FORCE ORDERS (CONT'D)

19TH OCTOBER, 2023

SERIAL NO. 3985

Sub. No. 6 REMINDER - HURRICANE STANDING ORDERS - JAMAICA CONSTABULARY FORCE

Force Orders No. 3984, Part I, Sub. No. 4 dated 2023-10-12, is hereby republished for general information.

We are now in the hurricane season for 2023 and it is imperative that all ranks be reminded of the actions to be taken in the event that a hurricane affects Jamaica, during the hurricane, or after the passage of the hurricane.

An immediate audit must be conducted on the number of lanterns available at each police station and where there is an inadequate number; representation must be made to the Assistant Commissioner of Police in-charge Services Branch for additional supplies.

HURRICANE STANDING ORDERS

1. The purpose of these Orders is to ensure that:-
 - (a) hurricane warnings are disseminated to all police formations;
 - (b) all practicable precautions are taken in advance to minimize the risk of injury to personnel and the loss or damage to equipment and buildings during a hurricane; and
 - (c) the police take action immediately after a hurricane to make a rapid survey of damage and report to Headquarters, affording possible assistance to those in distress as well as the Municipal Corporations and the Office of Disaster Preparedness and Emergency Management.

WARNING PROCEDURE

2. Information regarding the progress of hurricanes in the Caribbean is supplied by the Meteorological Office to this Headquarters.
3. When a hurricane is likely to affect Jamaica, warnings will be phased as follows:-

PHASE 1	When a notification is received that a hurricane which is likely to affect Jamaica is in the Caribbean. (Hurricane Alert).
PHASE 2	When notification is received that a hurricane is likely to strike Jamaica within 24 hours. (This is the Departmental 24 hours warning).
PHASE 3	When notification is received that a hurricane is likely to strike Jamaica within 12 hours. (This is the Departmental 12 hours warning).
PHASE 4	When notification is issued that a hurricane is likely to strike Jamaica in 6 hours or less.
4. In addition to the above, warnings will be issued through the communications media- newspapers, radios and television. A red flag with a black square will be hoisted at Post and Telegraph Stations to indicate that a hurricane warning has been received. Particulars of the warning will be on the notice board at the stations.

The Harbour Master will cause the following signals to be displayed in Kingston from the flagstaff at his Headquarters, New Port East-

BY DAY	Two red flags with black center squares
BY NIGHT	Two red lights vertically placed six feet apart.

It is appreciated that some rural stations may not receive PHASE4 warning in time and therefore sub-officers in-charge stations should listen to the radio stations after the PHASE 3 warning has been issued.

EMERGENCY CONTROL ROOM

5. At PHASE 2, a National Control Room will be set up at 103 Old Hope Road (Office of the Commissioner of Police) with JDF representatives and necessary equipment.
6. The police will be represented by the Assistant Commissioner of Police in-charge Operations Branch and Superintendent of Police in-charge Telecommunications Division. The latter will provide emergency lighting and auxiliary power supply for all equipment necessary. He will also provide wireless communications on the JCF Network.

ACTION ON RECEIPT OF WARNING:-

7. The Officer at Police Emergency Communications Centre (PECC) on receipt of a hurricane warning from the Meteorological Office will inform the persons attached to Force Orders 3965 as Appendix 'A' by the quickest means available:-
8. Messages should be brief and should contain a summary of the latest weather report, preceded by the phrase "Hurricane Warning Phase one, two, etc."
9. Officers in-charge Areas, Divisions/Formations, Stations and Branches will ensure that warnings are passed to all personnel under their command and occupants of Government Quarters.

RELAXING PRECAUTIONS:-

10. Hurricane Phase will NOT be cancelled or precautions relaxed except on authority from Police Headquarters.

PRECAUTIONS BEFORE AND AFTER A HURRICANE:-

11. Attached to Force Orders 3965 as Appendix 'B' is the general precautions to be taken before and after a hurricane. This list will be valuable not only to the Police, but to members of the public who seek advice and information at Police Stations.
12. Attached to Force Orders 3965 as Appendix 'C' gives the preparations which are to be made by the Police in regards to their stations and duties.

