6TH JULY, 2017

SERIAL NO. 3657

Sub. No. 1 REMINDER - UNAUTHORIZED STOPPING OF MOTORISTS BY PERSONNEL FOR SALE OF TICKETS ETC.

Force Orders No. 3329 Part I Sub. No. 1 dated 2011-03-24 is hereby republished with modification for general information and strict compliance.

It has been brought to the attention of the High Command that despite previous publications in Force Orders police personnel are still engaging in the practice of stopping motorists to effect the sale of tickets for fund-raising ventures. This practice reflects negatively on the Jamaica Constabulary Force and is tantamount to an abuse of the Office of Constable which will not be countenanced.

Under no circumstances should the police be engaged in selling fund-raising tickets for themselves or on behalf of any other organization. This practice must cease with immediate effect.

If any such complaints are received as it relates to sale of tickets, magazines or other paraphernalia it will be regarded as a direct disobedience of this directive and will be vigorously investigated and strong disciplinary action taken.

Commanding Officers will therefore ensure that this information is communicated to personnel under their command by way of lectures.

Sub. No. 2 REMINDER - TRANSFER OF DISTRICT CONSTABLES

Force Orders No. 3651, Part I, Sub. No. 4 dated 2017-05-25, is hereby republished for general information.

District Constables are appointed by the Commissioner of Police to serve the parish from which they were recruited and in most cases, to serve the specific district in which they live, hence the term District Constables.

District Constables are required to work closely with the residents in their districts and therefore are expected to have a wealth of local knowledge which can be useful to the Divisional Commander.

Section 15 of the Constables (District) Act, requires that each Commanding Officer keeps a roll of all District Constables in his/her parish. This is to facilitate proper accountability of the District Constables appointed to serve in the parish (Division).

District Constables do not enjoy certain benefits like those of regular Jamaica Constabulary Force members. As a result, they cannot be treated similarly as this may create severe stress and hardships. Area and Divisional Commanders are hereby reminded that District Constables are not to be transferred like regular Jamaica Constabulary Force members and be moved permanently from the district in which they live and were recruited.

Temporary transfers may be effected for short periods to address specific needs within the Division. Where circumstances change and in the best interest of a District Constable, any request for permanent transfer will be assessed on a case by case basis.

Sub. No. 5

REMINDER - THE JAMAICA CONSTABULARY FORCE (JCF) GANG REDUCTION STRATEGY

Force Orders No. 3656, Part I, Sub. No. 5 dated 2017-06-29, is hereby republished for general information.

The Jamaica Constabulary Force is mandated to provide policing services in a task environment that is unstable, has very limited resources and is extremely violent. Within that context, in the last two years, the JCF has been focusing significant efforts on using the Criminal Justice (Suppression of Criminal Organization) Act, to impact the gangs with varying degrees of success. The Jamaica Constabulary Force Gang Reduction Strategy attached to Force Orders No. 3655 dated 2017-06-22 as Appendix 'A' is designed to ensure all the components of the JCF (investigation and operation) work seamlessly and that joint efforts with external and internal partners are geared towards addressing the gang problem in a coordinated manner.

This strategy recognizes the rate at which gangs have been able to replace their members who have been impacted by law enforcement, making it difficult for the police to dismantle these gangs. In recognition of this reality, this strategy departs from previous anti-gang efforts, by placing greater focus on the important issue of prevention and diversion of persons who are likely to join gangs or those who are on the fringes and can be pulled back from becoming core members.

The strategy also recognizes the important role played by environmental design in either making it harder or easier for gangs to operate with impunity. A joined up government approach to treat with critical issues in the justice system and at the community level, is therefore required.

In that regard, this strategy is built around the following components:

- Suppression
- Prevention and Diversion
- Supportive Environment for Successful Anti-Gang Efforts

Sub. No. 6 REMINDER - AMENDMENT - NON-ATTENDANCE OF POLICE WITNESSES AT COURT

Force Orders No. 3656, Part I, Sub. No. 2 dated 2017-06-29, is hereby republished with amendments, for general information and strict compliance.

