APPENDIX 'B' (CONT'D) TO FORCE ORDERS NO. 3910 DATED 2022-05-12

STANDARD OPERATING PROCEDURE FOR JCF DVICARE CENTERS

- ☐ The DVICARE centers are the direct responsibility of Divisional Commanders. The Divisional Community Safety and Security Branch will oversee its daily operations and report to the Commanding officer and Community Safety and Security Branch (CSSB).
- ☐ The Domestic Violence Intervention centers will operate from 8 am to 7 pm, Mondays to Saturdays. Where there is a high volume of cases they may operate on a shift basis. **It is to be noted that at no time during operating hours should the centers be closed.**
- ☐ Each center is staffed with at least 1 sub-officer by 2 other ranks, whose core function is to deal with all matters of domestic violence that are referred to the center.
- ☐ The services of the center can be accessed two ways; walk-ins and referrals from the police stations.
- ☐ The confidential form must be signed by the center manager, counsellor and client to maintain confidentiality of information gathered.
- ☐ In every instance where a matter is reported to the station or at the centre a domestic violence referral form must be completed in duplicate by the first responder irrespective of whether or not criminal charges will be laid. The original should be kept in division or station and other copies to DVICARE center.
- ☐ On receipt of the referral form, the centre manager must contact the victim and schedule an appointment either for an interview or counselling. Each reported case must have a case file with a number assigned to it for reference and should include the name of counsellor assigned to the case.
- ☐ Contact should also be made with the Abuser; however, both should never be interviewed together.

The Domestic Violence Act (1996) notes that domestic violence and abuse must be treated as a serious crime through the courts, and as a social intervention issue which require counseling and sometimes mediation (family violence).

The resolution of domestic violence therefore relies not only on the law, but also on interventions that can help break the cycle of violence.

The JCF Domestic Violence ICARE Centres provide the needed mediation and counseling through trained and certified volunteer Counselors and Chaplains, and is done in a confidential setting.

As suggested by its tagline — **ICARE** — the purpose and mission of the Centres is **Intervention, Counseling, Awareness, Response and Empathy.**

They are located in the Parishes of Kingston & St. Andrew, St. Thomas, St. Catherine, Clarendon, St. Elizabeth, Westmoreland, St. Ann and St. Mary.

NEED FOR THE DV ICARE CENTRES

The prevalence of Domestic Violence (DV) in Jamaica is strongly rooted in a culture that maintains men's ownership of/ or superiority over women. The Jamaica Constabulary Force (JCF) remains committed to sustained responses to reports of DV, and to the eventual elimination of this social problem.

As part of that thrust, The JCF in collaboration with the US Embassy, Kingston and UNDP under the Spotlight Initiative established 10 Domestic Violence Intervention Centres across the island.

These centres offer the atmosphere where persons can speak frankly and in confidence with trained counsellors and access the care and guidance with the requisite follow ups and referrals.

Interventions are done in partnership with other stakeholders such as the Bureau of Gender-Affairs, Victim Support, Restorative Justice Centers, the Courts, other counseling centers, Women Inc.

WHAT IS DOMESTIC VIOLENCE?

Domestic violence consists of behaviours through which the perpetrator-intimate partners, spouses, dates, ex-spouse seek to exercise power and control over their partners through the use of physical violence and/ or verbal abuse, emotional abuse, threats, intimidation, stalking and harassment. Domestic violence also includes family violence and child abuse. Children and the elderly are especially vulnerable to domestic violence and abuse. **Domestic Violence is not gender biased.**

TYPES OF ABUSE

PSYCHOLOGICAL/MENTAL/EMOTIONAL ABUSE:

Abuse which deliberately destroys your self confidence, making you feel useless, stupid or crazy. It can be described as a type of brainwashing where you believe that everything that goes wrong is your fault.

VERBAL ABUSE:

Constantly putting you down, calling you names, making you feel worthless, or making comments about your competence. This can also include threats of physical abuse.

FINANCIAL ABUSE:

When you are not allowed to have a say in financial decisions, being refused money for family needs, or being made to get into debt for the other person.

SEXUAL ABUSE:

Being forced to have unwanted sexual contact or being drugged to have unwanted sexual contact.

PHYSICAL VIOLENCE:

Physical assault can take many forms from pushing, poking, biting, burning, slapping, hair pulling, strangulation, using a weapon, smashing things or hurting children or pets.