CHARACTERISTICS OF A HURRICANE:-

13. The general characteristics of hurricanes are given at Appendix 'D' to Force Orders 3965.

ACTION DURING HURRICANE

14. All fires in cooking stoves will be extinguished.
15. All ranks will remain safely indoors or suitable cover.
16. Wireless communications will be maintained if possible with all stations. When radio equipment is threatened, the set will be secured and outside equipment taken down and stored. Before this is done, PECC should be informed of the closing down of the Station.
17. Wireless contact shall be established as soon as possible. The Superintendent in-charge Telecommunications Division will direct immediate action to repair any damaged wireless equipment, and will treat the re-establishment of communications with the highest priority.
18. Immediately the weather abates, police should be dispatched in several directions throughout the districts to make a rapid survey of damage done to property, buildings, cultivations and communications.

ACTION AFTER HURRICANE

20. In any event, Area Officers will forward to PECC, daily reports by 1:00pm and, additionally, each day as the situation warrants and/or as directed by the Commissioner of Police.
21. As soon as the necessary information is collected, a full report (in duplicate) of all damage, under the following headings, will be forwarded to Police Headquarters by Divisional Officers through Area Officers:-

The police may be called upon to perform duties which are not provided for in these Orders, and all ranks must be prepared to do everything necessary to restore normalcy. It must be clearly understood, however, that this instruction does not include authority to incur expenditure which cannot be subsequently justified.

MOBILE RELIEF COLUMNS

24. These will be provided as directed by the Commissioner of Police and each detail will be commanded by an Inspector, at least.

Assistant Commissioner of Police, Specialized Operations, will therefore maintain a Special Store of suitable food, water and first aid items for this purpose.

The purpose of the Mobile Relief Column will be to render assistance after the hurricane to persons, especially children, marooned and suffering in otherwise inaccessible areas.

ASSISTANCE TO MET OFFICE

25. When members of the staff are unable to contact their office at the Norman Manley International or Donald Sangster International Airports after a hurricane, they will report to the Highway and Safety Patrol Division, Elletson Road or the Freeport Police Station in Montego Bay for assistance.

The Police Officer concerned will contact the National Works Agency to provide transport and will render any other assistance possible.

If telephone communication is impossible or non-existent when the MET Office wishes to pass a hurricane bulletin to Police Headquarters, etc., such bulletin will be passed in writing to the police station at the Norman Manley International Airport.

The police there will pass the information to PECC by the fastest means available. The Officer at PECC will then notify the following as to its contents – Radio Stations, Telephone Companies and Central Emergency Relief Committee. All members will ensure that they are aware of the provisions of the Hurricane Standing Orders.

APPENDIX 'A' (CONT'D) TO FORCE ORDERS NO. 3985 DATED 2023-10-19

1.0 Introduction

Increasingly, law enforcement entities in contemporary liberal democracies rely heavily on sound empirical data/information for decision-making at the strategic, operational and tactical levels. The Jamaica Constabulary Force (JCF) is no exception. As the agency with the mandate for crime and disorder prevention, detection and solution, data/information has become the major linchpin on which the organization's priorities, strategies, policies and standard operating procedures are contemplated, developed, executed and monitored.

Social research plays a critical role in providing empirical data/information for knowledge management within the JCF. For its part, research transcends and mitigates errors in ordinary human enquiry, and has guided the discovery of a plethora of law enforcement theories, models, approaches, apparatuses etcetera, all of which aided members' understanding of the social world in which they operate.

Akin to increasing the understanding of the policing landscape, social research provides a framework for more insights of what works and by extension, what does not work across time, in different jurisdictions and within particular context. In this regard, the JCF through social research is positioned to adopt and adapt proven strategies, policies and approaches to address contemporary policing challenges to effectively fulfil its mandate.

2.0 Purpose

The purpose of this policy and standard operating procedures is to provide a framework for the management of social research within the JCF.

3.0 Scope

This policy and standard operating procedures apply to members engaged in social research as components of their duties as well as in cases where the organization collaborates with individuals or entities in joint research projects.

5.0 Policy Statements

The Jamaica Constabulary Force (JCF) recognises that its continued relevance and ability to satisfy stakeholders rest heavily on the extent to which it is able to make decisions derived from sound, objective and empirical information and up-to-date research. Against this background, the organization will conduct or collaborate with individuals or institutions that conduct studies designed to contribute to the discourse and knowledge of law enforcement or the wider security sector. It is therefore the policy that:

- 5.1 during the annual planning session, the Director, Planning, Research and Development Branch (PRDB) will develop an Annual Research Schedule of studies that will be undertaken for the successive year;
- 5.2 the Deputy Commissioner of Police, Force Development and Logistics Portfolio (FDLP) will review and approve the Annual Research Schedule;

