It has been brought to the attention of the High Command that members are not adhering to the Jamaica Constabulary Force Management of Body-worn Cameras Policy and Standard Operating Procedures. As far as is practicable, members equipped with Body Worn Cameras shall activate the device in order to record all interactions with the public for the proper performance of their official duties and where it is consistent with this policy and the law.

The member shall hand over the Body Worn Camera to the Body Worn Camera Administrator, sign the Body Worn Camera Register; and make a formal report to the Body Worn Camera Administrator on:-

APPENDIX 'A' TO FORCE ORDERS NO. 3908 DATED 2022-04-28

1.0 INTRODUCTION

The Jamaica Constabulary Force (JCF) continues to evaluate its Human Rights and Police Use of Force and Firearms Policy with the aim of incorporating emerging techniques and technologies to enhance officer and public safety. Accordingly, the organization has placed increased emphasis on putting into greater use less lethal options geared toward the management of on-going and/or emerging public order situations and breaches of the peace.

One such effort is to adopt Electronic Control Weapons (ECWs) as a tool to more effectively manage public order situations and breaches of the peace. Electronic Control Weapons offer members of the JCF options to use force that is objectively reasonable to effectively bring an incident under control, while protecting the safety of the public, subject, member and others.

2.0 PURPOSE

This document outlines the JCF's policy and standard operating procedures for the acquisition, management and disposal of ECWs.

3.0 SCOPE

This policy and standard operating procedures applies to all sworn and unsworn members (including contractors), and covers the acquisition, deployment, use, maintenance and disposal of ECWs in the JCF.

4.0 ABBREVIATION AND ACRONYMS

ECW - Electronic Control Weapons

PECC - Police Emergency Control Centre

IPOB - Inspectorate of Professional Standards and Oversight Bureau

5.0 DEFINITIONS

Active Resistance - The use of non-assaultive physical measures including flight by unarmed subjects in order to resist and/or prevent a member from gaining control

Electronic Control Weapons Policy and Standard Operating Procedures

Page 3 of 13

Arc – Pulling the ECW's trigger in order to activate the weapon without discharging the probes. This may be done as a warning to the subject or to test the ECW prior to deployment (sometimes referred to as a spark test).

Cartridge - A replaceable vessel that generally contains compressed gas, probes, connecting wires, and confetti tags, that fires probes sending a high voltage/low current signal into a subject upon impact.

Competent Member - Any member of the JCF who has received the prescribed training, certification and/or biennial recertification, and is authorized to carry and use ECW

Cycle - The period during which electrical impulses are emitted from the ECW following activation. In most models, a standard cycle is 5 seconds for each activation. The duration of a cycle may be shortened by turning the ECW off but may be extended in certain models by the continuing pulling of the trigger

Electronic Control Weapon (ECW) - A device that uses electricity to impair voluntary muscular responses or to cause discomfort in order to gain compliance; overcome resistance; or capture, control, and facilitate constraint

Elevated Risk Population - Individuals who are potentially at greater risk of injury or death following exposure to an ECW. These include those who reasonably appear or, are known to be elderly, medically infirm, pregnant, users of internal cardiac devices, or who have low body mass, such as small children

Probes - Projectiles with wires contained in an ECW cartridge. When the ECW is discharged, probes are expelled on connecting wires that penetrate the subject's clothing and/or skin, allowing application of the electric impulse.

Passive Resistance - A refusal by an unarmed person not reasonably perceived to be an immediate threat or flight risk to comply with a member's verbal commands or physical control techniques that do not involve the use of physical force, control, or resistance of any kind

Secondary Injury – Any unintended injury sustained by a subject during the application of an ECW. These include but are not limited to: injuries sustained from falling and ignition due to presence of a flammable substance

6.0 ROLES AND RESPONSIBILITIES

The Divisional Commander shall:

- 6.1.1 cause an investigation to be immediately conducted on all occasions where ECWs have been used, damaged, lost, stolen or missing;

The management of ECWs within the JCF shall incorporate best known practices as advanced by, but not limited to: the Constitution of Jamaica, the Universal Declaration of Human Rights, all relevant local laws, the Jamaica Constabulary Force's Human Rights and Police Use of Force and Firearms, Ethics and Integrity and Police Public Interaction Policies and Standard Operating Procedures.