THE CYCLE OF DOMESTIC VIOLENCE

TENSION BUILDING PHASE

When tension builds in the relationship, victims may feel like they are 'walking on eggshells' around the abuser.

ABUSIVE INCIDENT

The abusive incident usually occurs when the tension finally breaks. This can play out in many different ways. Usually, this part of the cycle is when the abuser physically lashes out at the victim.

HONEYMOON PHASE

During the honeymoon phase, the abuser may apologize, buy gifts, or be extra affectionate to 'make up' for the abuse. Many will promise to change, or promise that it will never happen again.

1.0 Introduction

The Jamaica Constabulary Force (JCF) Driving and Maintenance Courses provide for the requisite training, assessment and authorization for members to operate service vehicles in the designated class and type. These courses support the Force's efforts to effectively manage crime, public order and public safety in keeping with its mandate.

Aside from the requirements to operate in ways that promote professionalism and public confidence, members have a duty to operate service vehicles within the confines of the Road Traffic Act and related legislations. Additionally, there is the constant need to exercise a duty of care for all road users and passengers, as well as the need to safeguard vehicles and related assets. The JCF driver-training is therefore designed to build knowledge, competence and confidence in each participant. One such course is the Qualifying Driving and Maintenance Course.

The Qualifying Driving and Maintenance Course is comprised of four components, three of which are conducted under instruction at the Department of Driver Training. These components are the Assessment, Theory and Practical Driving. The fourth component, Driving under Supervision, is done on-the-job and is managed by the respective members' Commanding Officer. This supervised on-the-job probationary period is envisaged to further hone the member's capability and confidence as a safe and competent driver, enhance knowledge of the geographic outlay of the respective division/locale, and ultimately reduce the potential for accidents and other incidents.

This Policy and Standard Operating Procedures (SOP) seeks to build in and standardize the operationalization of the probationary component of the Qualifying Driving and Maintenance Course. The probationary period will commence at the end of the practical training component and conducted within the Formation the member is assigned.

2.0 Purpose

The purpose of this Policy and SOP is to provide standardized guidelines for the management of the probationary driving component of the JCF's Qualifying Driving and Maintenance Course.

3.0 Scope

This policy and SOP shall apply to all members of the JCF and its auxiliary and concerns the probationary period of the Qualifying, Driving and Maintenance Course. It does not apply to the following:

- i. Upgrading Driving and Maintenance Course
- ii. Remedial Driving and Maintenance Course

It should be read in conjunction with the Department of Driver Training Manual which sets out the Assessment, Theoretical and Practical Driver Training components.

**APPENDIX 'E' MEDICAL SERVICES ARTICLE- NEW STRAINS CAUSE GLOBAL
CONCERN
TO FORCE ORDERS NO. 3910 DATED 2022-05-12**

New Strains Cause Global Concern

COVID is not over

There has been a resurgence in COVID-19 cases around the world, including Jamaica. COVID-19 is caused by the SARS-CoV-2 virus which has undergone various mutations since the start of the pandemic. The newest Variants of Concern are all subtypes of the Omicron strain. These sub variants are very closely related to the Omicron strain but have minor differences developed over time. These minor differences (or mutations) have allowed the virus to pass more easily from person to person, but symptoms are generally reported to be milder.

The current strains of concern include Omicron BA.4, BA.5, BA1.1, BA.2 and BA.3. The newest variant causing an uptick in cases around the world is BA.2.12.1. This is quickly becoming the dominant strain in The United States, and scientists are still working to find out more.

What do we know?

It is more transmissible than the previously mentioned Omicron strain and far more transmissible than the very first strain of COVID-19.

Symptoms of COVID-19/Omicron

- Runny nose (very common with Omicron strain and sub variants)
- Fatigue
- Sore throat
- Sneezing
- Headache
- Fever

APPENDIX 'E' (CONT'D) TO FORCE ORDERS NO. 3910 DATED 2022-05-12

- Cough
- Shortness of breath
- Dizziness (less common with Omicron)
- Brain fog, i.e. lack of focus, impaired memory (less common with Omicron)

How do I protect myself from COVID?

General principles from protecting one's self from COVID remain the same:

1. Get vaccinated and keep up to date with your booster shots
2. Wear a mask in crowded spaces
3. Wash hands and clean surfaces regularly
4. Practise social distancing