- 5.3 the PRDB will conduct social research designed to contribute to the discourse and knowledge of the JCF, law enforcement or to the wider security sector;
- 5.4 the organization may collaborate with persons or institutions to conduct studies that are designed to contribute to the discourse and knowledge of law enforcement or to the wider security sector;
- 5.5 prior to the commencement of, or involvement in any research that will impact national security or organizational policy, the researcher or entity responsible for conducting the research must clearly articulate the research objective(s), and obtain approval from the High Command;
- 5.6 approval for research will be granted only where studies will be consistent with organizational policies and serve the public interests;
- 5.7 all studies conducted by, or on behalf of the Force shall be in a manner that protects the interests of the JCF, national security, and safeguard the privacy, confidentiality and anonymity of all subjects;
- 5.8 where collaborative studies involve collecting data about the public, the researcher must first obtain *research ethics approval* from their respective institutions and approval from the High Command before commencing;
- 5.9 collaborative research projects with other organisations that are subject to external funding, require written agreements and will take into account international conventions, local laws, policies and regulations;
- 5.10 in collaborative research, where applicable, all researchers must be made aware of, and indicate their understanding of, and agreement to comply with all related laws, policies and written agreements. These include those relating to intellectual property, publication and dissemination of research results, and the management of research data and primary materials; and
- 5.11 public release of findings of research must be authorised by High Command.

6.0 Standard Operating Procedures

The following shall apply when undertaking research:

6.1 Problem Identification

The head of the Research Unit or designee shall collect background information and discuss with research team the nature and description of the problem, objectives of the research (to explore, explain or describe) and the rationale or significance of the study.

6.2 Literature Review

The research team shall then conduct a review of related literature. The review should examine, *inter alia* how the study relates to a larger on-going dialogue surrounding the topic, and provide an overview of specific theoretical/conceptual/analytical frameworks. Depending on the nature of the

study, the review may be; contextual, historical, integrative, methodological, self-study, or theoretical.

6.3 Research Design

6.3.1 Once the research team has completed the review of literature, the next step is to design the study by creating a framework or plan which will guide the research. The research design should indicate the type of study that will be undertaken. These include:

- i) Exploratory
- ii) Descriptive and
- iii) Explanatory/Analytical/Causal Design (Experimental Design).

6.3.2 Other elements to be considered are design types such as: Cohort, Longitudinal, Cross-Sectional or Case Study.

6.3.3 The research team must also determine; i) research question(s)/hypothesis(es) to be answered; ii) conceptual and operational definitions of key variables; iii) methodology which includes methods, population and sampling, iv) instrument design; v) data collection, analysis and presentation.

6.4 Fieldwork

Once the research has been designed, the research team conducts the fieldwork. These may include conducting the range of interviews, observations, document reviews, administration of questionnaires, focus group sessions, amongst others in an effort to find data to address the research problems.

6.5 Findings and Analysis

Once the fieldwork is completed, the team must collate the findings via a combination of appropriate narration, tables, charts and graphs. The findings component includes extraction of the questions or elements that guided the enquiry, and the corresponding results unearthed during fieldwork. The analysis component includes making sense of the data. This involves moving from descriptive to inferential analysis in respect to quantitative data. In relation to qualitative data, the approach is to transform huge volume of raw data via; i) data reduction, ii) data display and iii) conclusions and verification.

6.6 Conclusion and Recommendations

6.6.1 The conclusion and recommendations sections may be combined or, in extensive studies, presented in separate sections. In extensive studies, the conclusion and recommendations may be presented in point form. The conclusion must relate directly to the research questions or hypothesis, highlight the significant features of the research design, summarise the key findings of the discussions, and detail the dominant outcomes of the research. It may also outline the extent to which the study's aim was achieved while acknowledging the limitations.

APPENDIX 'A' (CONT'D) TO FORCE ORDERS NO. 3985 DATED 2023-10-19

6.6.2 The recommendations should be guided by the research findings and propose solutions. This section may also contain components that make recommendations for future related studies.

6.7 Structure of Research

The research must contain the following elements:

1.0 Introduction

Policies and standard operating procedures (SOPs) are important components in the Jamaica Constabulary Force's (JCF's) tool box. They provide guidelines on the organization's standards and communicate directions and protocols in keeping with laws, regulations and best known practices. Members are required to read, understand and apply policies and SOPs in order to optimize synergy between individual performance and the organization's mandate.

This *Policy for the Management of Policies and Standard Operating Procedures* represents a revised structure of how policies and SOPs will be managed in the JCF.
