SERIAL NO. 3865

Sub. No. 1 **JAMAICA CONSTABULARY FORCE POLICY AND STANDARD OPERATING PROCEDURES ON THE MANAGEMENT OF DOMESTIC VIOLENCE**

Attached to these Orders as [Appendix 'A'](#) is the Jamaica Constabulary Force Policy and Standard Operating Procedures on the management of Domestic Violence for general information.

Sub. No. 2 **REMINDER - UPGRADING OF THE TECHNOLOGY AT THE POLICE CONTROL CENTRE AND ITS IMPACT ON OPERATIONS**

Force Orders No. 3639, Part I, Sub. No. 2 dated 2017-03-02 is hereby republished for general information.

The Ministry of National Security has embarked on a significant technological investment at the **Police Emergency Communication Centre (PECC)** in order to improve efficiency and service standards. The implementation has been done in phases starting at **Police Emergency Communication Centre** in Kingston followed by the other Area Control Centres. The technological upgrades include:

- the P 25 (upgrading the radio network from analog to digital);
- the Avaya 119 system; and
- the **Computer Aided Dispatch (CAD)** system which include the Automatic Vehicle Locator (AVL).

The Automatic Vehicle Locator (AVL) Technology allows dispatchers at Kingston **PECC** to view the location of units out on patrol in real time.

This upgrade will impact the procedure of **Police Emergency Communication Centre** and its interaction with the operational assets. Consequently, there will be improvement in response time, supervision accountability and overall effectiveness.

In order to facilitate this process, **commencing Monday, February 6, 2017** the following changes took effect:

1. When reporting commencement of duty to **Police Emergency Communication Centre**, **personnel are required to provide:**
 - **Registration Plate number of Patrol Vehicles**
 - Regulation Number (Inspectors and Officers the number on their ID card), name, rank and call sign for the unit. This is in keeping with the predefined syntax of the **Computer Aided Dispatch (CAD)** system. All units are required to inform Police Emergency Communication Centre of their statuses, for example:
 - enroute to an assignment or arrival at scene, etc.
 - All assignments must be reported off to **Police Emergency Communication Centre** immediately upon conclusion.
 - **Police Emergency Communication Centre** must be informed of all assignments not initiated at the Police Emergency Communication Centre, for example, assignments given by supervisors, responding to report from citizens, traffic stops, etc.

2. There will be a rationalization of Areas 4 and 5 circuits which will be promulgated later.
3. This upgrade will also have implication for the format and length of Radio Messages.

Commanding Officers must ensure that the provisions of this sub-head are brought to the attention of members under their command by way of lectures for the next six (6) weeks.

REMINDER - JAMAICA CONSTABULARY FORCE QUALITY MANAGEMENT POLICY

Force Orders No. 3864, Part I, Sub. No. 1 dated 2021-06-24, is hereby republished for general information.

Jamaica Constabulary Force's Journey towards ISO 9001 Certification

An important aspect of our continued efforts at reform and modernization is the adoption of standards and the commitment to give quality service to both internal and external customers. The move to ISO 9001 certification is one bold step that not simply communicate to the world our commitment to quality service but, more importantly, sets that framework and enabling environment for every member to insist on achieving quality in every aspect of his/her tasks, duties and responsibilities. It is against this background that we have developed the Jamaica Constabulary Force (JCF) ISO 9001 Quality Management Project.

Project Description

The JCF is implementing ISO 9001 standard at its headquarters and three sites namely; the Police Emergency Command Centre (PECC), Duhaney Park and Matilda's Corner Police Stations. The Implementation of an ISO 9001 quality management system (QMS) is geared towards:

- developing service standards of quality to meet the needs and expectations of our customers;
- standardizing procedures and work instructions to ensure quality of service are adequately defined and consistently delivered;
- mapping processes to ensure all persons understand the interrelation and interdependence to create better linkages between core operations and the support branches;
- integrating tools and technology to improve efficiency and turnaround in executing our operations;
- engaging members to identify improvements and become involve in implementing these improvement actions;
- gaining international recognition for our services and promoting the JCF brand; and
- demonstrating to key local and international stakeholders JCF's commitment to enhancing service delivery and performance.

Project Scope

The services under the current scope for certification are crime investigation services, patrol and emergency response, intervention and preparation of official reports. The JCF will begin with these services and expand to other services.

In coming years, the standard will be integrated in all our services at every location on a phased basis. The JCF is committed to ensuring that quality management becomes a way of life. The current move to ISO 9001 certification is therefore not a pilot programme, but a new approach at service delivery.

APPENDIX 'A' (CONT'D) TO FORCE ORDERS NO. 3865 DATED 2021-07-01

1. Background

Domestic violence is among the incidents that most frequently come to the attention of the police and, if the interventions are not timely and effective, can be detrimental to not only the parties involved but the wider community and may result in the erosion of public confidence in the police.

The term 'domestic violence' is used to describe the range of actions or omissions in relationships (including past relationships) where the perpetrator maintains power and control over his or her victim. Perpetrators' actions may include physical, sexual, psychological or emotional, verbal abuses and threats, while omissions include but not limited to confinement and or deprivation of physical, financial and personal resources. The impact of domestic violence can be extremely traumatic and often the victims suffer mental and psychological complications as well as a range of physical injuries and even death.

The most common form of reports of domestic violence in Jamaica is spousal abuse. While both sexes are affected, women and girls constitute the majority of victims and men the main perpetrators.

