5.07 | NWIS | Backup the configured network equipment and store in a secure location. |

Monitoring Activities

- | | | |
|------|------|---|
| 5.08 | NWIS | Check network monitoring tool at the start of each workday and at hourly intervals. Record all anomalies. |
| 5.09 | NWIS | If anomalies are found, they must be remedies within 48 hours. |

CHANGE MANAGEMENT ACTIVITIES

- | | | |
|------|------|--|
| 5.10 | NWIS | Conduct simulation of all intended changes to the network in a test environment prior to implementation. |
|------|------|--|

NETWORK CABLE and CONFIGURATION

- | | | |
|------|------|--|
| 5.11 | NWIS | Ensure network cable is a Cat 5e or higher. |
| 5.12 | NWIS | Installation of cable must be done in coordination with TB engineer team and/or any stakeholder assigned ACPTB . |
| 5.13 | NWIS | Ensure cable (UTP, STP, COAXIAL, FIBER) length are conforming with required standards by the manufacturer and authorized governing body. |
| 5.14 | NWIS | Ensure that fibre cable forms part of the physical connection. |

- | | | |
|-------------|-------------|--|
| 5.15 | NWIS | Ensure that all cables are labelled and a physical diagram exists. |
| 5.16 | NWIS | Place all wiring in closet mounted on rack within a cabinet. |
| 5.17 | NWIS | Ensure racks and cabinets are secured and labelled. |
| 5.18 | NWIS | Ensure all sites relate to MPLS, Microwave, or point to point connectivity. |
| 5.19 | NWIS | Perform backup whenever there is a change to network configuration outside of scheduled periodic backup. |
| 5.20 | NWIS | Ensure backup is accessible to authorized persons in case of device failure. |
| 5.21 | NWIS | Update Network diagram whenever there is a change to the network configuration. |