It is noted that despite the republication of instructions contained in Force Orders No. 1366, Part I, Sub. No. 4 dated 9th August, 1973, the practice of police witnesses failing to attend courts still gives cause for concern. The unnecessary delays caused by such non-attendance may be classified as discourtesy, disrespect and contempt of the courts and the process of justice.

In addition, warrants have been executed on several police witnesses in recent times because of their failure to attend court when required and suitable arrangements were not made to properly inform the court of their inability to attend. Court attendance by police witnesses is a priority and must always be treated professionally.

In cases where a Prosecution Liaison Officer (PLO) has been appointed, investigating officers retain full responsibility for the case and should utilize the PLO to undertake activities on their behalf, in particular, attendance at court for Mention Date, Plea and Case Management Hearings etc., providing that the PLO has been fully briefed and the outstanding actions are being dealt with expeditiously.

This will then allow the investigating officer to undertake further investigative enquiries and to promptly address all outstanding actions required to ensure that an effective prosecution is made.

Investigating officers should only attend court for a known bail application and for any trial date(s)

If for any good reason a member of the Force is unable to attend court when required to do so, every effort must be made to inform the court in good time before the hearing, giving reason(s) for the non-attendance.

Every case of infringement will be regarded as disobedience of my orders, and disciplinary action will be taken by way of Court of Enquiry.

Where a member has properly reported sick and is unable to notify the court of his inability to attend court, it shall be the responsibility of his supervisor to ensure that the courts are so informed in advance of the cases being mentioned and a report along with a copy of the medical certificate submitted to each court where the member has a case.

Where a Sub-officer or Constable is required to attend more than one court on the same date, the higher Court takes precedence over the lower and priority should be given to trial cases and cases appearing before the court for the first time. In any case, Clerk of Courts should be informed of the intended absence before the date of the case or as soon as is practicable, before the commencement of the case.

On no account should any member of the Force fail to attend court when required to do so without first informing the Clerk of the Courts.

Force Order No. 3656, Part I, Sub. No. 4 dated 2017-06-29, is hereby republished with minor amendments for general information.

The Nature of policing requires periodic engagement in emergency patrol and pursuit operations. All personnel are hereby reminded of the policy treating on the matter.

The following is an extract from the Jamaica Constabulary Force Patrol Policy and Procedures published in its entirety in Force Orders No. 2272 dated 1990-12-20 and an extract published in Force Orders No. 3258 dated 2009-11-12, for general information and strict compliance.

- A. This section deals with procedures relating to patrol or other police responses to calls for police service. There are three classes of calls:
1. priority one call - this is a call of extreme emergency when a police vehicle is engaged in pursuit circumstances or is responding to a high priority call or a sudden state of danger requiring immediate police action.

The following constitute priority one calls:

- a. response to a life-threatening situation or serious crime-in-progress such as burglary, bomb threat, kidnapping, police personnel in distress situations, prowler calls, fire, etc.;
- b. senior or specialized staff responding to a major incident which requires their immediate attention such as Area, Divisional or other Senior Officer, bomb squad, hostage negotiators, etc.;
- c. an emergency police escort of VIPs and critically injured persons;
- d. a pursuit driving situation where an emergency equipped police vehicle is used in attempting to apprehend the occupant(s) of another motor vehicle, whose driver refuses to comply with police directions to stop and attempts to flee;