It is the policy of the JCF that:

- 7.1 ECWs shall be used in self-defense or defense of others;
- 7.2 ECWs may be used in cases of Active Resistance where the subject is exhibiting active aggression or is actively resisting in a manner that, in the competent member's judgment, is likely to result in injuries to self or others or is likely to result in the prevention of the lawful apprehension of the subject;

- 7.4 the use of ECWs shall accord with the principle of proportionality; that is, the anticipated injury or harm to be prevented is equal to, or greater than the harm which is likely to be caused by the use of the ECW, and that law enforcement objective cannot be achieved by a lesser degree of force;

- 7.8 ECWs should be used as a tool of need and not one of convenience. This means that members should not over-rely on ECWs in situations where more effective alternatives which use a lesser degree of force, such as verbal de-escalation, are available and appropriate. The ECW may be used when other less-lethal options are not practical, or their use will not achieve the desired law enforcement objective;
- 7.9 ECWs shall not normally be used on the *Elevated Risk Population*; however, in exceptional cases, the devices may be used **only** if justified by: i) the need to protect subjects, bystanders, or members from imminent physical harm; or ii) the need to effect the lawful apprehension of the subject in circumstances of active resistance;
- 7.10 ECWs shall not be placed in the position where the member usually carries, or is expected to carry his/her firearm;
- 7.11 ECWs shall not be intentionally aimed at sensitive areas of the body such as the face, eyes, head, throat, female breasts, groin, genital, or known pre-existing injury areas;
- 7.12 the management of ECWs shall be of such that it minimizes the likelihood of multiple users on a single subject.
- 7.13 where the subject requires medical attention, JCF member shall inform the medical personnel conducting evaluation that the subject experienced ECW activation.
- 7.14 there shall be a *Jamaica Constabulary Force Electronic Control Weapon Register* within which the record of all issuing and receiving of ECWs shall be entered.

8.0 STANDARD OPERATING PROCEDURES

8.1 Deployment of ECW

The following procedures must be adopted when using ECWs:

- 8.1.1 all ECWs must be treated as loaded even if it is without the cartridge.
- 8.1.2 before deployment, competent members must consider the totality of circumstances such as: the subject movement, officer's visibility and ability to accurately deploy the device, the risk of accidental contact with unintended sections of the body or other persons and the likelihood of secondary injury;
- 8.1.3 members should never pull a firearm and an ECW at the same time;
- 8.1.4 the ECW and police canine should never be deployed simultaneously on a subject;

- 8.1.6 as far as is practicable, competent members should issue the following verbal warning prior to deployment: '*Taser Taser Taser*'. During this warning, competent members should also activate the arc mechanism of the device
- 8.1.7 after the verbal warning, a reasonable amount of time should be allowed for the subject to comply, unless giving time to comply will increase the risk of injury to subject, members or others or prevent the lawful apprehension of the subject;
- 8.1.8 in the event there is the need to use an ECW, it shall be discharged for an initial five second cycle;
- 8.1.9 after the initial cycle, in the event that the subject appears to be incapacitated, members must act quickly and effectively in order to control the subject; and
- 8.1.10 in the event the subject does not appear to be incapacitated and the situation is still unresolved, the competent member may consider further secondary deployments each lasting in five seconds duration.
- 8.1.11 the subject should not be exposed to more than three ECW cycles, that is, fifteen seconds of electric discharge. More than three ECW cycles may increase the risk of serious injury or death.

8.2 The Following are Prohibited

- 8.2.1 ECWs shall not be used against subjects in physical control of a vehicle in motion
- 8.2.2 ECWs should not be used when a subject is in an elevated position where a fall may cause substantial injury or death.
- 8.2.3 ECWs shall not be used in the known presence of combustible vapours and liquids or other flammable substances.

8.3 Post – Deployment

Members shall obtain medical assistance for subjects if any of the following occurs:

- 8.3.1 the subject requests medical attention;

APPENDIX 'B' TO FORCE ORDERS NO. 3908 DATED 2022-04-28

1. INTRODUCTION

Over the years, some police-citizen encounters, ranging from routine stop and search to the use of deadly force, have ended in controversy. Many of these incidents have degraded police-citizen relations and sparked negative commentaries on law enforcement. While investigations usually bring some resolution, they are often lengthy and fraught with distrust especially with the absence of video or photographic evidence.

The Jamaica Constabulary Force (JCF) recognizes that still and video recordings from body-worn cameras (BWCs) provide vital evidence add transparency, and increases accountability to the investigative process. Recordings of BWCs can be seen as that 'built-in impartial witness' that allows for increased efficiency reliability thereby engendering trust and confidence in the justice process.

In recognition of these benefits the JCF introduced BWC in 2017. The organization has steadily increased the numbers in recent times and will continue greater roll-out over the ensuing years. The policy and standard operating procedures of 2017 is hereby revised to broaden the scope, use and management of BWCs.

2. PURPOSE

This document outlines the JCF's policy and standard operating procedures for the procurement, issuance, use, care, and maintenance of BWCs, related equipment and accessories as well as the management of BWCs' recordings.

3. SCOPE

3.1 This policy and standard operating procedures shall apply to all sworn and unsworn members. It covers the procurement, issuance, use, care, maintenance and disposal of BWCs, related equipment and accessories as well as the management of BWCs' recordings obtained from policing operations.