The Jamaica Constabulary Force (JCF) acknowledges an awareness that, within the context of a worrying crime environment, domestic violence has become a focal point of great concern. Consequently, the domestic violence protocols have been reviewed and a more contemporary and robust prevention and protection response crafted to treat with incidents from the first report to the final resolution.

2. Purpose

The purpose of this policy and standard operating procedures is to ensure that there is consistency in the understanding and awareness among all members of the problem of domestic violence and to present a standardized way in which the reports are managed.

APPENDIX 'A' (CONT'D) TO FORCE ORDERS NO. 3865 DATED 2021-07-01

4. Definition - Domestic Violence

Infliction of harm or threat of harm perpetrated by individuals within the context of a relationship whether through intimacy, blood or law; and includes, sexual and physical violence as well as mental, emotional and financial abuse.

Practical demonstrations of domestic violence involve intimate partner violence (spousal abuse), child abuse, sibling abuse, same sex relationship abuse and abuse of the elderly. Domestic violence can occur in private or public and usually manifests as verbal abuse, threat, assault, wounding, malicious injury to property and ultimately murder.

5. Policy Statements

The JCF reaffirms its commitment to the protection of life and property and the preservation of peace and good order. As such, it is our policy that:

- 5.1 members will respond expeditiously to all reports of domestic violence and must not dissuade anyone from making a report;
- 5.2 all reports of domestic violence will be treated seriously with the requisite confidentiality, sensitivity and tact;
- 5.3 the rights, safety and dignity of the party(ies) to domestic violence will be maintained; and
- 5.4 investigative, protective, and preventative actions are instituted in the management of domestic violence.

6. Standard Operating Procedures

The following procedures shall apply in responding to reports of domestic violence:

- 6.1 Reports of domestic violence must be recorded in the Station Diary or Station Record Management System (SRMS), indexed with the violence attribution code "B" in red ink under the subject "Domestic Violence", and cross referenced at the back of the said Station Diary. The diary entry must include the relationship between the victim(s) and the accused, their living arrangements (eg. living together, living apart); and (c) the reason for the conflict.
- 6.2 The complainant must be issued with a Customer Reference Form, CR10.
- 6.3 Victims that are severely wounded or present with life-threatening conditions, must immediately be transported by the police to a medical facility. If no service vehicle is immediately available, the injured party may be transported by other means under police escort.

APPENDIX 'A' (CONT'D) TO FORCE ORDERS NO. 3865 DATED 2021-07-01

- 6.4 In cases where injuries are not serious or life-threatening, the police must advise the victim to seek medical attention.
- 6.5 All victims who sustain or complain of injury must be issued a letter by the police to seek medical attention and obtain a medical certificate (**Appendix A**).
- 6.6 The complainant must be interviewed in an appropriate area that allows for confidentiality.
- 6.7 A statement must be recorded from the complainant at the earliest opportunity. The statement must contain the following elements:
- a) name, address, age, sex and occupation of the complainant,
 - b) name, address, age, sex and occupation of accused,
 - c) relationship of the accused to the complainant/parties involved,
 - d) nature of the dispute/conflict, and
 - e) any injuries received, weapons involved, threat(s) made, destruction to property etc.
- 6.8 Where the report constitutes threats, the accused must be located in person and warned not to carry out the threat. This warning must be in accordance with the procedures in dealing with threats.
- 6.9 Where the incident involves, impacts or is likely to involve or impact children, the member must immediately contact the Child Protection and Family Services Agency (CPFSA) and inform the Shift Commander. The member must then apply the appropriate procedures in dealing with children who are either: i) in conflict with the law; ii) in need of care and protection; or iii) witnesses or victims in keeping with the JCF Child Interaction Policy.
- 6.10 Where the report amounts to a criminal offence, the police must initiate a criminal investigation and take steps to apprehend the offender to be placed before the court.
- 6.11 Where the victim indicates that he or she does not wish to proceed through the courts, a statement to that effect must be recorded.
- 6.12 Where a report does not reach the threshold of a criminal offence; or, where the victim does not provide a statement, the police must:
- a) refer the victim to the JCF Domestic Violence Intervention Centre, the Victim Support Unit, or any other recognized support agency or counsellor using the form attached (**Appendix B – JCF Domestic Violence Intervention Referral Form**)

APPENDIX 'A' (CONT'D) TO FORCE ORDERS NO. 3865 DATED 2021-07-01

- b) advise the victim to take civil action provided for under the Domestic Violence Act, 1998

6.12 Conducting a risk assessment

In all cases of domestic violence, the investigator must conduct a risk assessment in order to determine *inter alia*, the safety of victim(s) or connected or related parties to return or remain at location, and the risk to property(ies). In conducting the assessment, the police must endeavor to gain answers or insights to the following questions:

- a) Was there threat of violence including threat of suicide?
- b) Has the accused displayed uncontrolled aggression?
- c) Are there disagreements that appear immediately unresolvable?
- d) Has the complainant/victim expressed fear of injury?
- e) Has the accused displayed unexplained and unusual silence or withdrawal?
- f) Is the accused in possession of weapons and is unwilling to surrender them?
- g) Does the accused have a history of violence including suicide attempts?
- h) Is the accused known to have mental illness?
- i) Does the accused appear intoxicated or under the influence of drugs?

Having made the assessment, if in the opinion of the police, there is the potential for escalation of conflict, or if the police has reasonable cause to believe that a threat of violence is imminent, the police may make a *preventative arrest*² of the suspect at Common Law. Reasonable cause is substantiated by the (a) statement given by the victim, (b) result of the risk assessment and (c) totality of outcome from the investigation.