2. priority two call - this is classified as urgent, a situation which is not life threatening or dangerous as in a priority one call, but has the immediate potential of extreme danger unless contained by the availability of on-scene personnel;
3. priority three call - this is a routine call following normal request procedures which does not have the character of immediate danger.
- B. During an emergency situation, all Force drivers involved shall drive with due regard for the safety of all persons. A Force driver in such circumstances has a duty to be careful and is therefore not relieved from care and accordingly not protected from the consequences of his reckless actions. All drivers shall obey the Road Traffic Act and Regulations where these apply.
- C. Force drivers shall avoid engaging in or shall terminate any emergency driving when conditions indicate that the safety of police personnel or the community is in jeopardy, or on the instructions of his supervisor or Police Emergency Control Centre.
- D. The Force driver must constantly evaluate the risks involved in an emergency response and report at regular intervals to Police Emergency Control Centre for directions. Conditions to be considered are:
 1. reason for the emergency police action;
 2. traffic density and pedestrian volume;
 3. road and weather conditions;
 4. speed involved and time of day;
 5. type of area, whether business or residential;
 6. availability of additional police units to assist whether to intercept or at the scene or otherwise;
 7. knowledge of the offender or suspect's identity or danger to the community if the suspect is not immediately apprehended.
- E. Vehicles engaged in emergency operation shall utilize roof lights and siren. In cases of crimes in progress, etc., the siren shall be utilized up to the point where it may be heard at the scene of the crimes, the lights shall be utilized until they may be visible at the scene.

Unmarked vehicles equipped for emergency response shall utilize the removable roof light plus the head lights. Once either the lights or siren are discontinued, emergency operation shall be terminated and police personnel shall revert to normal road use.
- F. Police vehicles not equipped with emergency equipment blue lights and siren shall not undertake an emergency response except under the most critical of circumstances and will advise control of same. If dispatched to a high priority incident (priority 1 or 2) personnel shall respond in obedience to all traffic laws.
- G. Police personnel shall not engage in an emergency operation while transporting non-police persons (prisoners, witnesses, parents of juveniles, etc.).

No efforts should be spared in offering a full and honest explanation to the grievant why the relief he/she seeks cannot be received.

TO FORCE ORDERS NO. 3657 DATED 2017-07-06

In each person's effort to adopt an healthy lifestyle one should also be aware that medical disorders may still occur in spite of adopting an healthy lifestyle. However, if these disorders can be detected early then effective treatment is more likely. Hence the need for health screening.

HEALTH SCREENING

Health screening is a proactive or preventive method used in modern medical practice to detect medical (physical or mental) disorders at a stage when signs and symptoms of same are not obvious.

As a result the tests used in health screening allows for early detection/ diagnosis of disorders thus facilitating early intervention and management and reducing suffering and fatal outcome of disorders. Reducing latter will preserve an individual's social and occupational functioning, quality of life and reduce burden on family and society. The longer a medical disorder remains undetected the more it is likely to become more advanced thus making treatment harder and more likely to have a negative impact on domestic life and job.

World Health Organization — Principles of Screening

World Health Organization guidelines were published in 1968, but are still applicable today

1. The condition should be an important health problem.
2. There should be a treatment for the condition.
3. Facilities for diagnosis and treatment should be available.
4. There should be a latent stage of the disease.
5. There should be a test or examination for the condition.
6. The test should be acceptable to the population.

APPENDIX 'E' (CONT'D) TO FORCE ORDERS NO. 3657 DATED 2017-07-06

7. The natural history of the disease should be adequately understood.
8. There should be an agreed policy on whom to treat.
9. The total cost of finding a case should be economically balanced in relation to medical expenditure as a whole.
10. Case-finding should be a continuous process, not just a "once and for all" project.

Commonly screened medical disorders in Jamaica include hypertension (high blood pressure), diabetes, high cholesterol, heart disease, colon cancer, breast and cervical cancer in women and prostate cancer in men. Frequency or timing of screening tests are partly determined by the age of the individual, gender, risk factors which include family history of a particular disease and overweight.

Health screening is a central role of the services provided at the Medical Services Branch located at National Police College of Jamaica, Twickenham Park, St. Catherine and during the mobile island wide Healthy Lifestyle Program for police officers and civilians working with Jamaica Constabulary Force.
